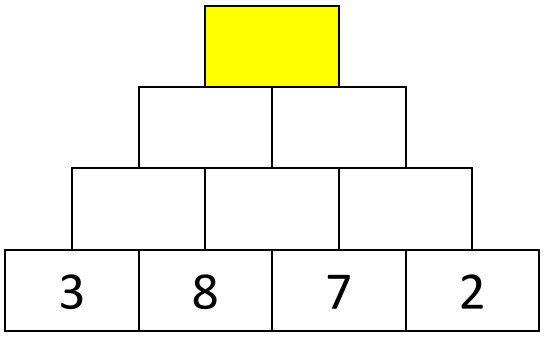
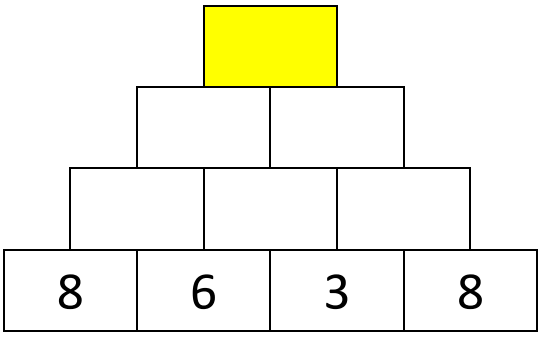
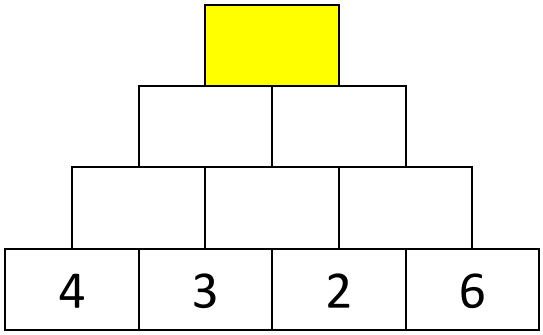
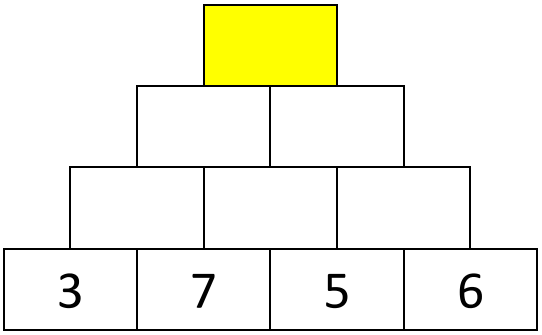
Level C - Pyramid Challenge Number 1

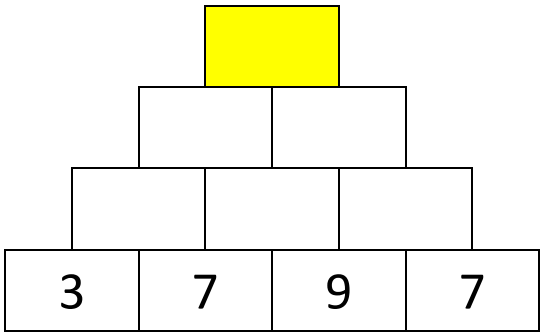
Add the numbers in the two bricks to get the number in the brick above

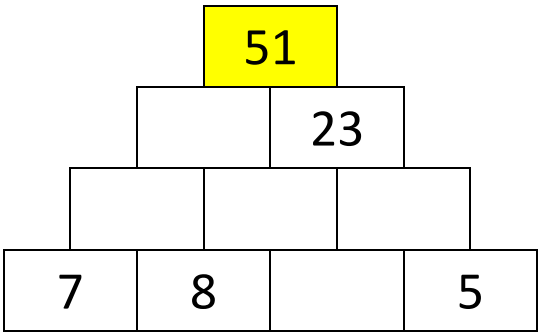


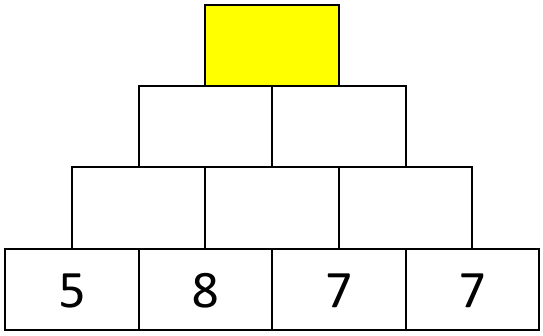


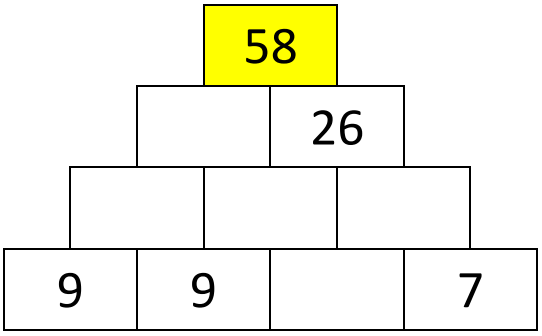


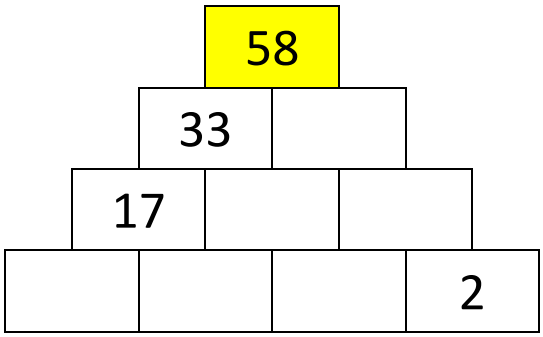


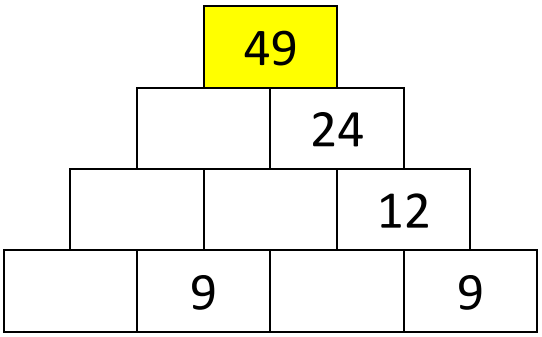






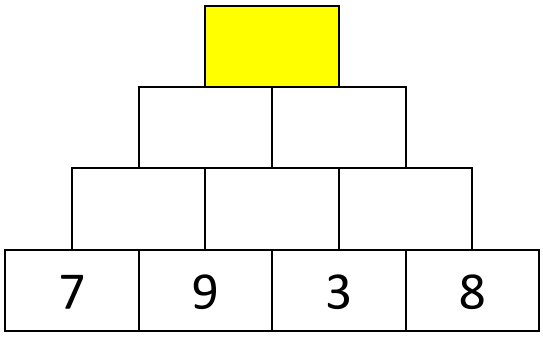


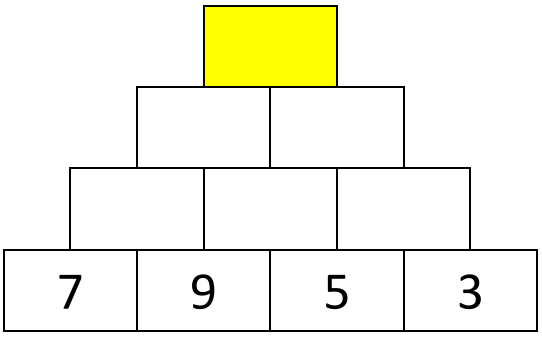


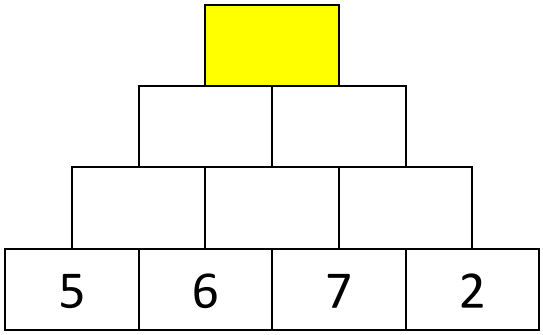


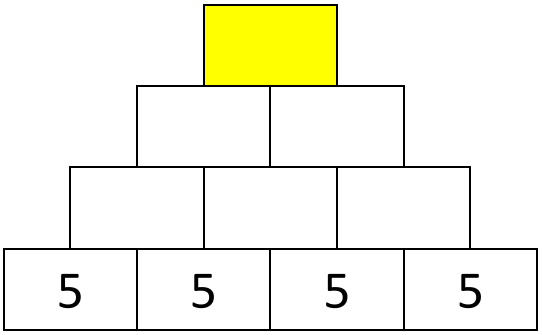
Level C - Pyramid Challenge Number 2

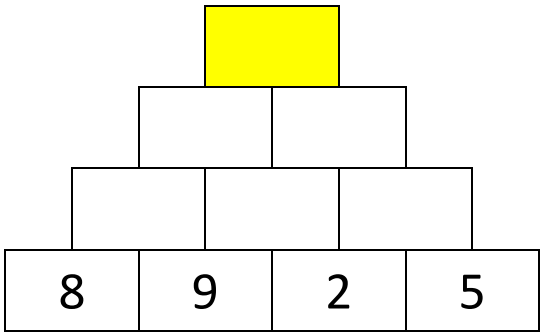
Add the numbers in the two bricks to get the number in the brick above

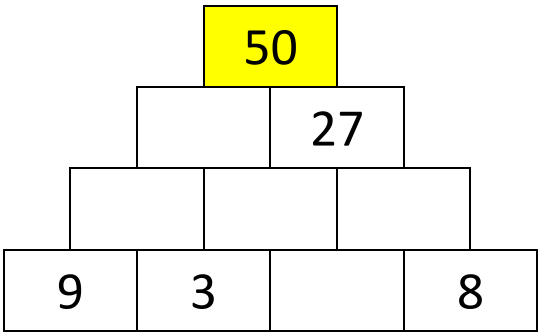


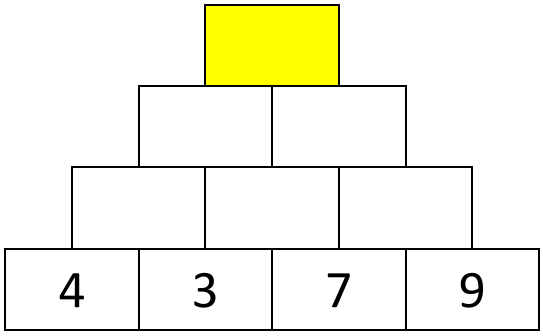


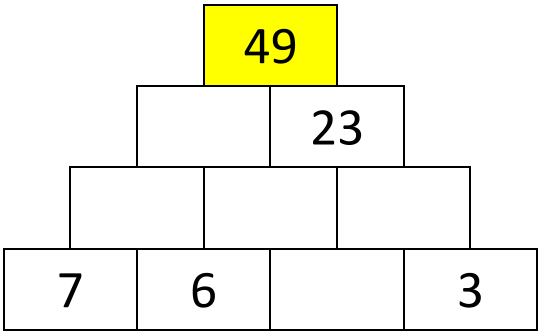


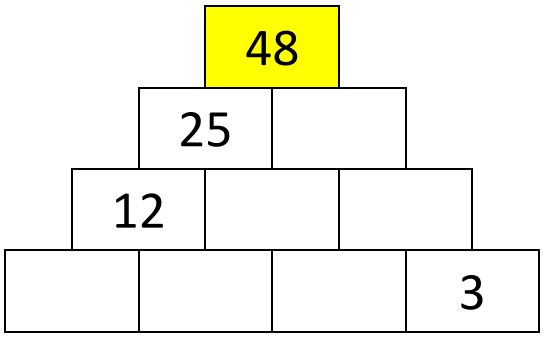


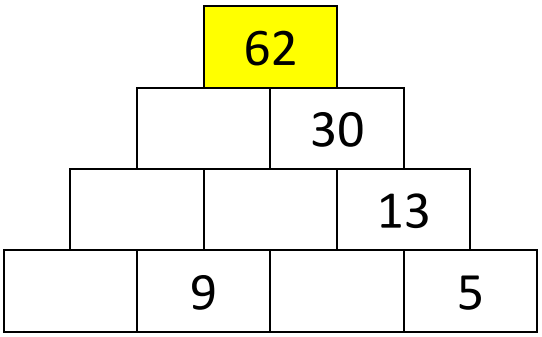






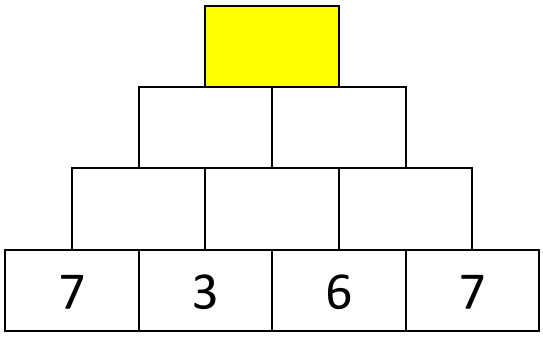


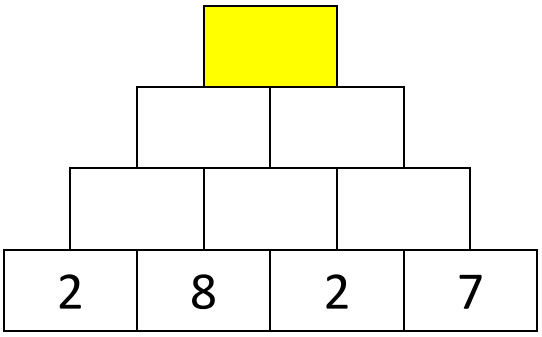


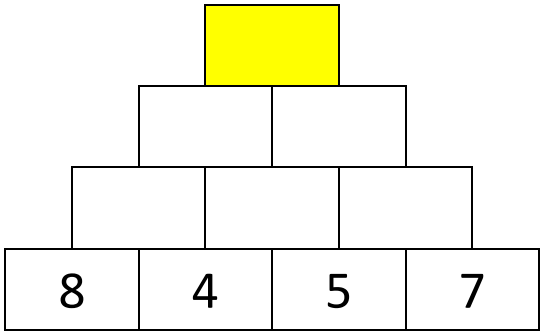


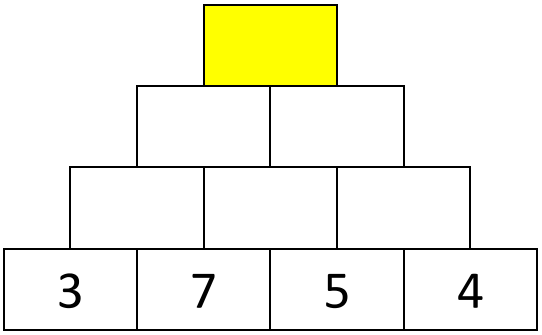
Level C - Pyramid Challenge Number 3

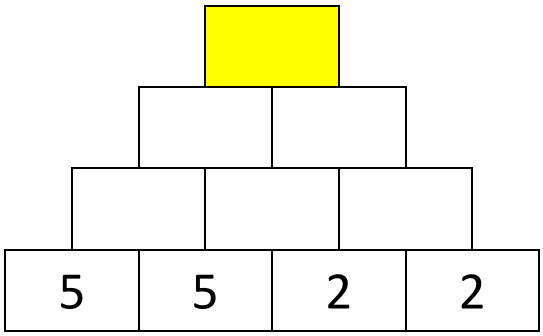
Add the numbers in the two bricks to get the number in the brick above

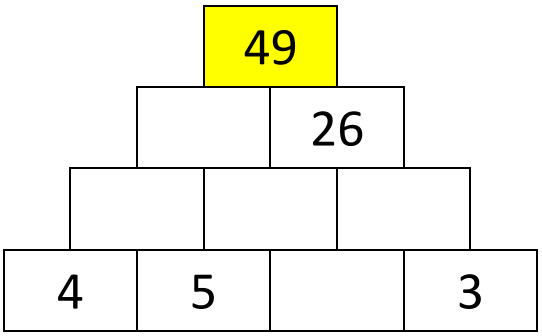


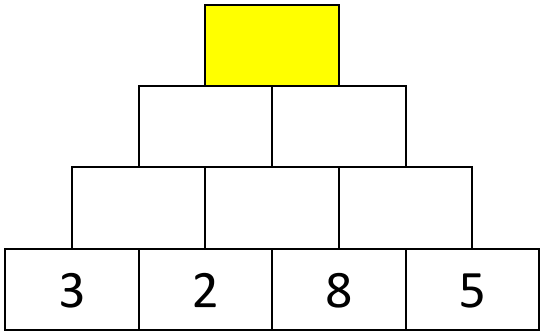


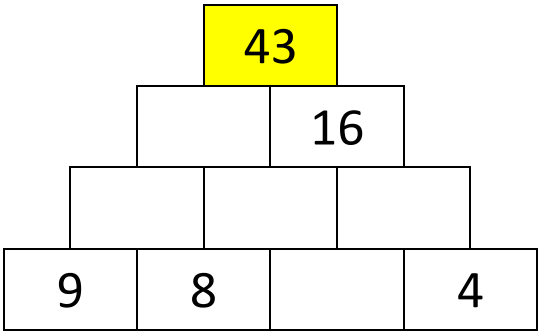


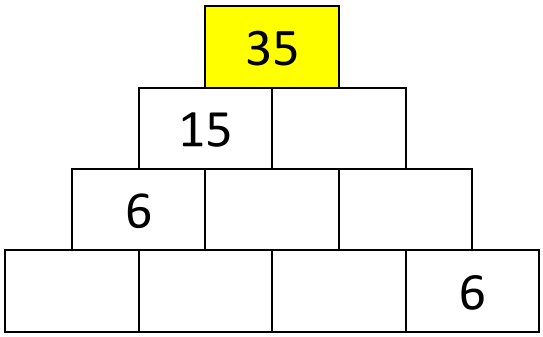


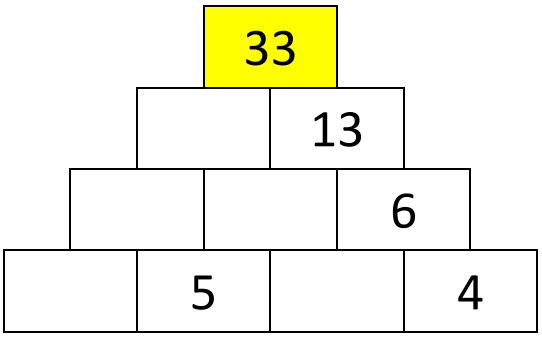






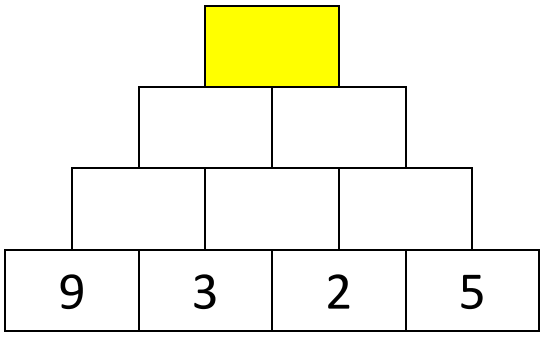


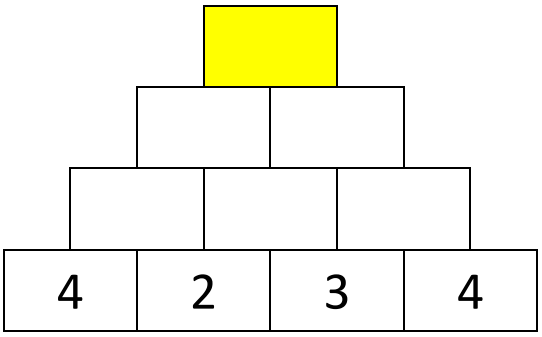


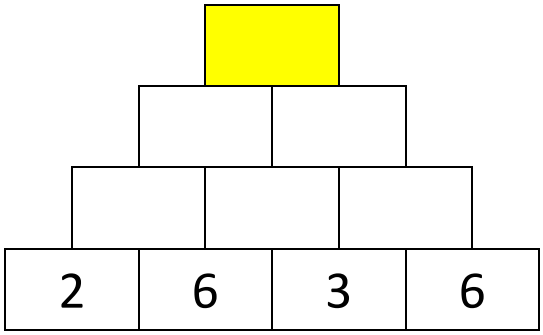


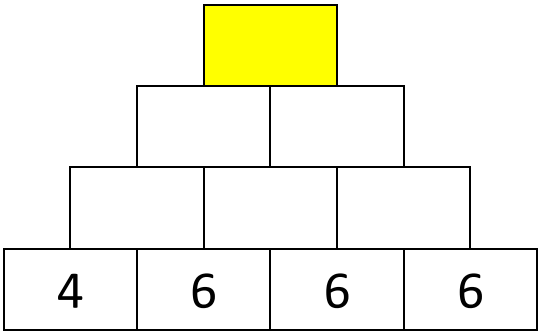
Level C - Pyramid Challenge Number 4

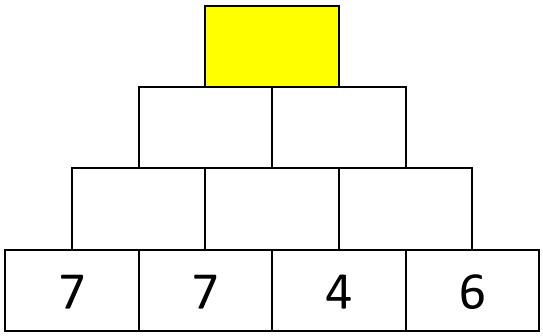
Add the numbers in the two bricks to get the number in the brick above

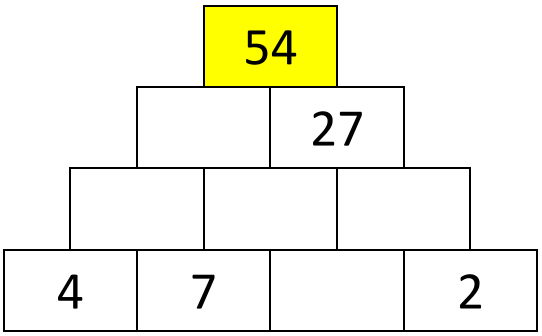


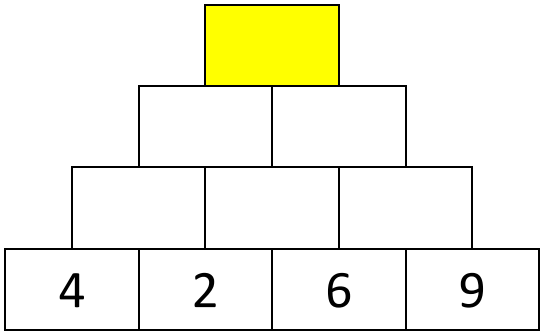


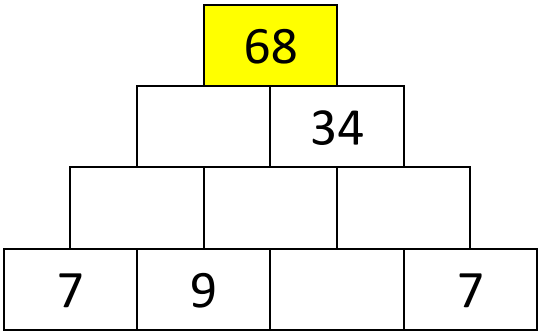


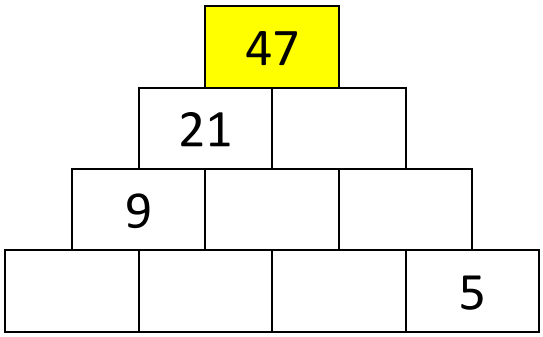


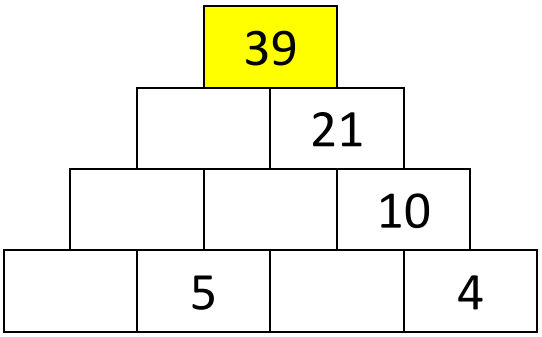






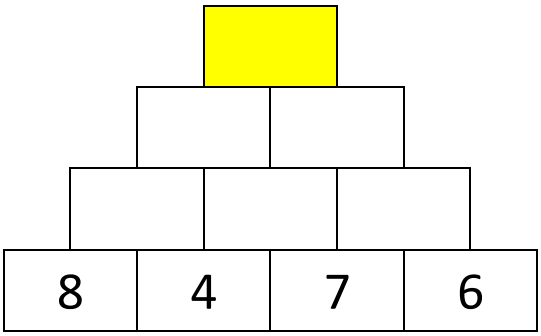


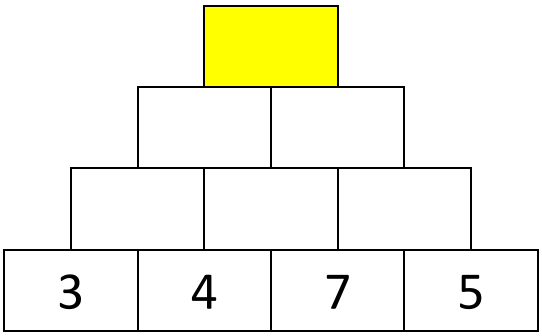


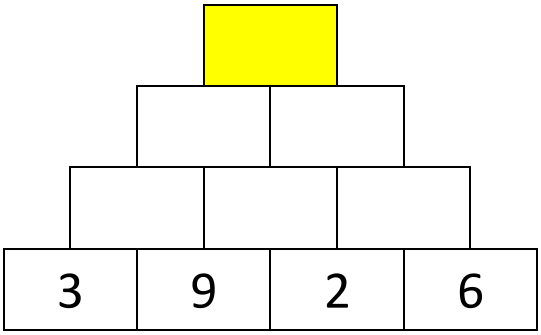


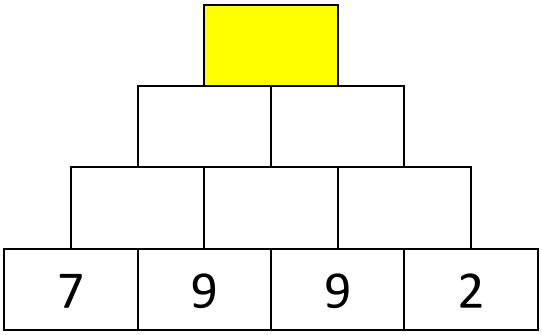
Level C - Pyramid Challenge Number 5

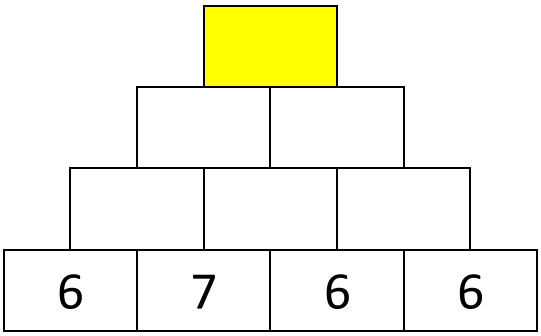
Add the numbers in the two bricks to get the number in the brick above

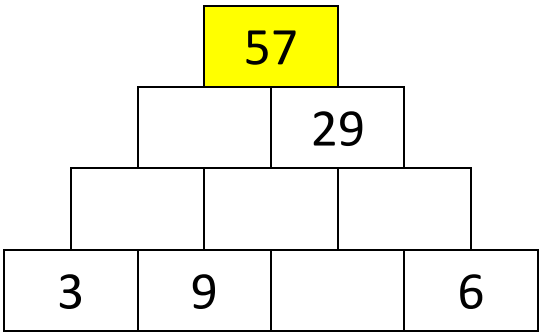


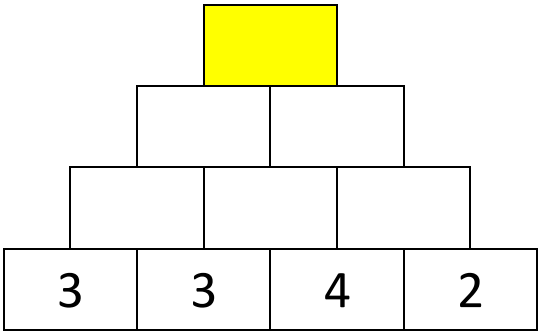


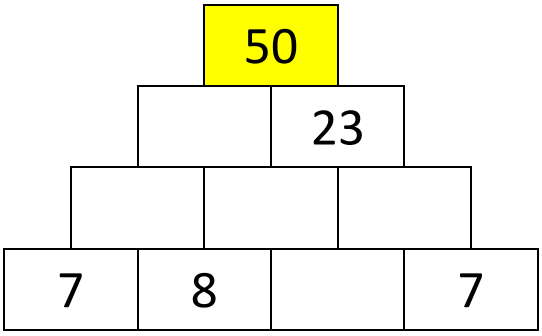


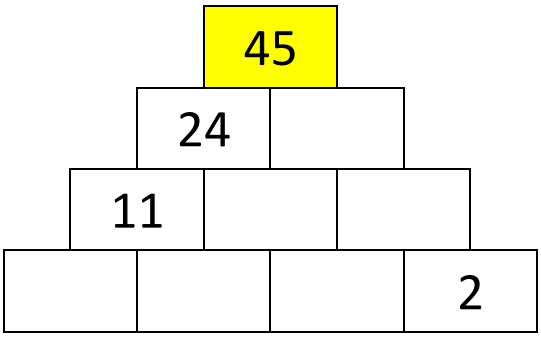


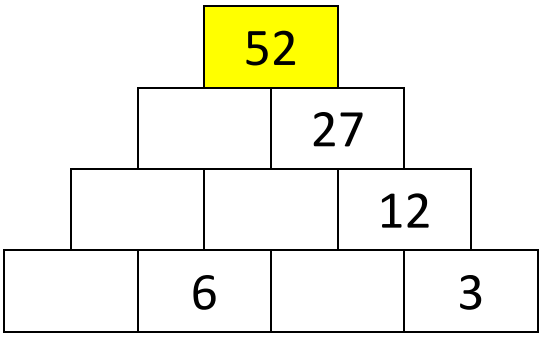






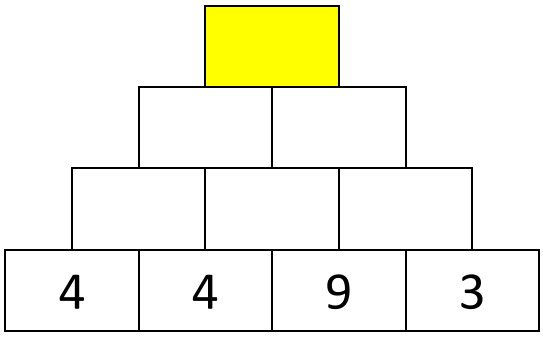


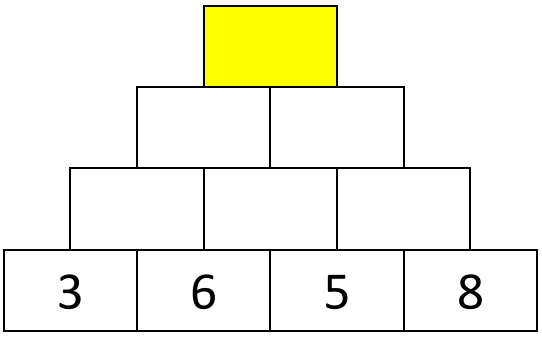


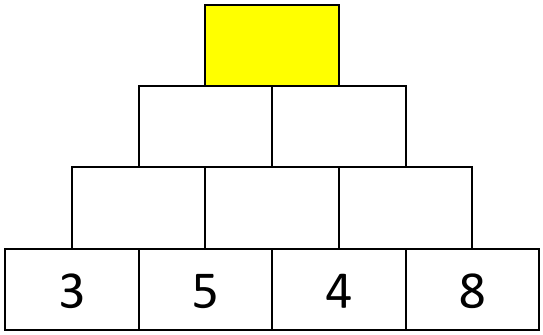


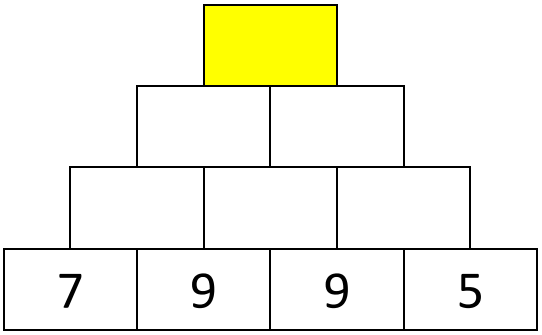
Level C - Pyramid Challenge Number 6

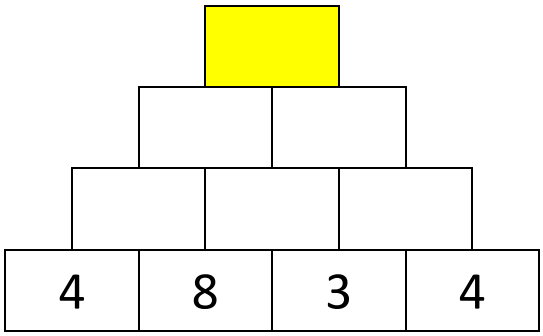
Add the numbers in the two bricks to get the number in the brick above

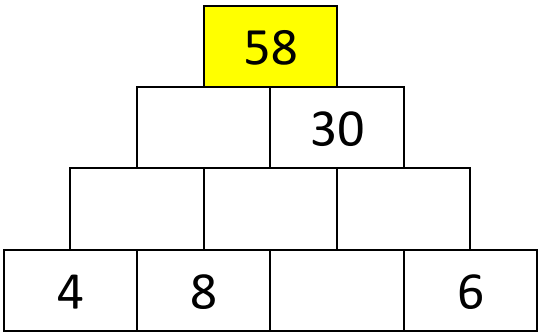


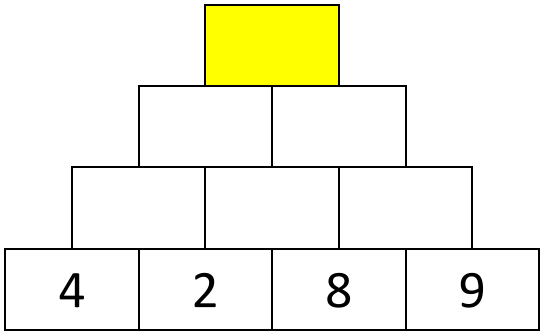


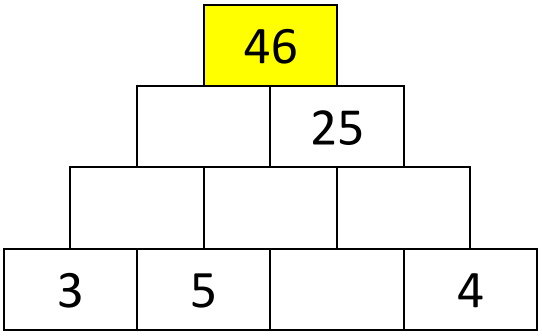


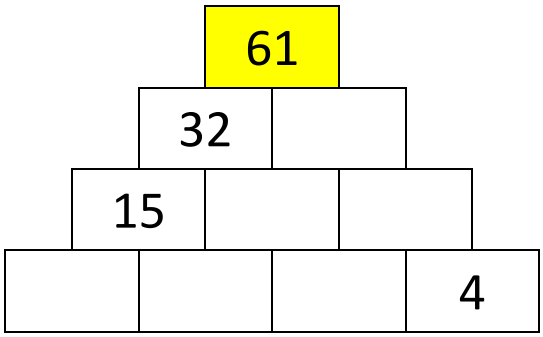


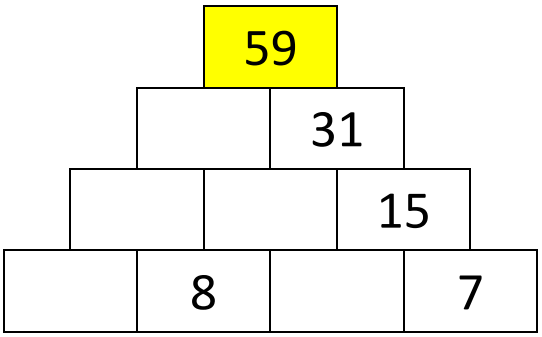






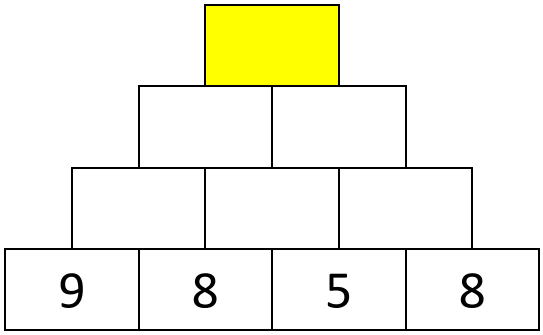


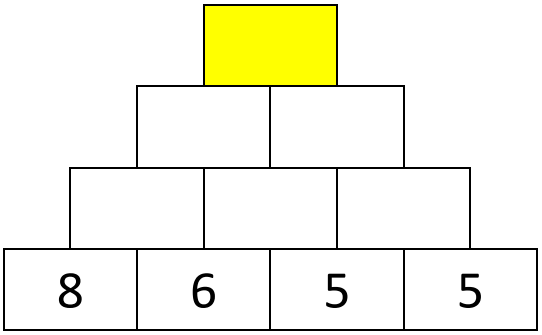


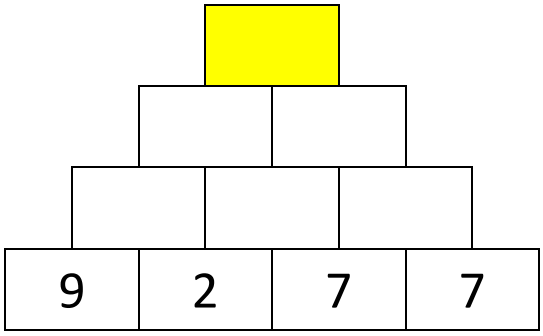


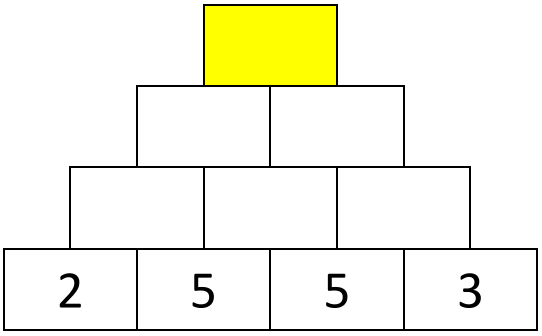
Level C - Pyramid Challenge Number 7

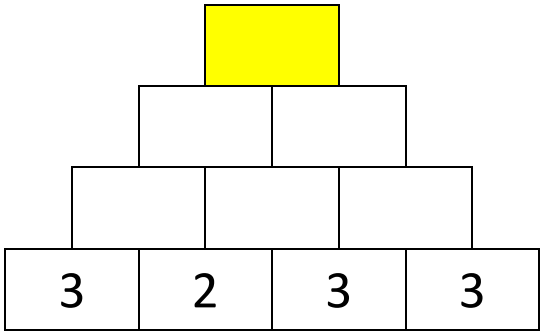
Add the numbers in the two bricks to get the number in the brick above

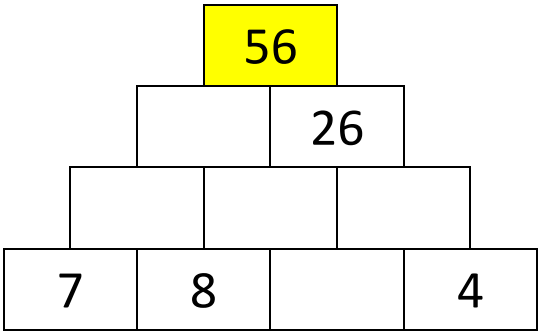


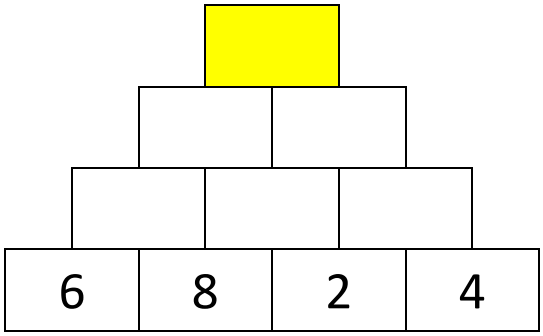


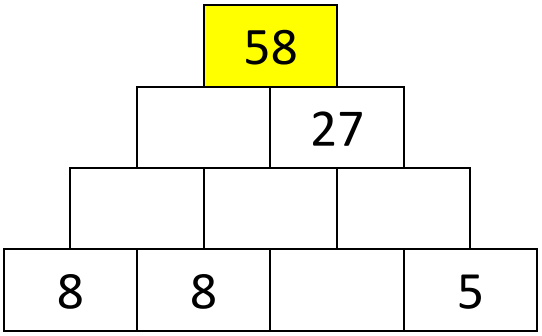


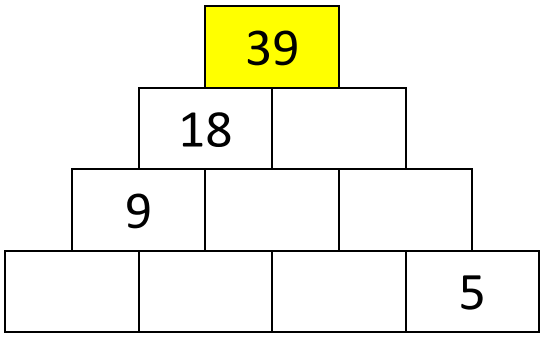


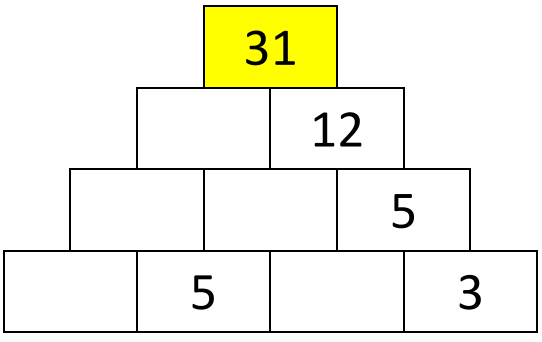






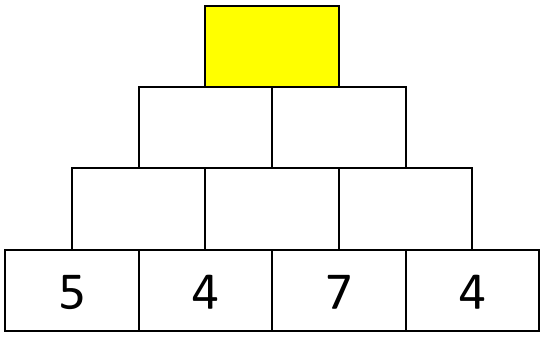


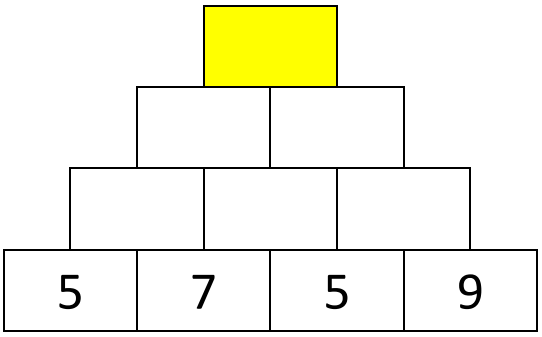


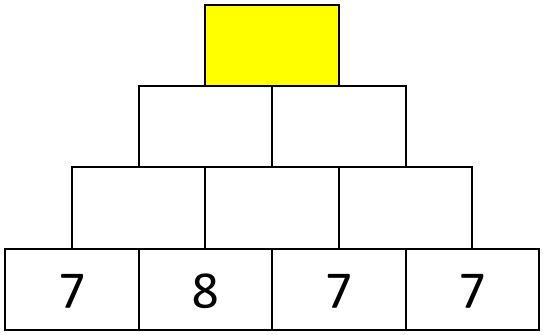


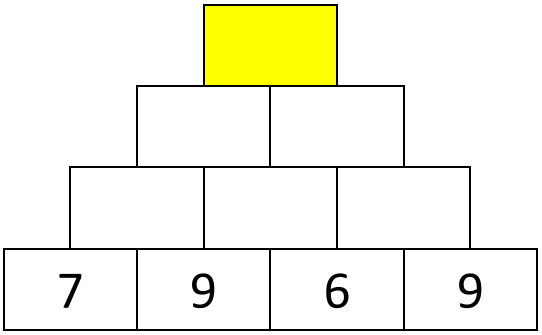
Level C - Pyramid Challenge Number 8

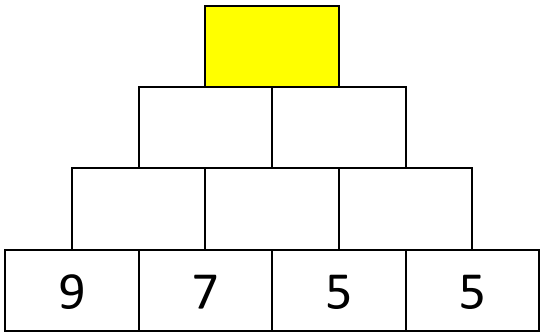
Add the numbers in the two bricks to get the number in the brick above

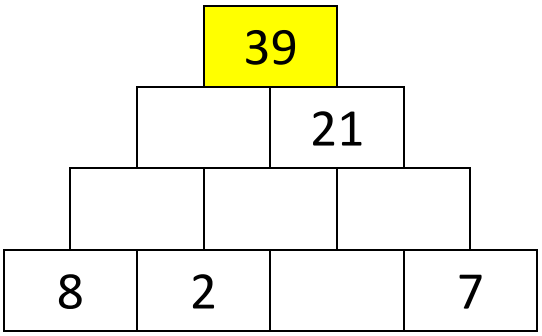


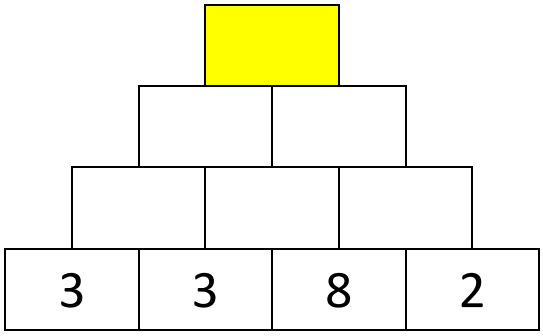


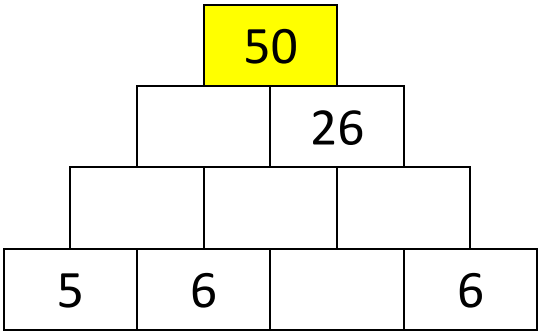


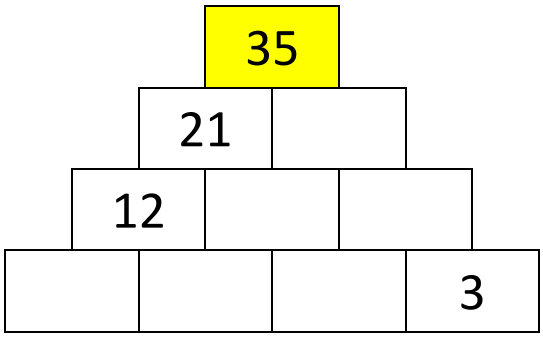


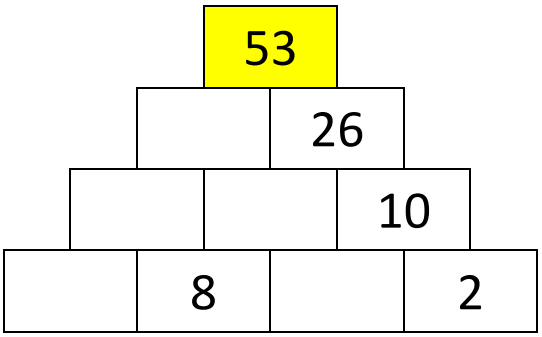






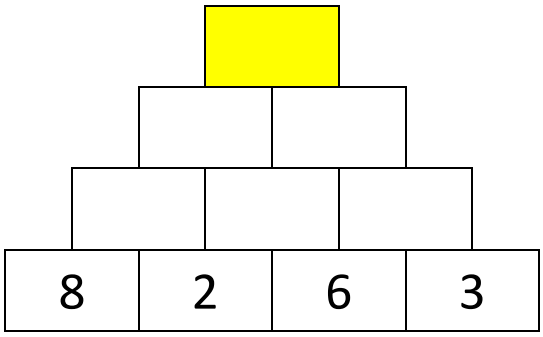


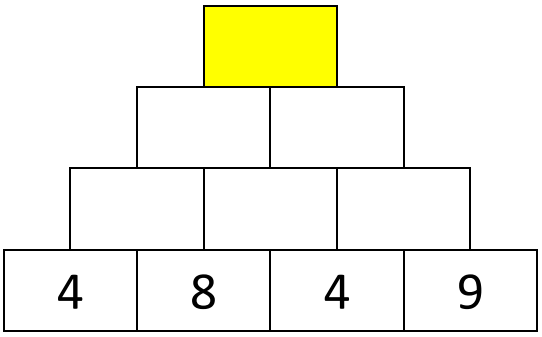


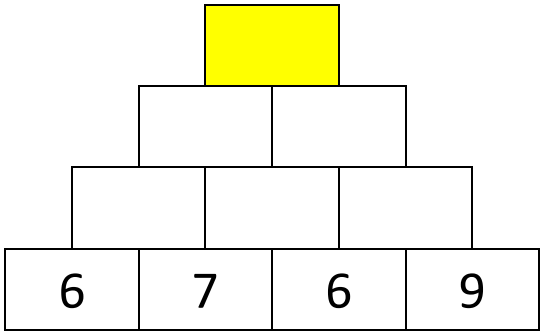


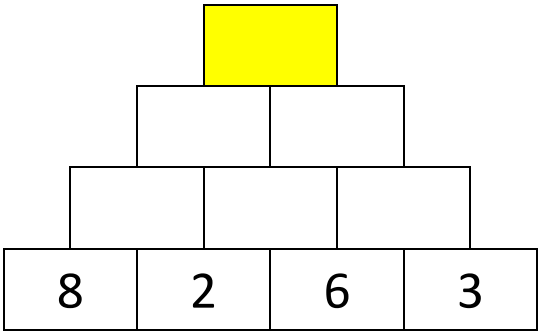
Level C - Pyramid Challenge Number 9

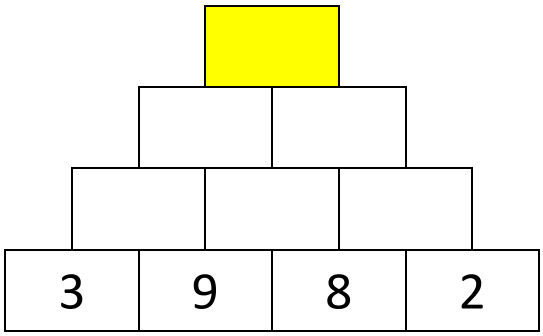
Add the numbers in the two bricks to get the number in the brick above

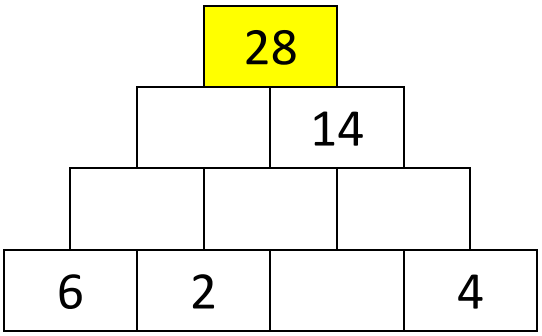


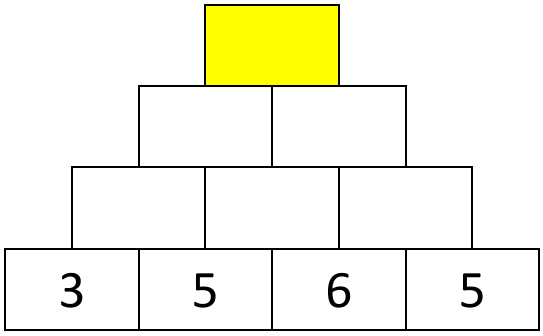


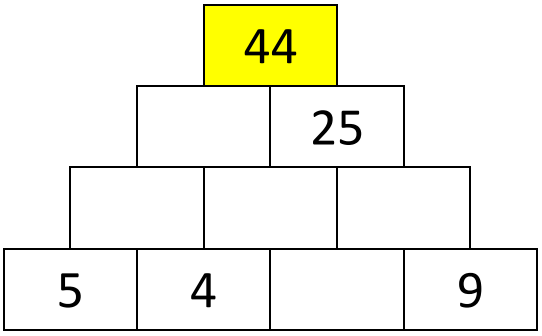


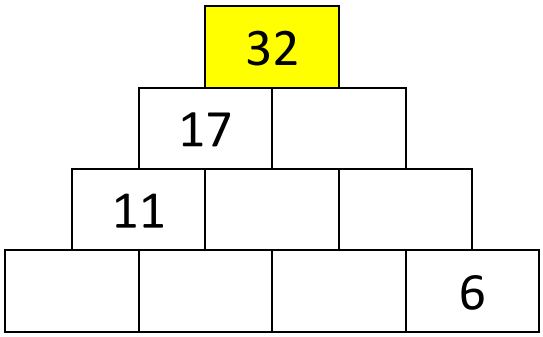


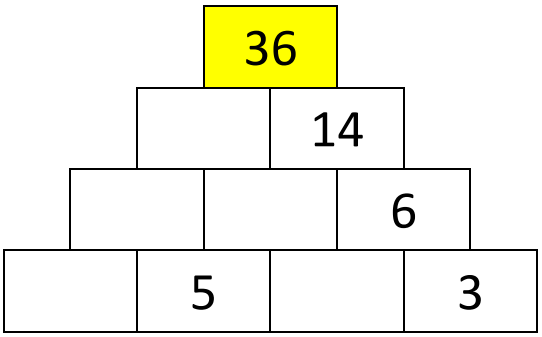






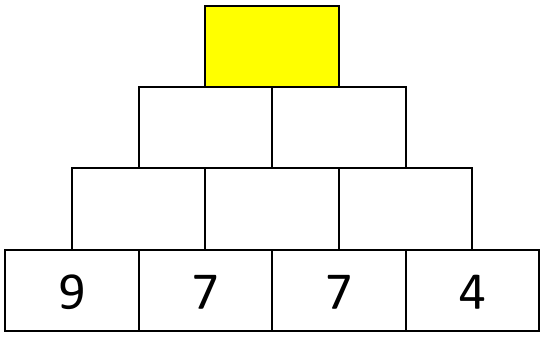


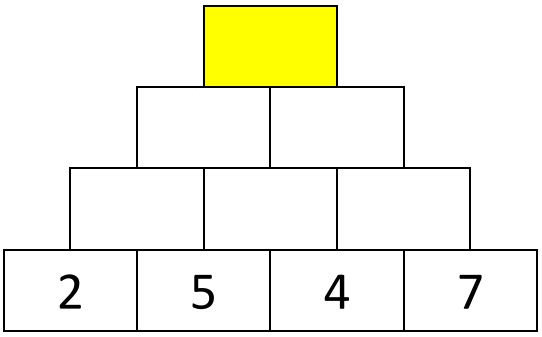


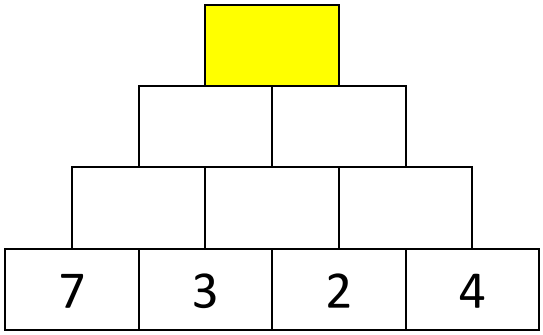


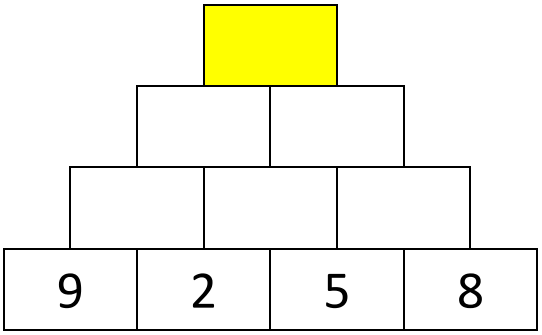
Level C - Pyramid Challenge Number 10

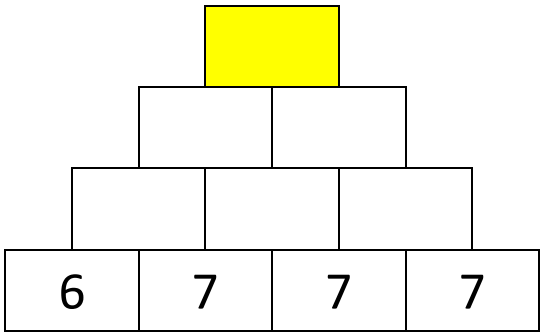
Add the numbers in the two bricks to get the number in the brick above

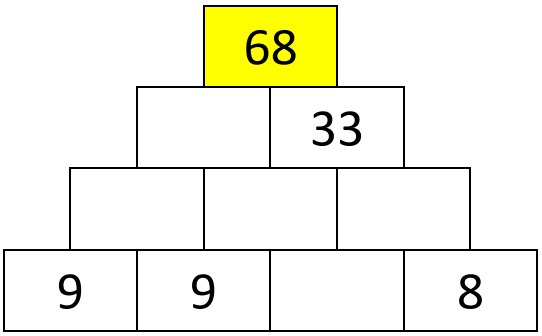


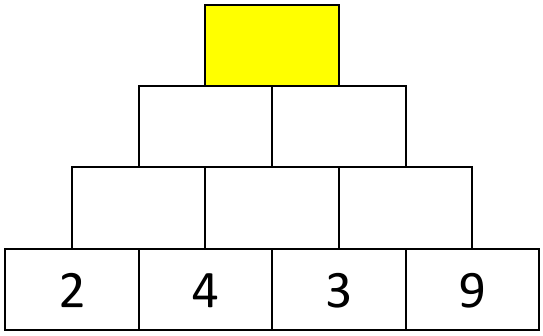


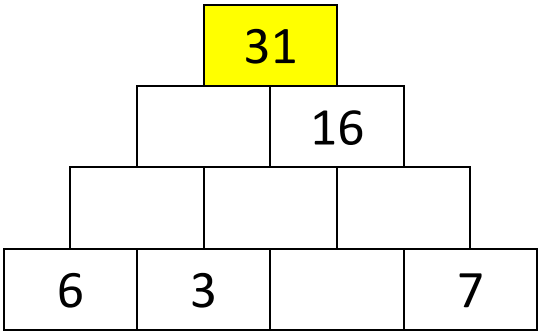


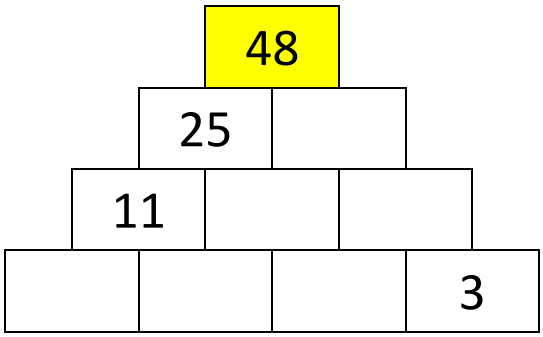


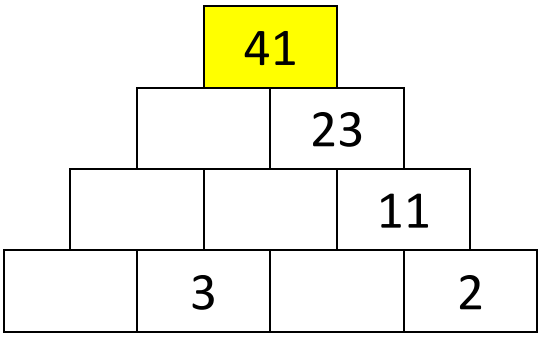






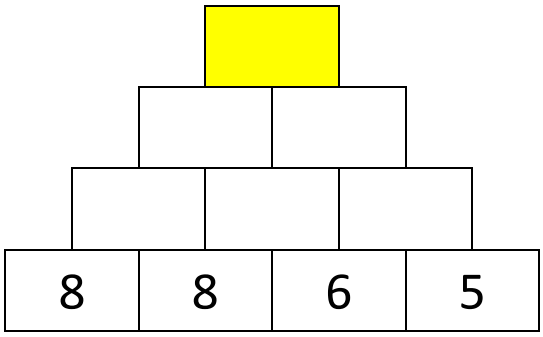


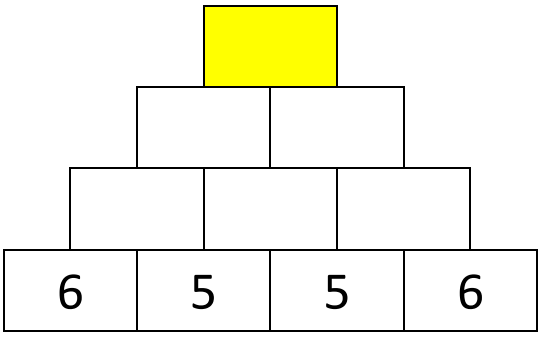


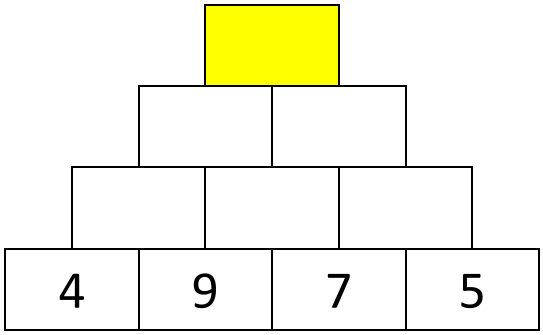


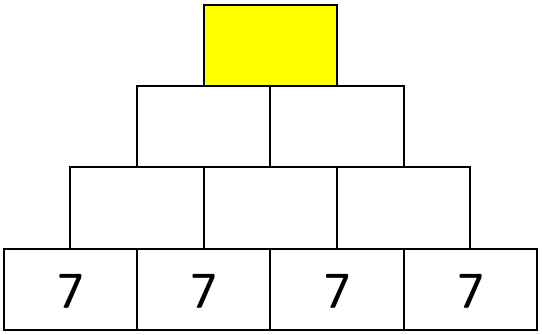
Level C - Pyramid Challenge Number 11

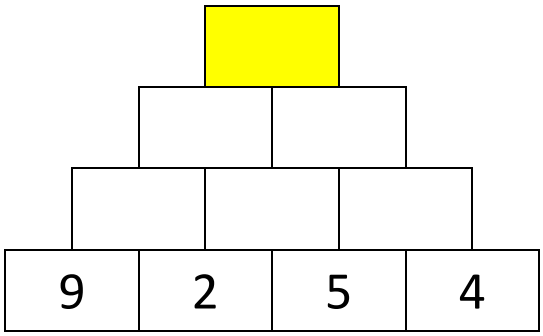
Add the numbers in the two bricks to get the number in the brick above

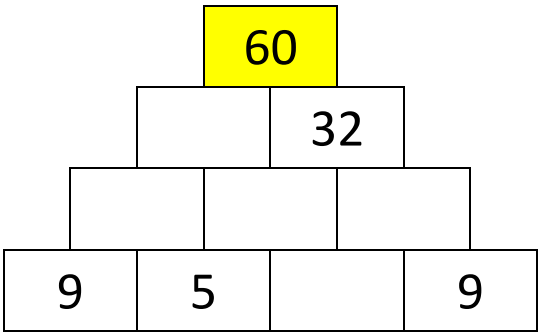


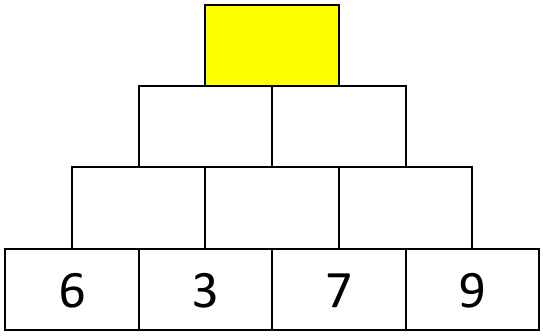


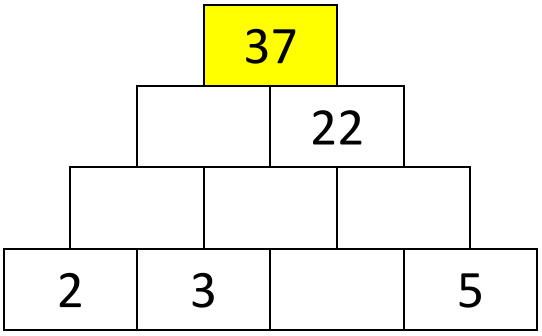


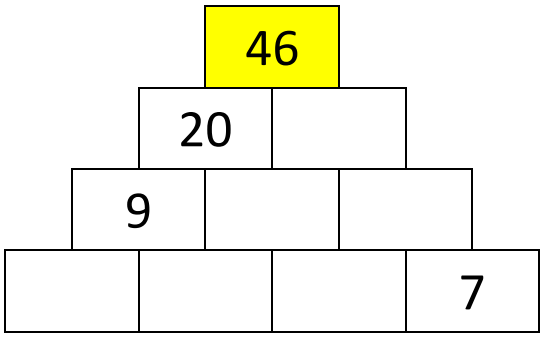


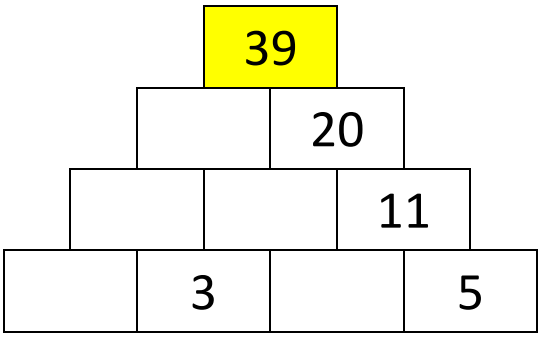






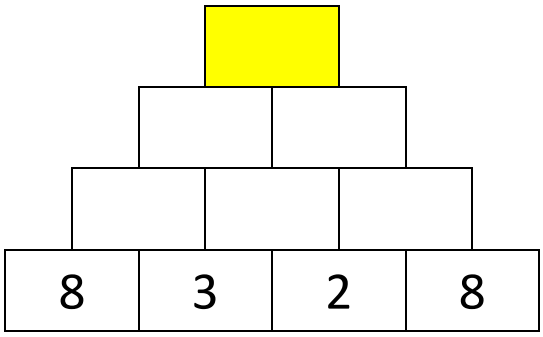


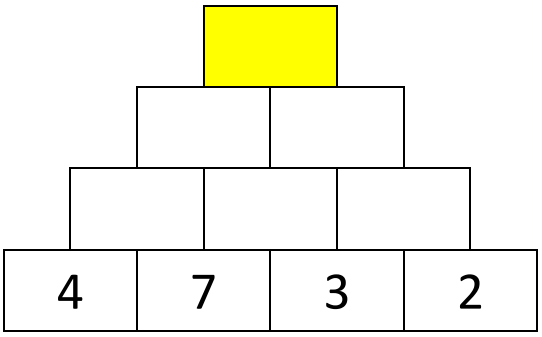


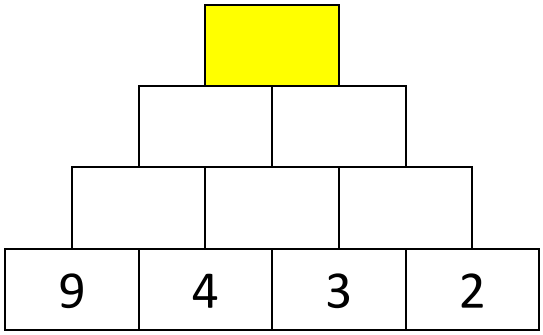


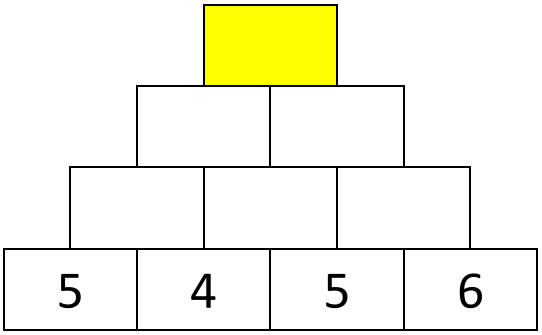
Level C - Pyramid Challenge Number 12

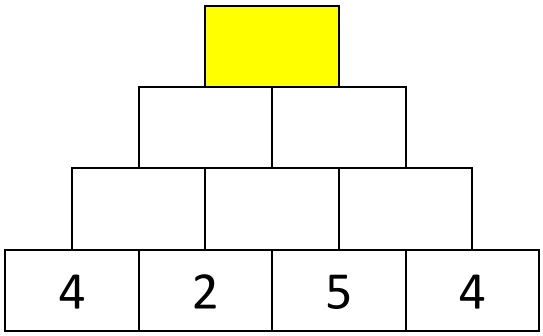
Add the numbers in the two bricks to get the number in the brick above

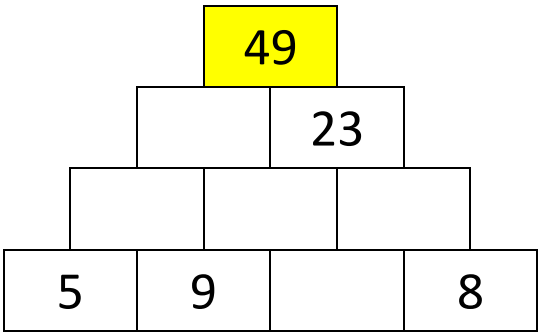


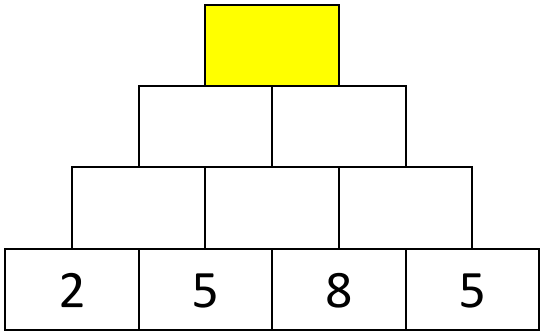


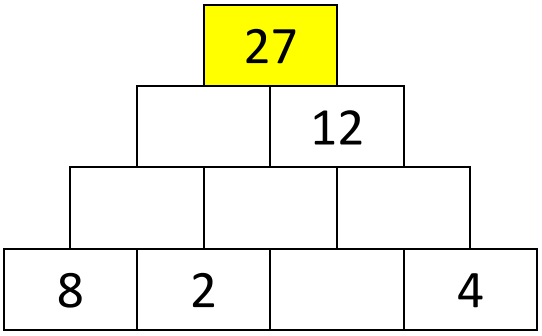


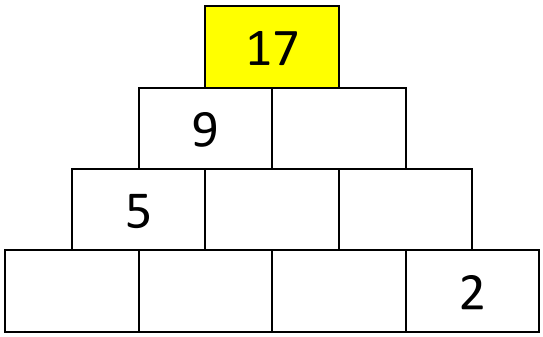


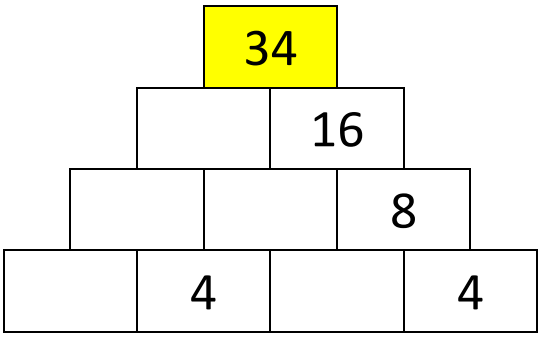






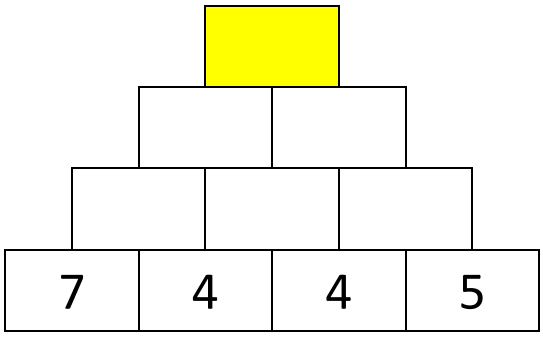


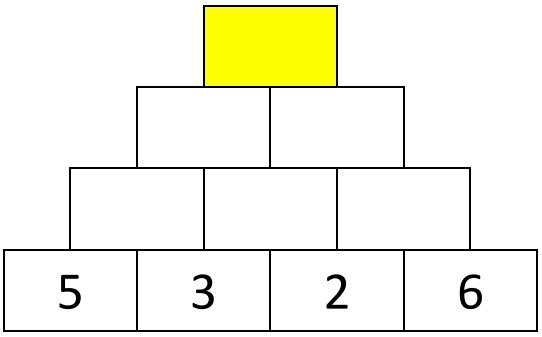


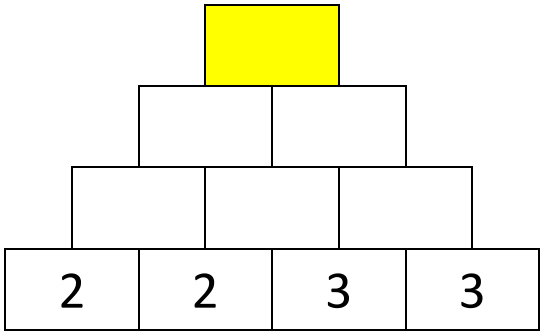


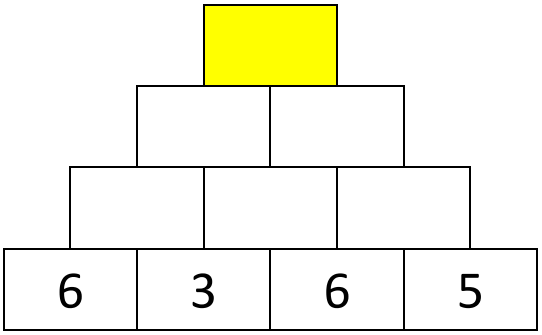
Level C - Pyramid Challenge Number 13

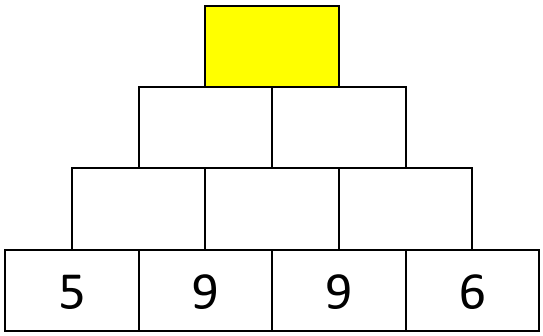
Add the numbers in the two bricks to get the number in the brick above

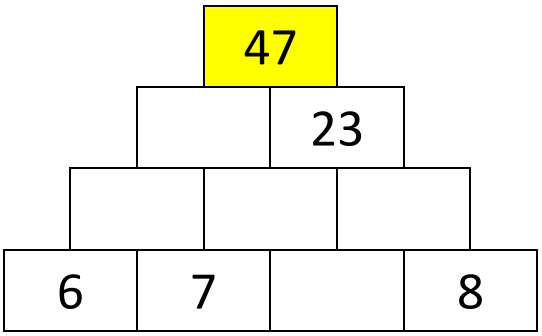


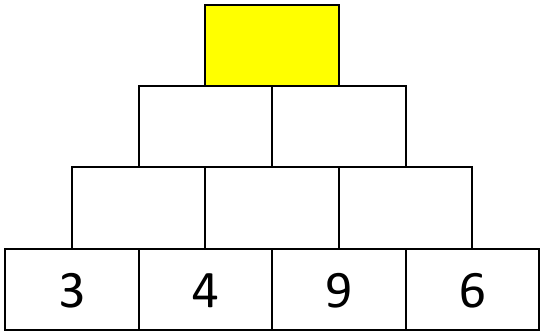


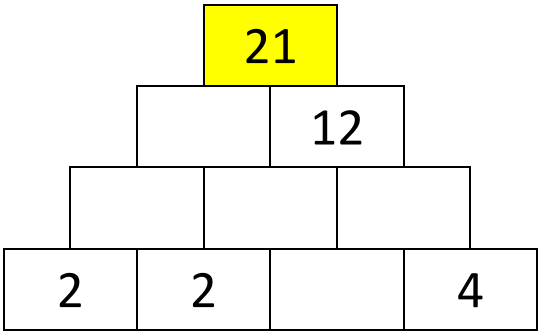


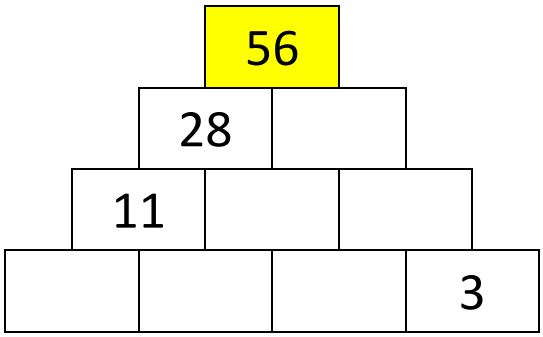


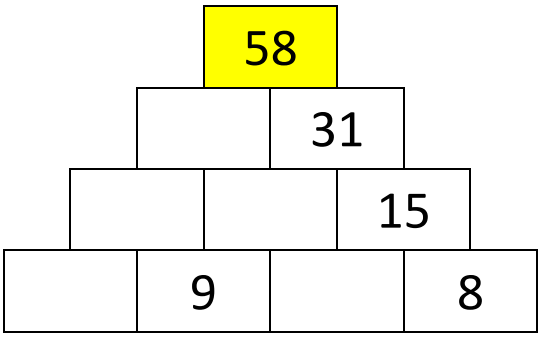






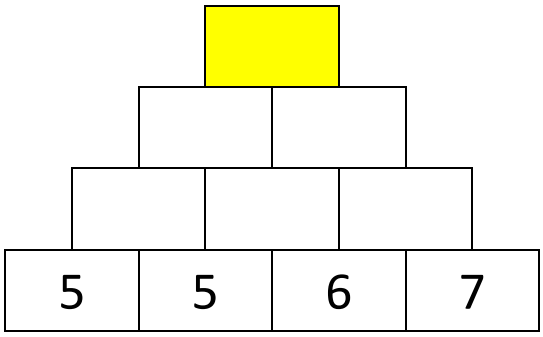


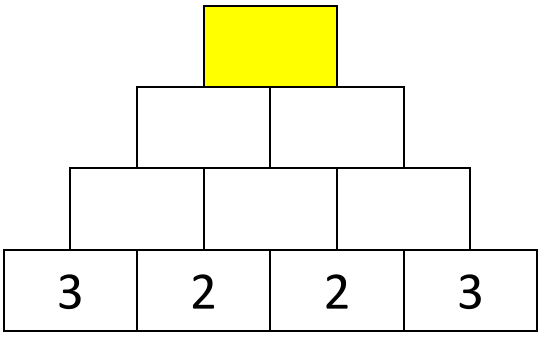


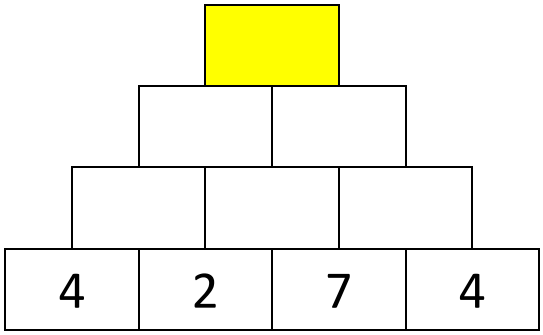


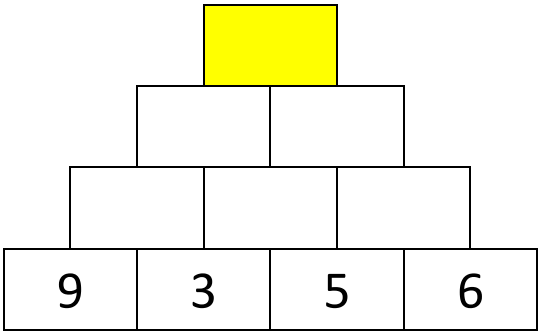
Level C - Pyramid Challenge Number 14

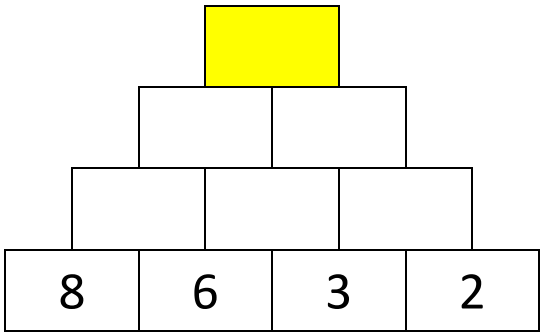
Add the numbers in the two bricks to get the number in the brick above

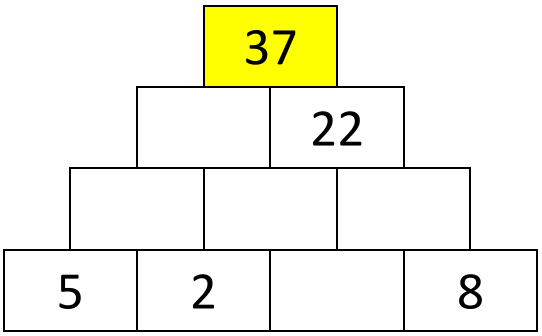


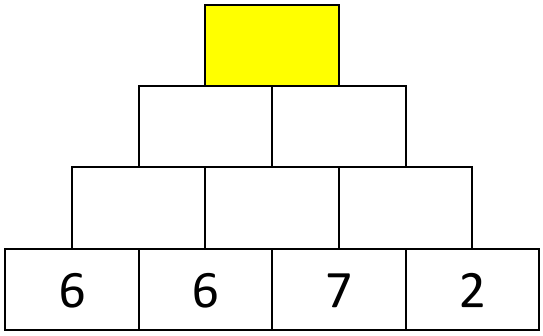


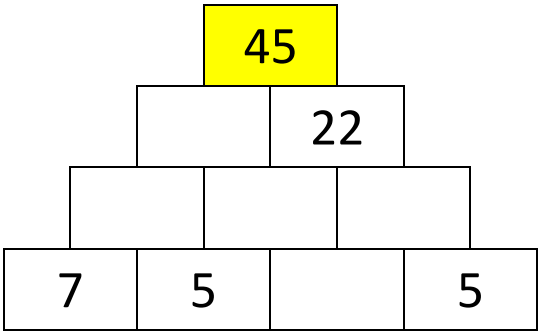


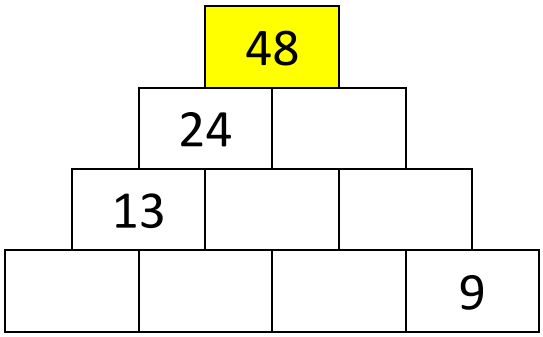


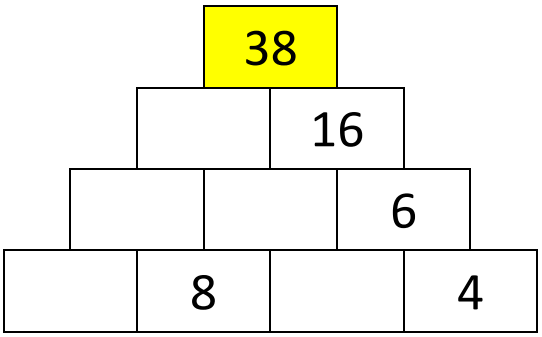






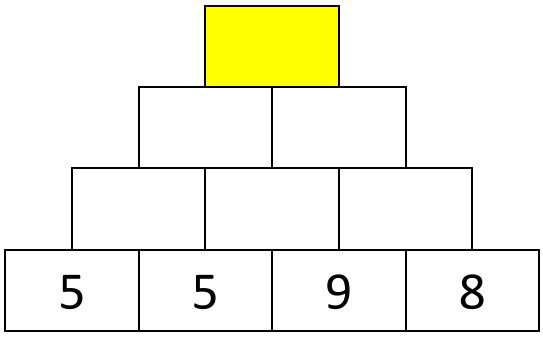


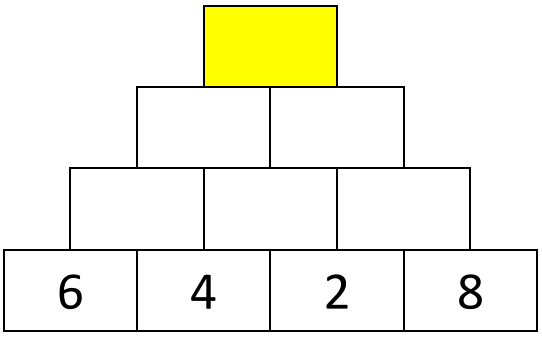


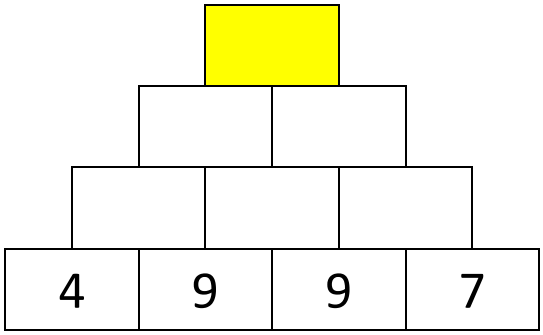


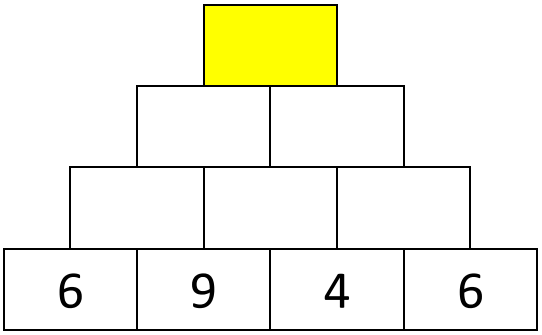
Level C - Pyramid Challenge Number 15

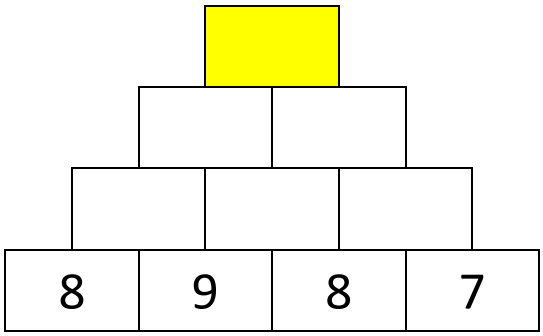
Add the numbers in the two bricks to get the number in the brick above

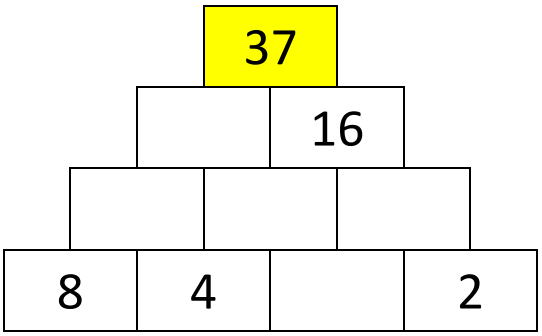


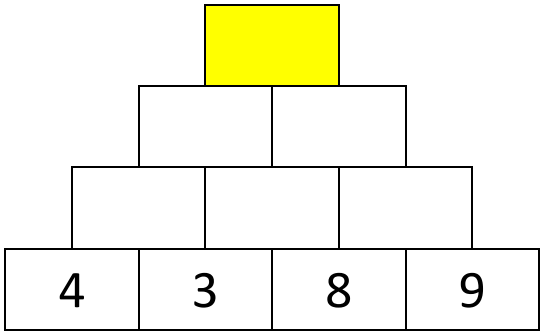


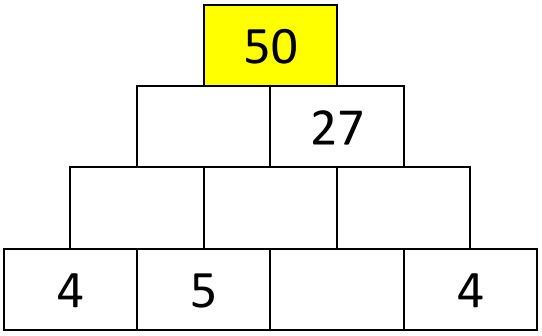


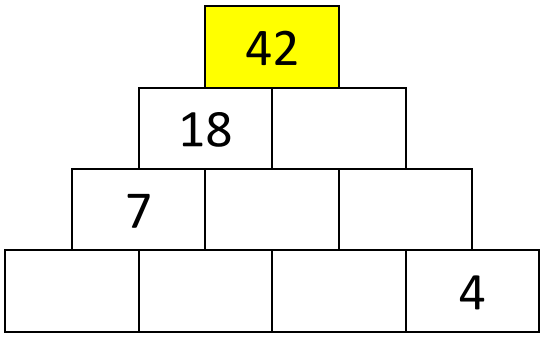


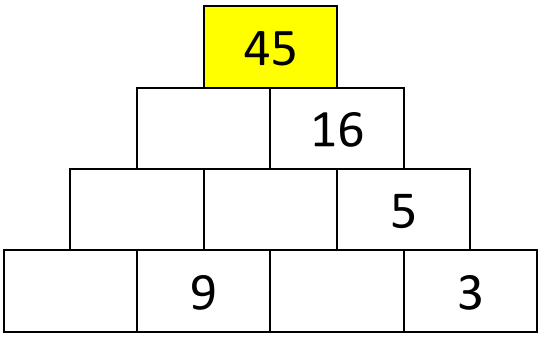






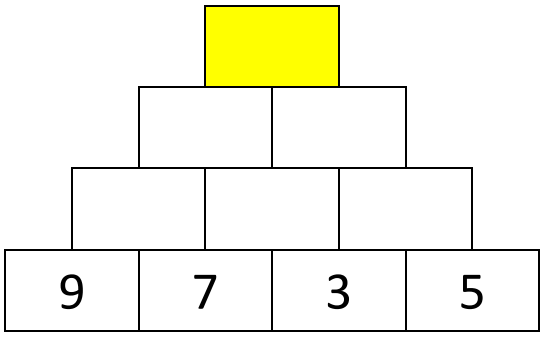


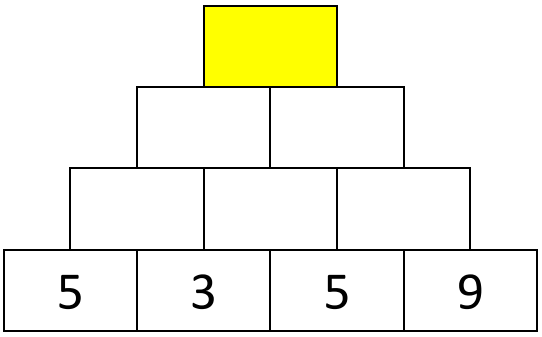


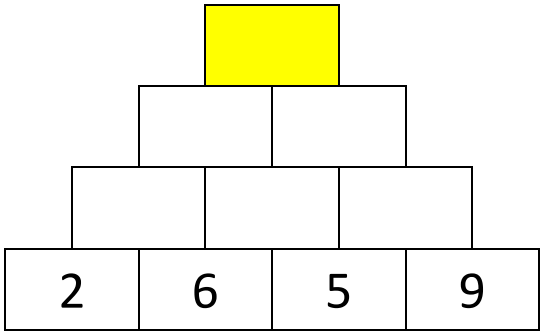


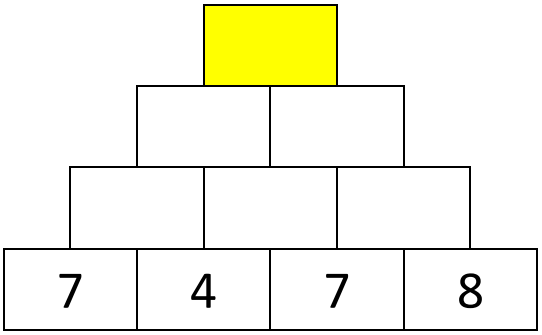
Level C - Pyramid Challenge Number 16

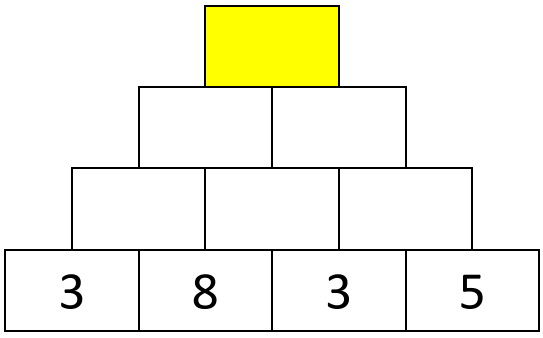
Add the numbers in the two bricks to get the number in the brick above

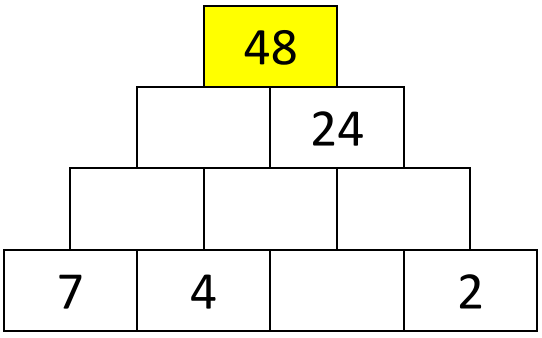


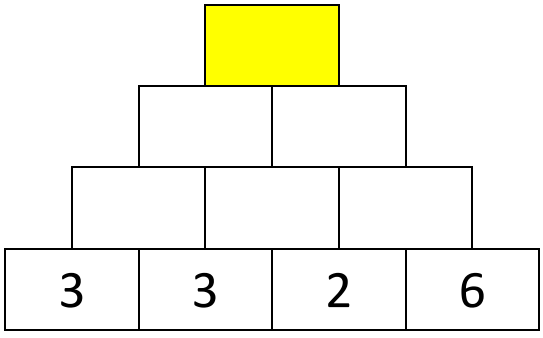


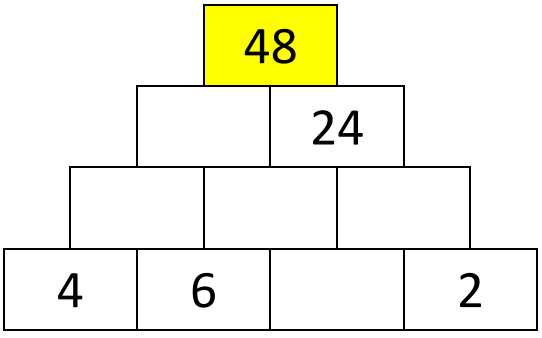


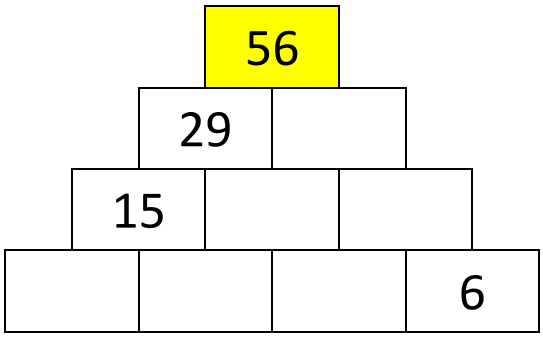


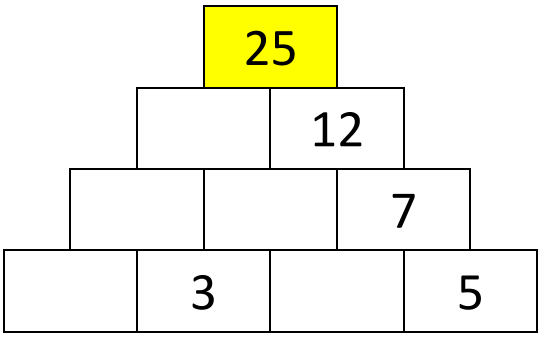






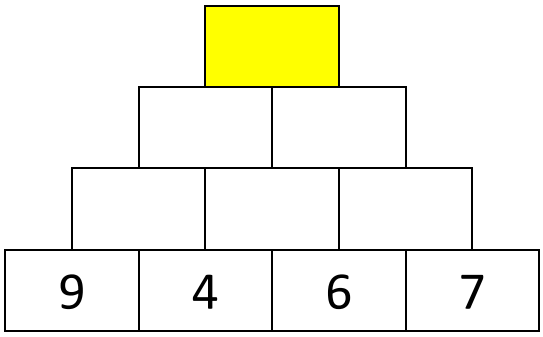


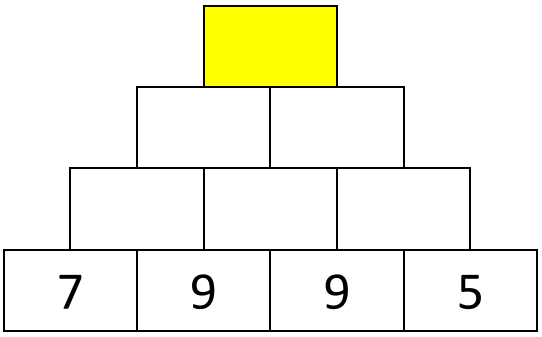


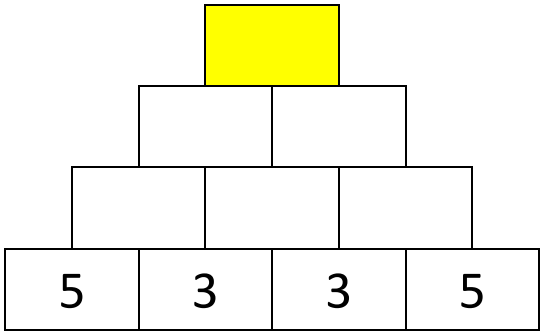


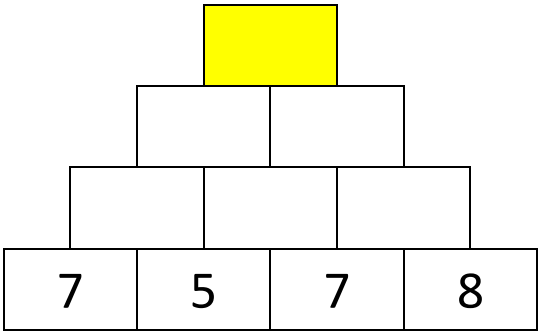
Level C - Pyramid Challenge Number 17

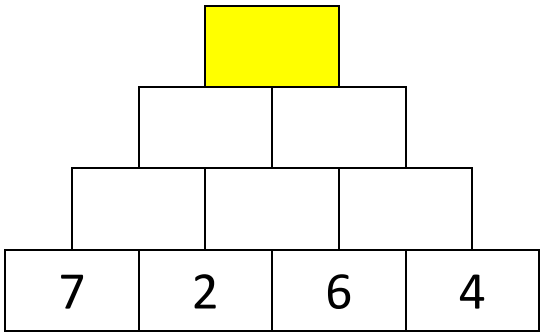
Add the numbers in the two bricks to get the number in the brick above

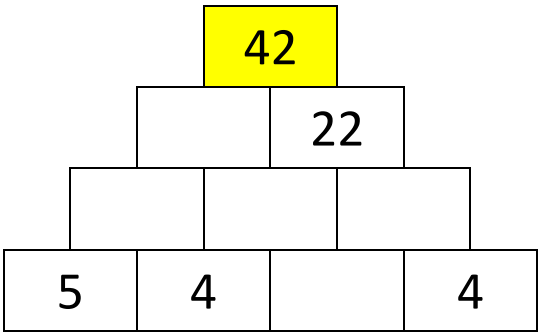


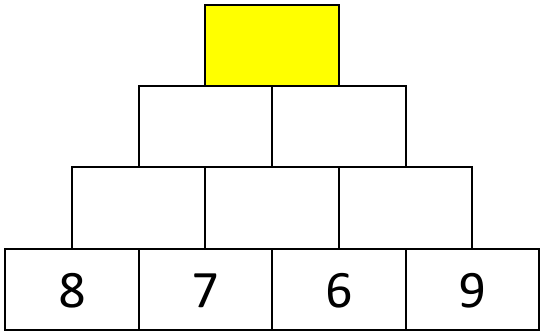


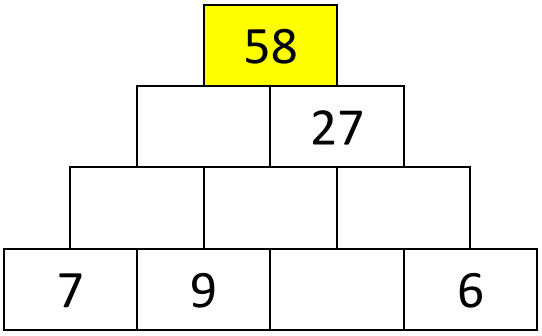


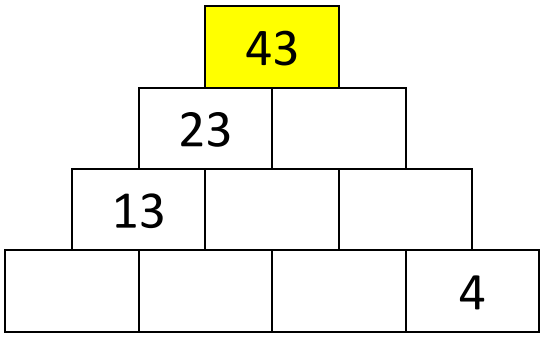


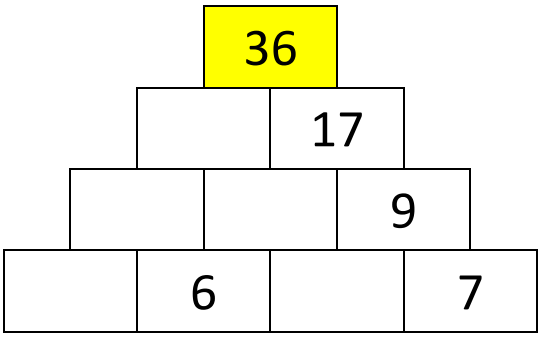






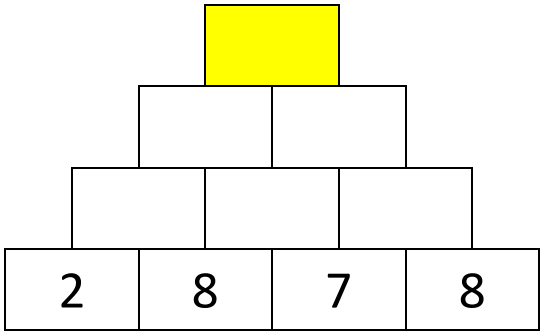


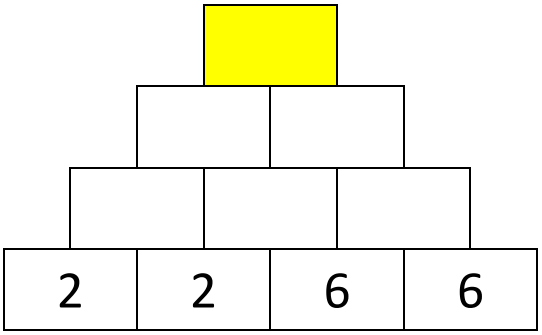


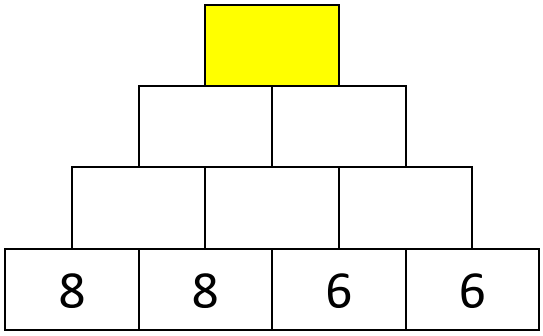


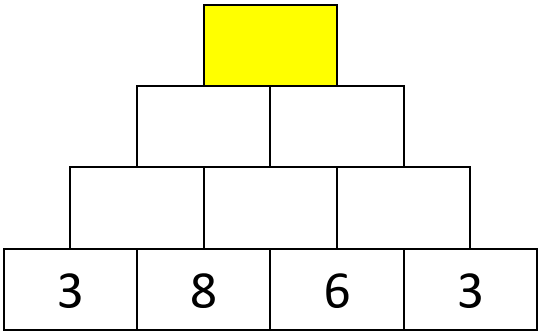
Level C - Pyramid Challenge Number 18

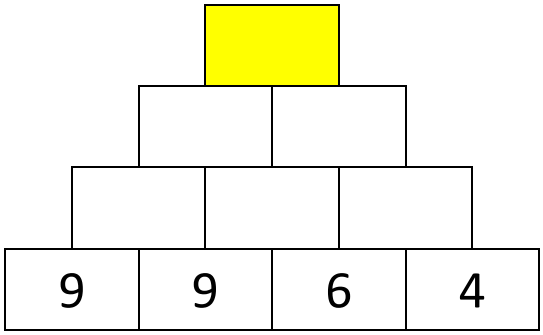
Add the numbers in the two bricks to get the number in the brick above

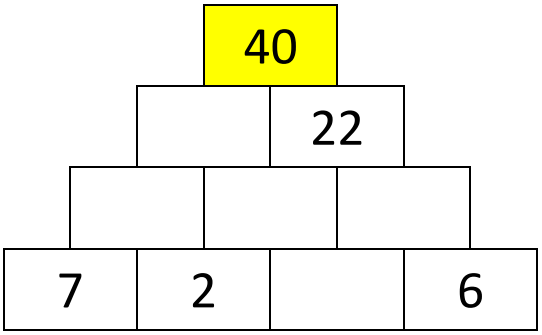


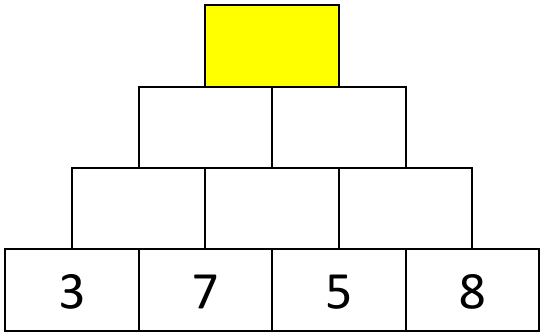


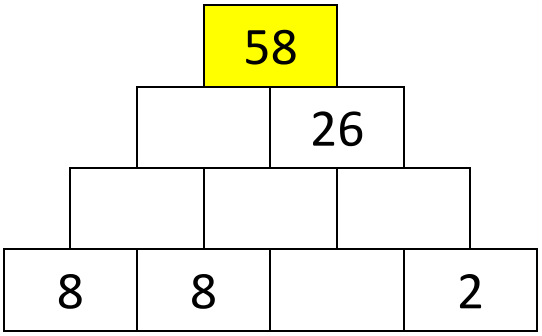


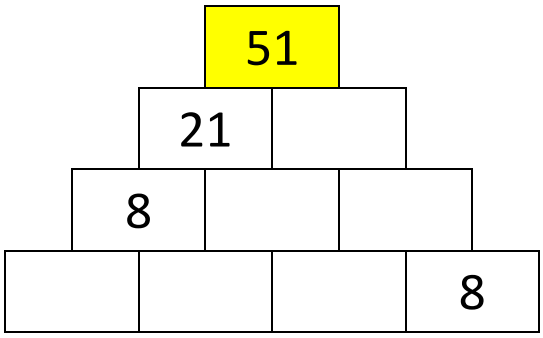


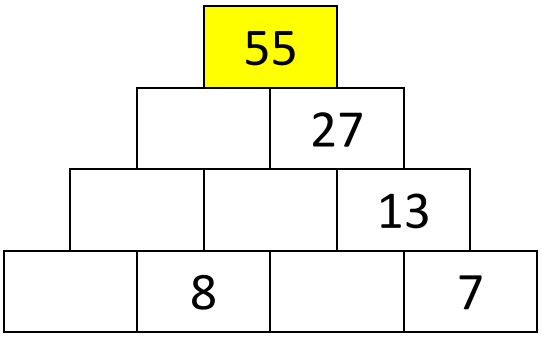






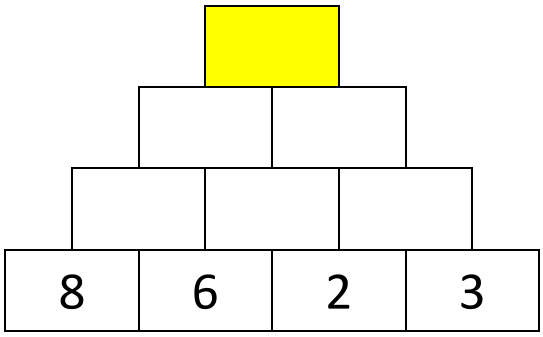


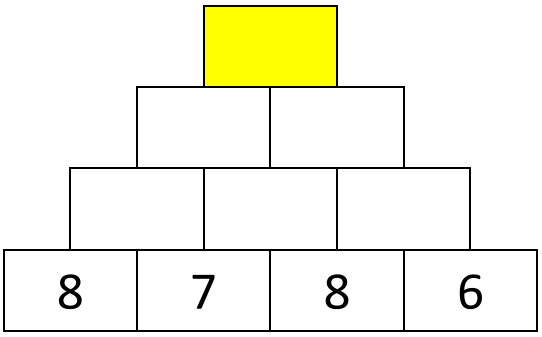


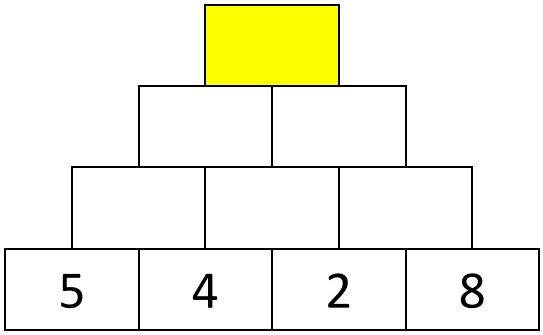


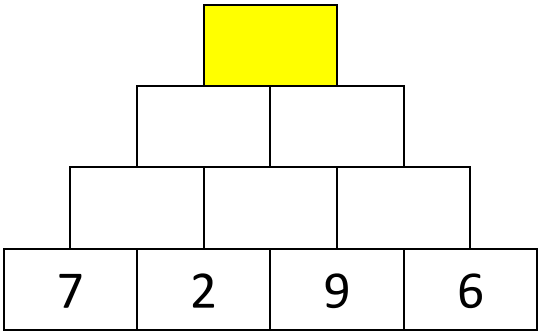
Level C - Pyramid Challenge Number 19

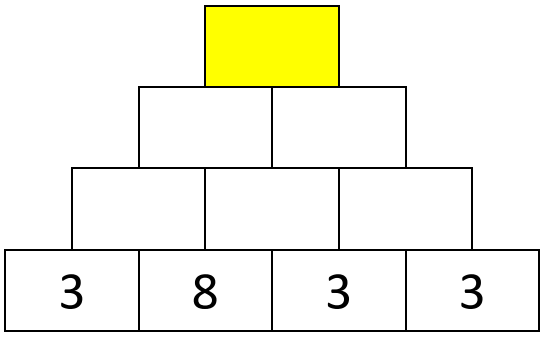
Add the numbers in the two bricks to get the number in the brick above

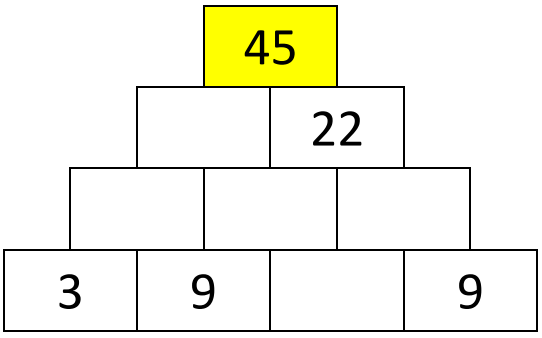


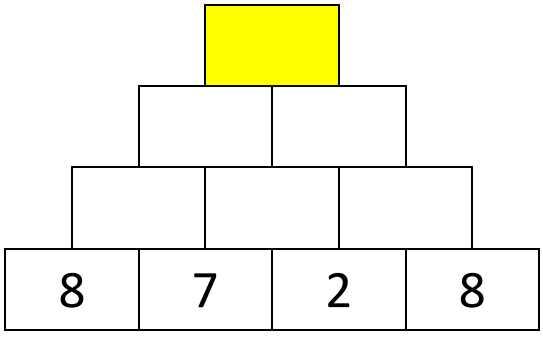


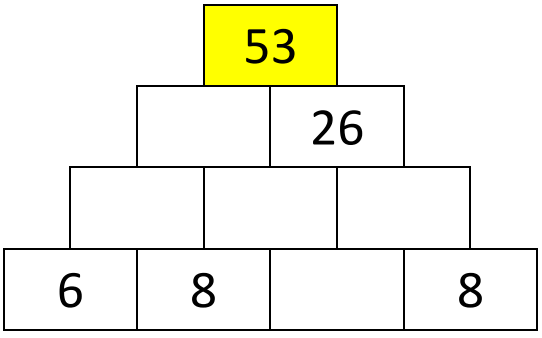


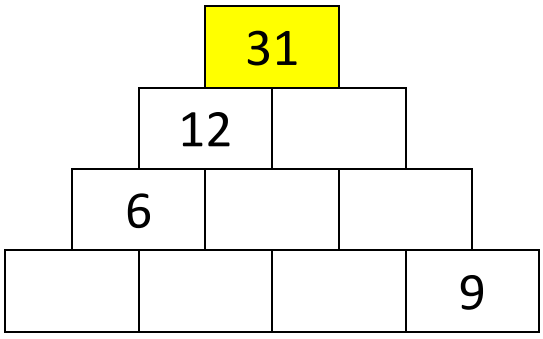


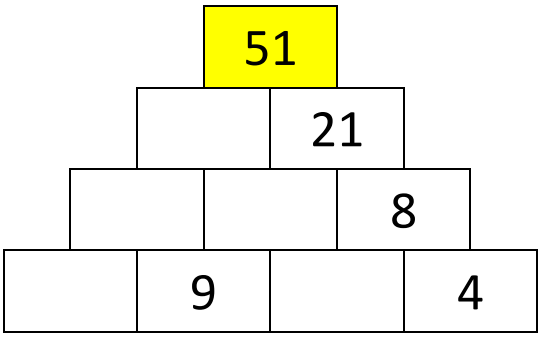






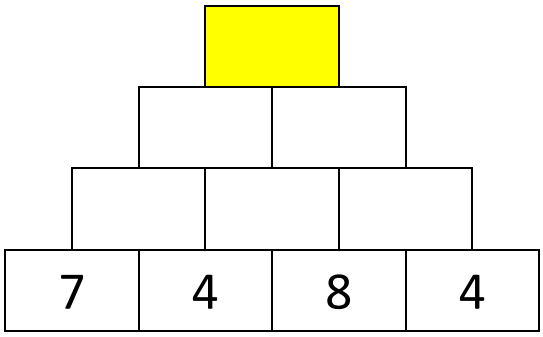


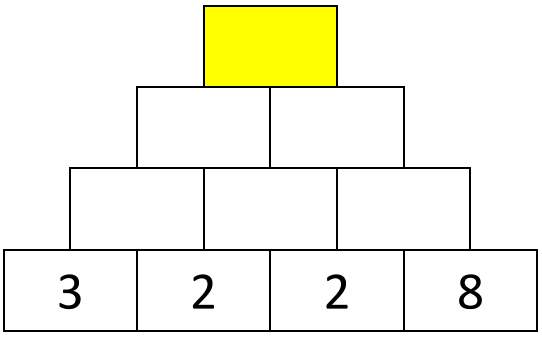


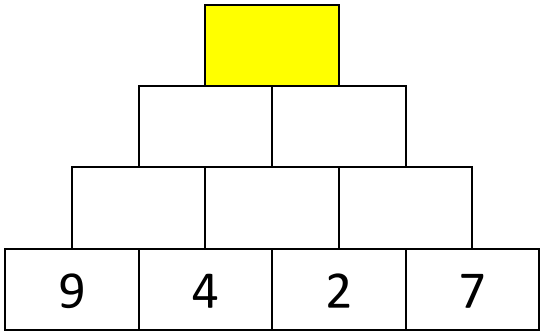


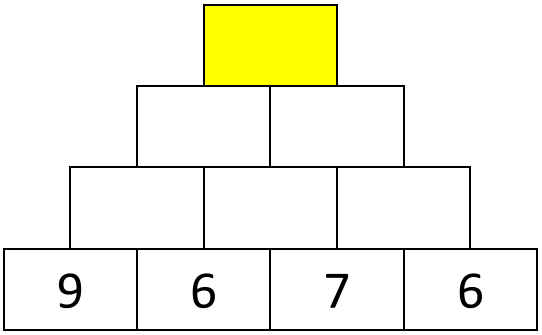
Level C - Pyramid Challenge Number 20

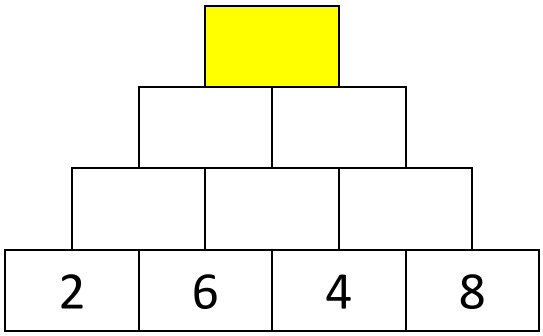
Add the numbers in the two bricks to get the number in the brick above

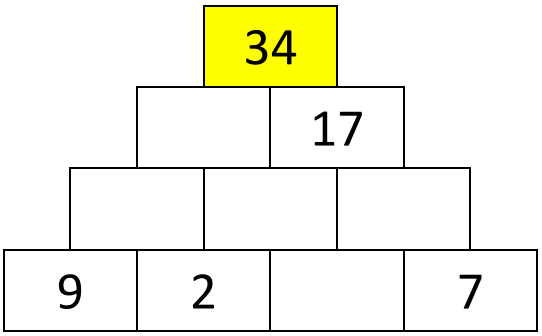


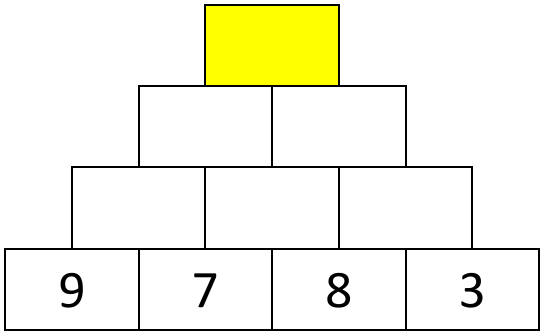


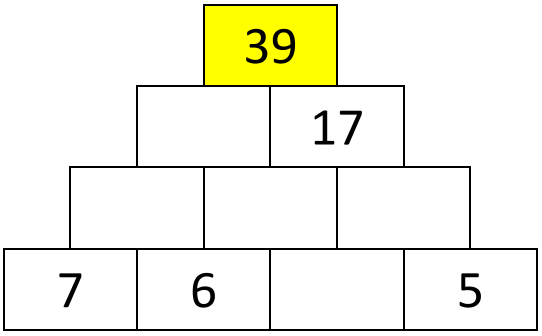


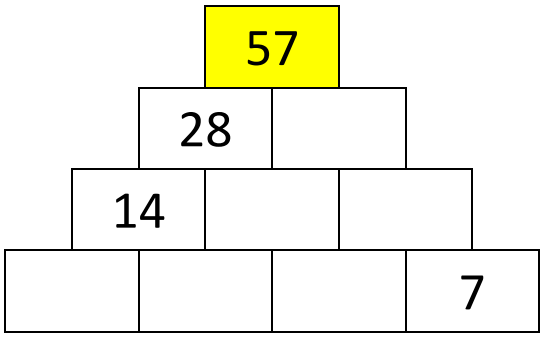


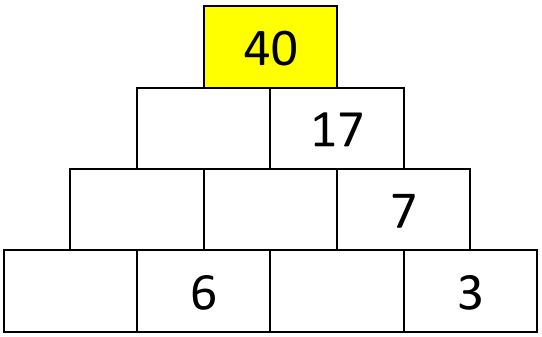






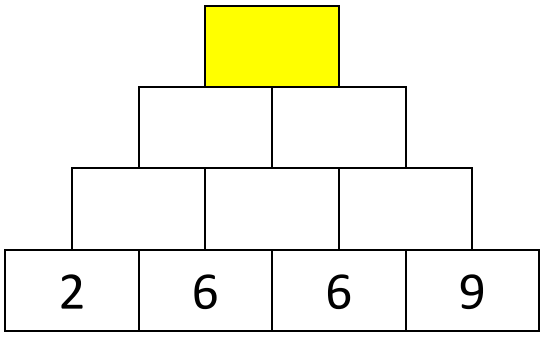


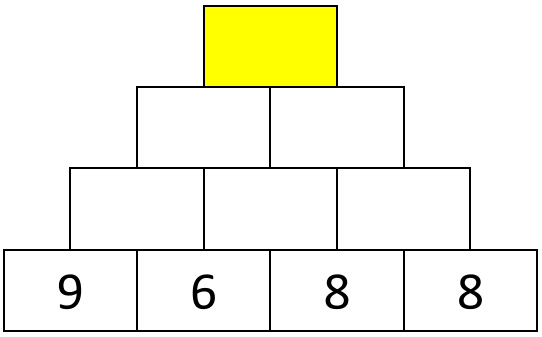


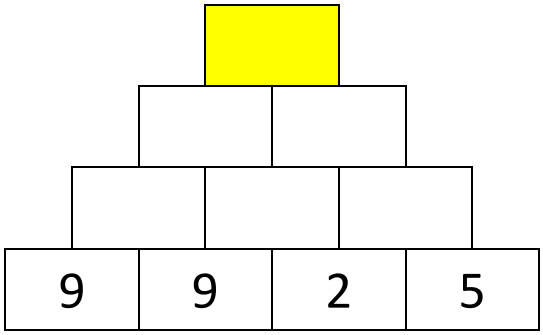


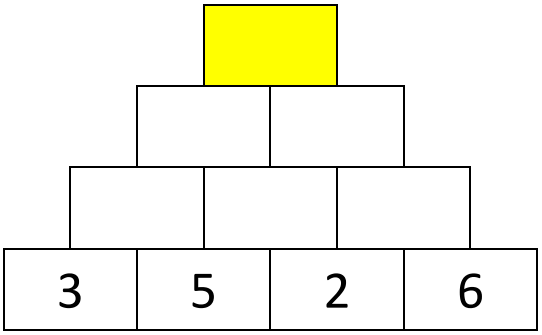
Level C - Pyramid Challenge Number 21

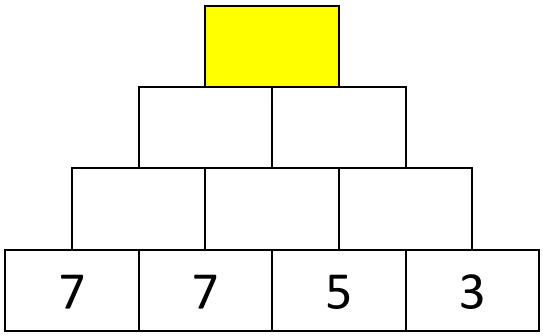
Add the numbers in the two bricks to get the number in the brick above

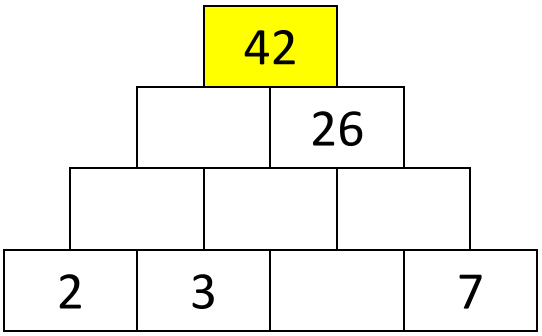


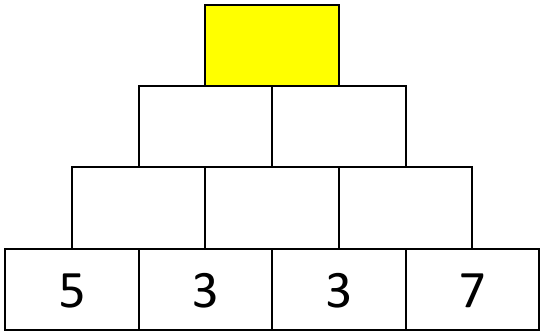


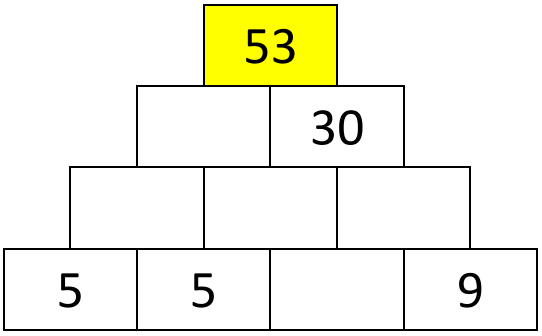


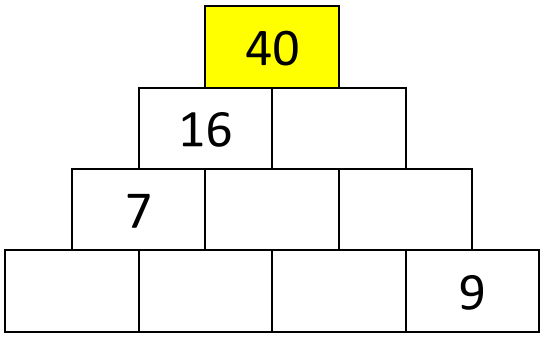


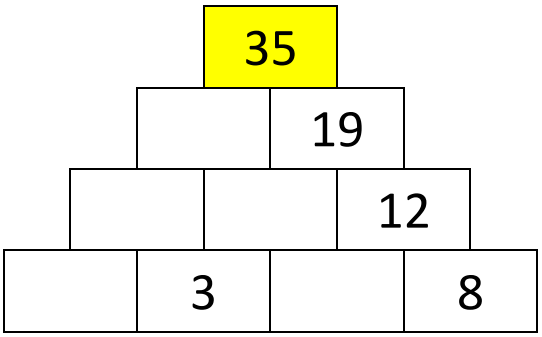






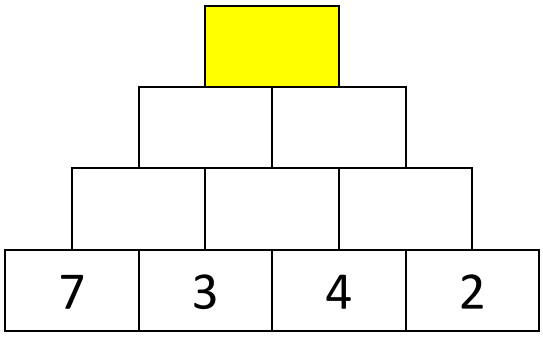


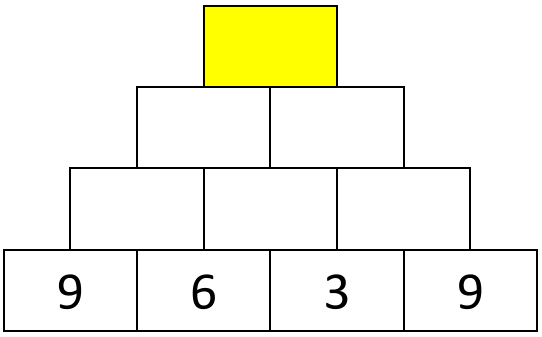


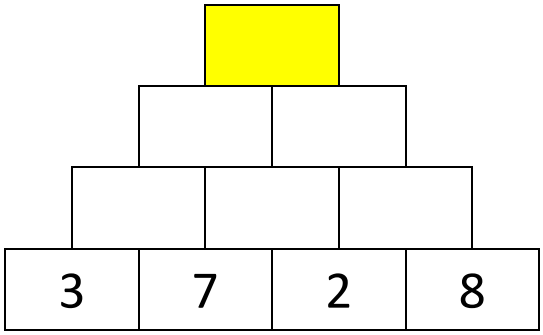


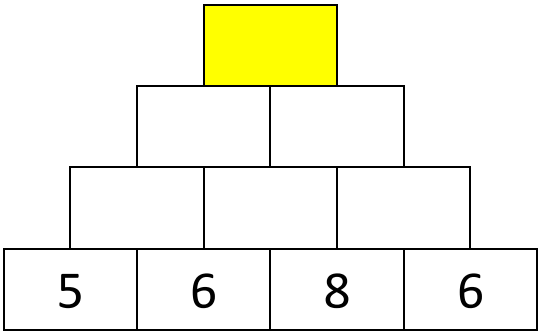
Level C - Pyramid Challenge Number 22

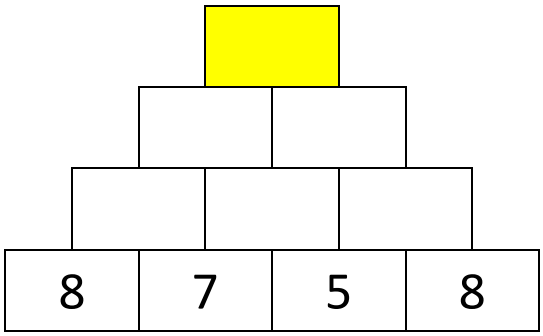
Add the numbers in the two bricks to get the number in the brick above

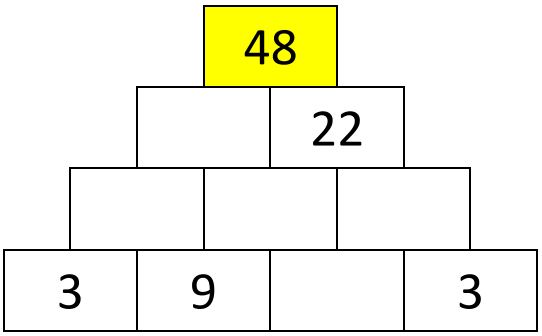


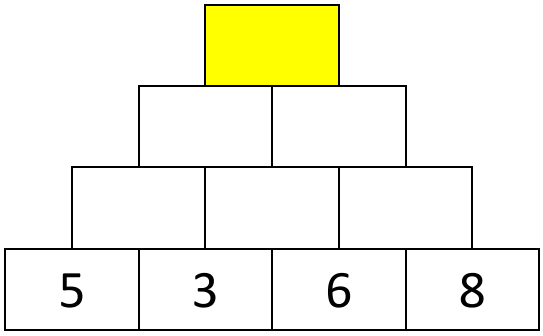


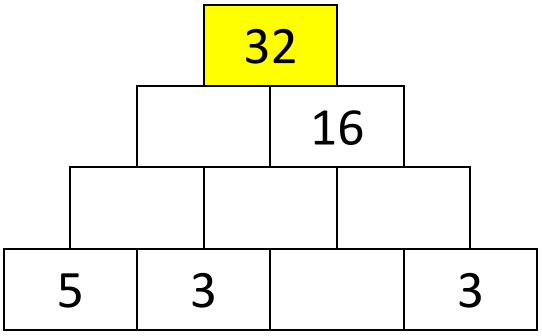


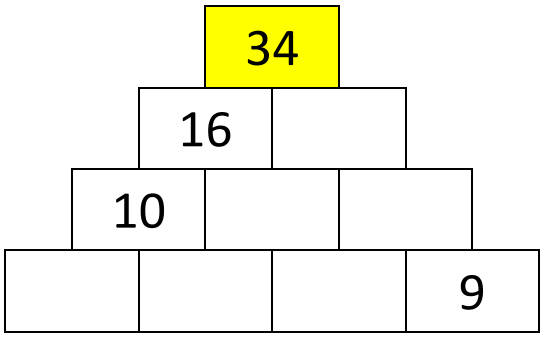


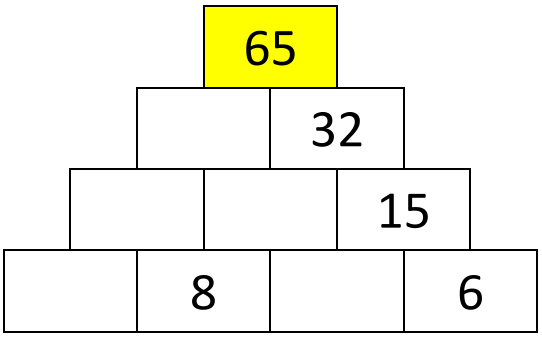






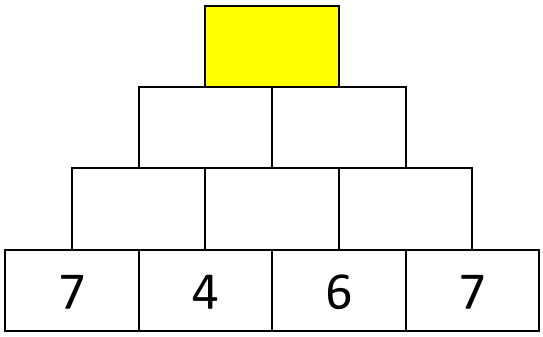


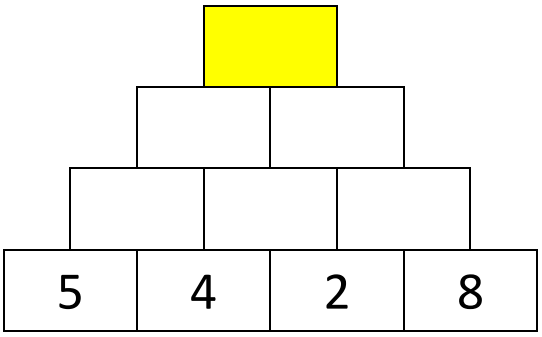


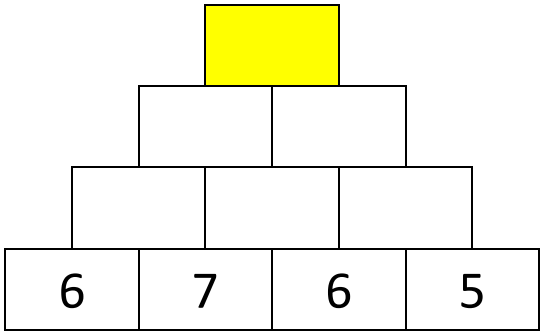


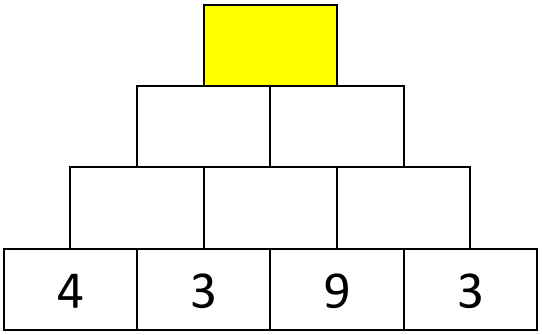
Level C - Pyramid Challenge Number 23

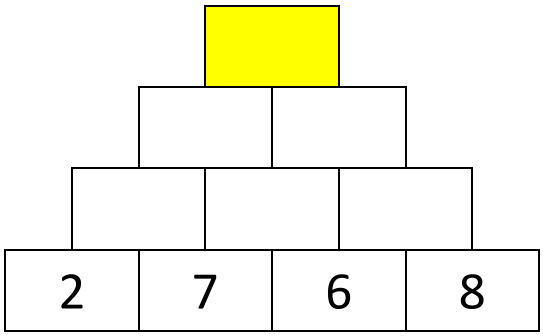
Add the numbers in the two bricks to get the number in the brick above

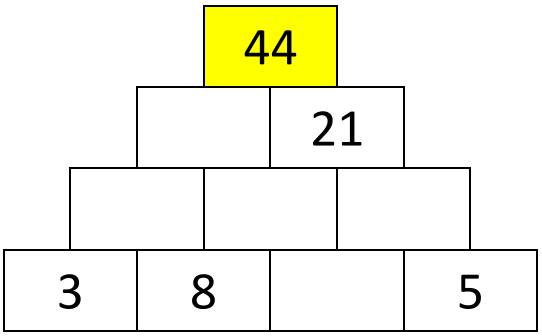


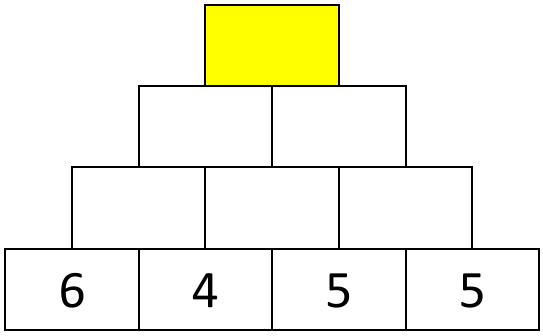


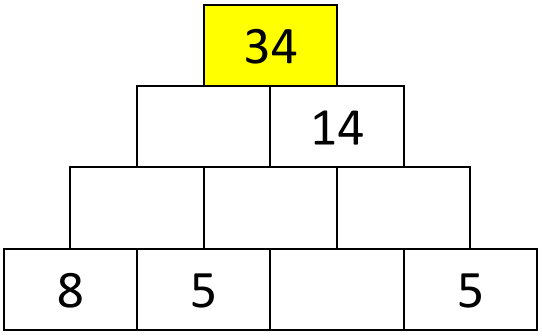


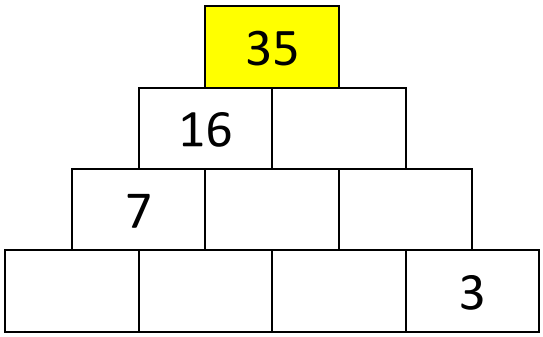


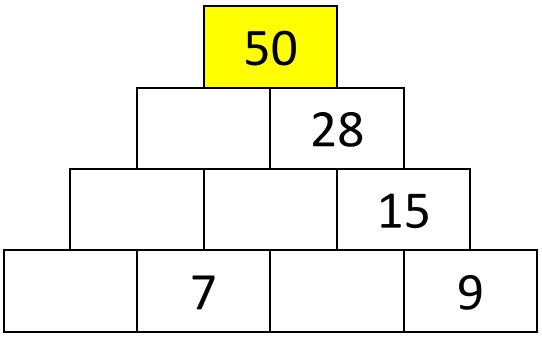






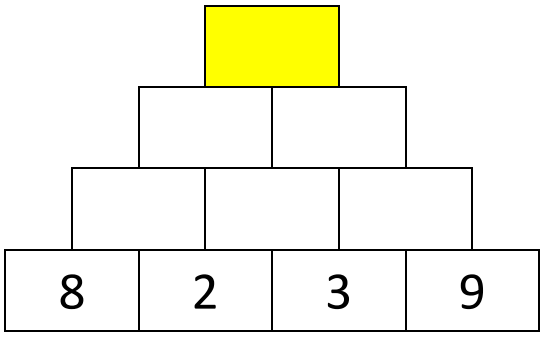


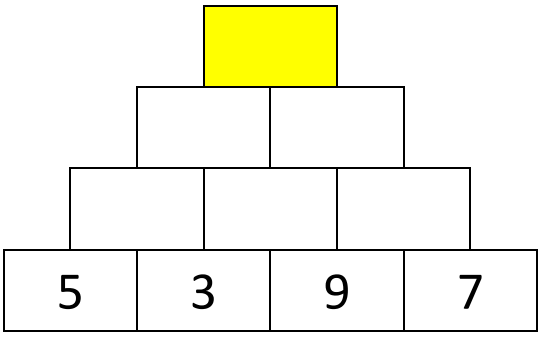


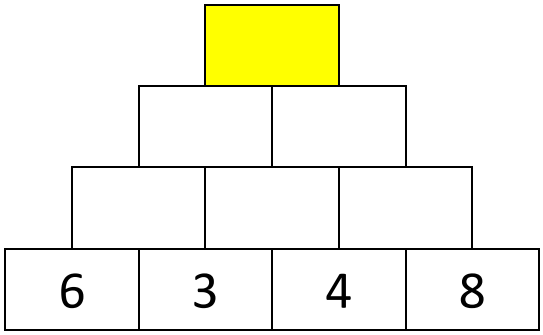


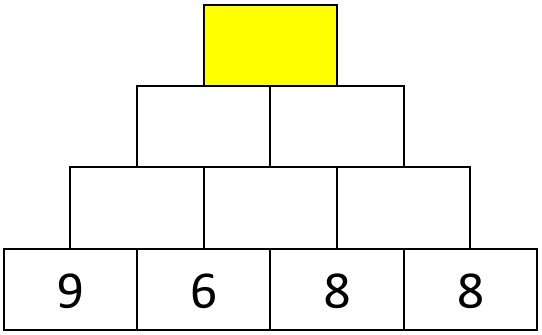
Level C - Pyramid Challenge Number 24

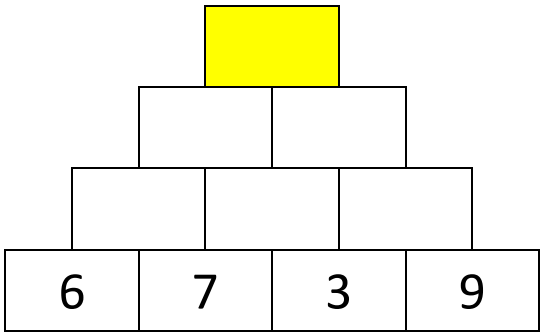
Add the numbers in the two bricks to get the number in the brick above

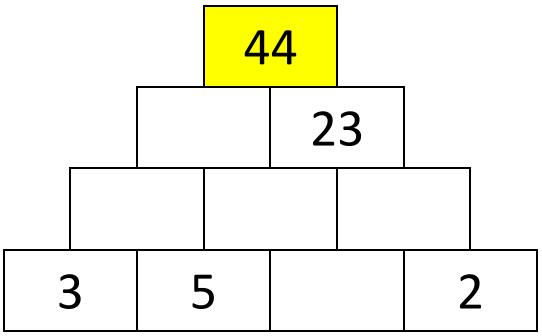


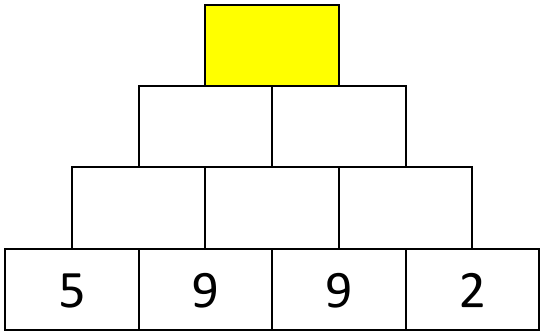


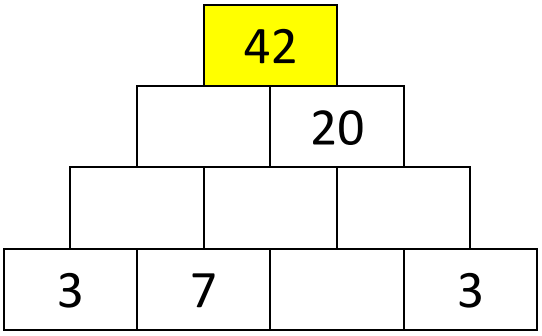


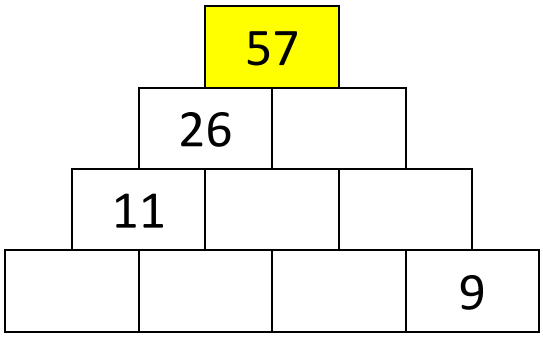


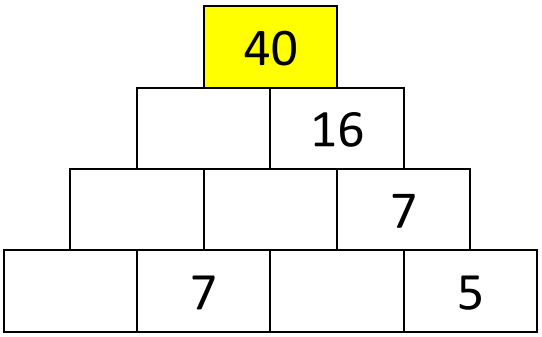






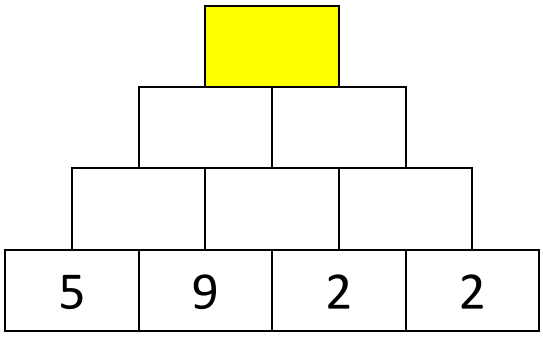


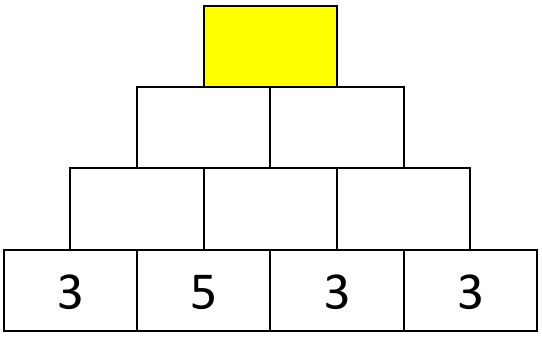


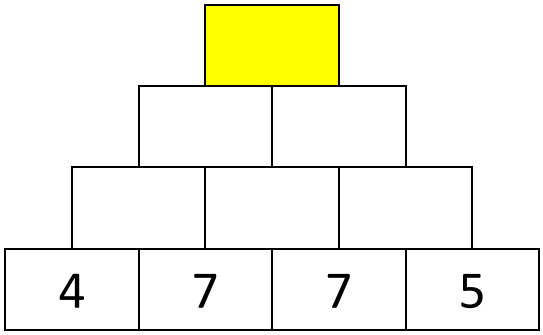


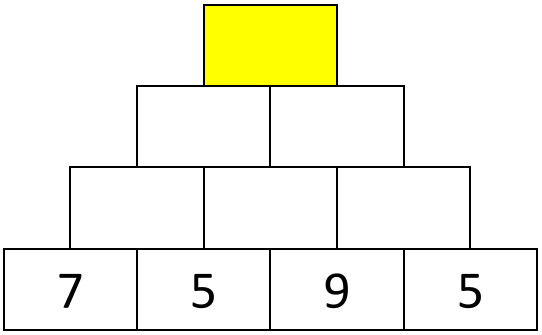
Level C - Pyramid Challenge Number 25

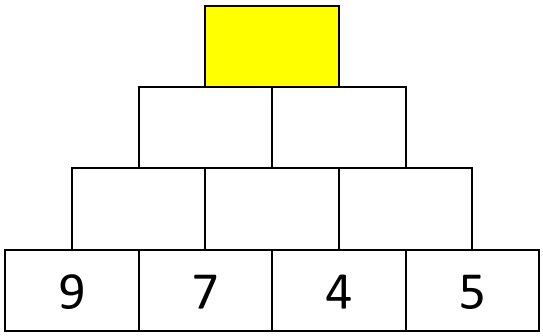
Add the numbers in the two bricks to get the number in the brick above

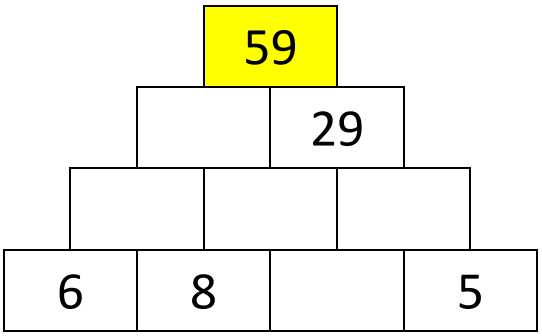


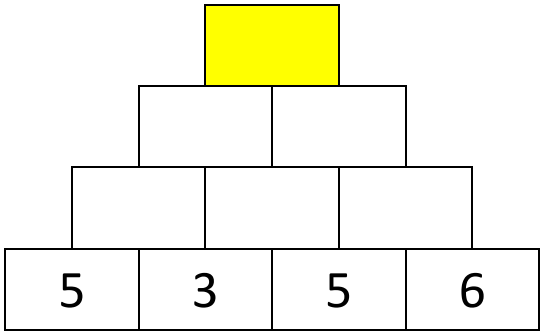


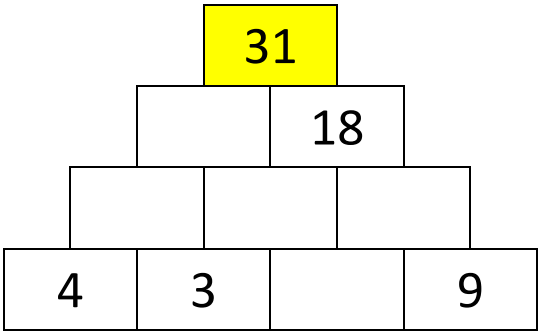


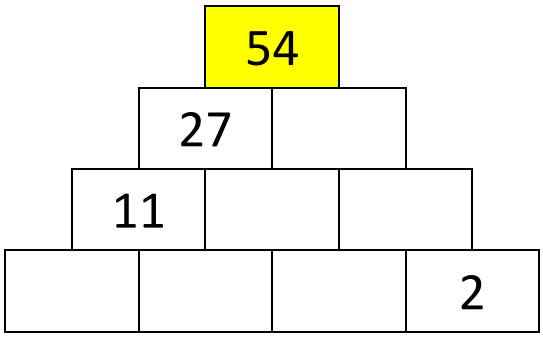


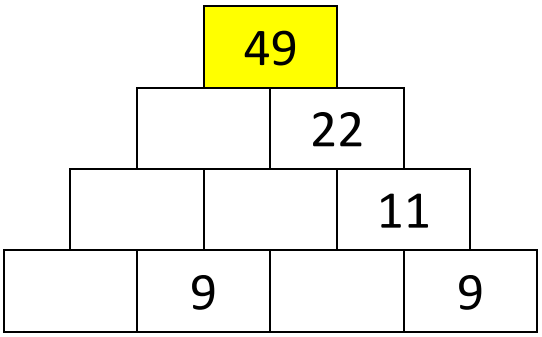






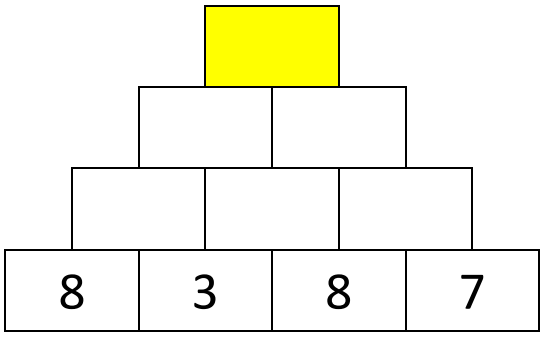


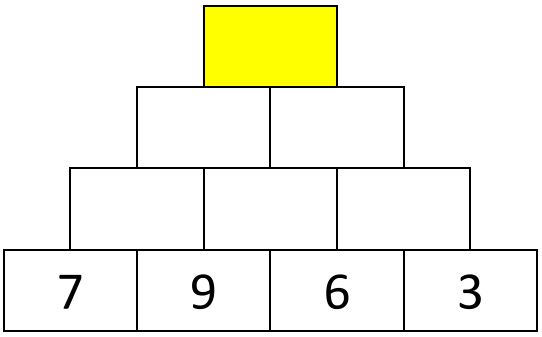


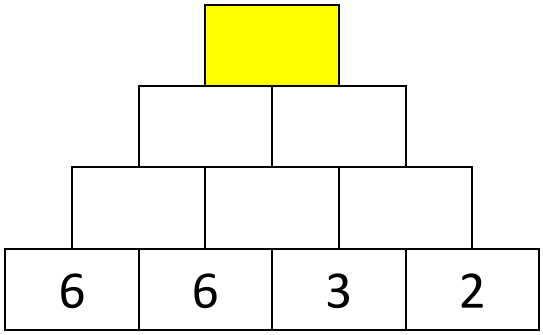


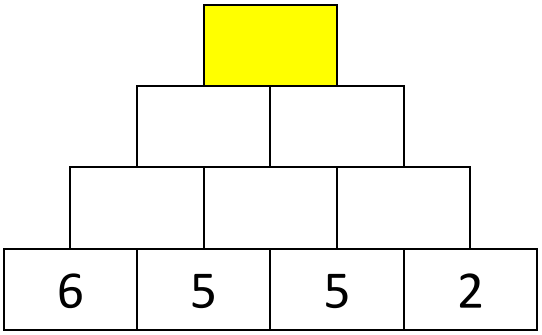
Level C - Pyramid Challenge Number 26

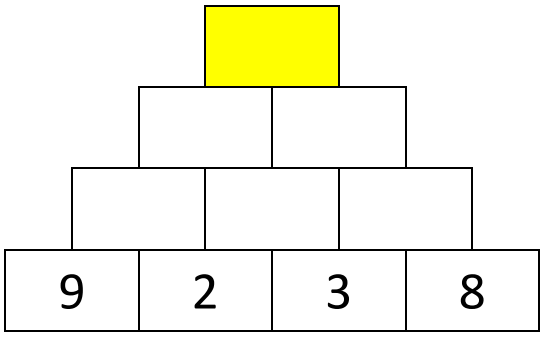
Add the numbers in the two bricks to get the number in the brick above

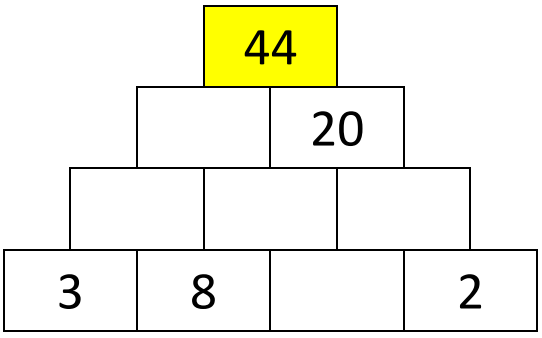


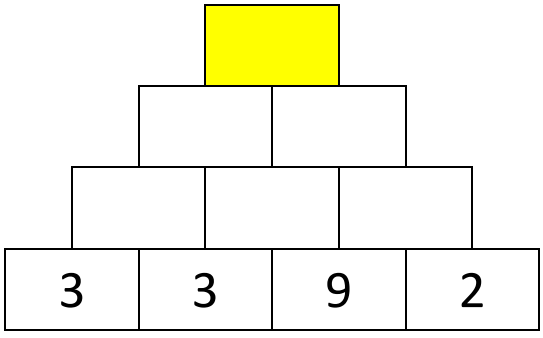


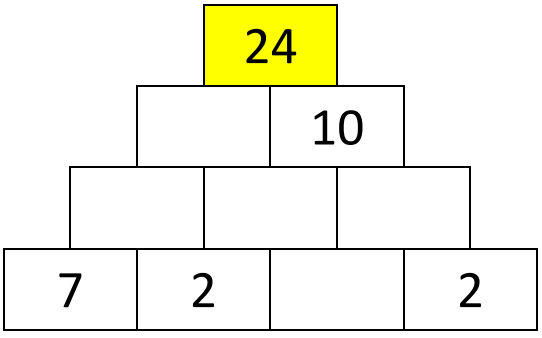


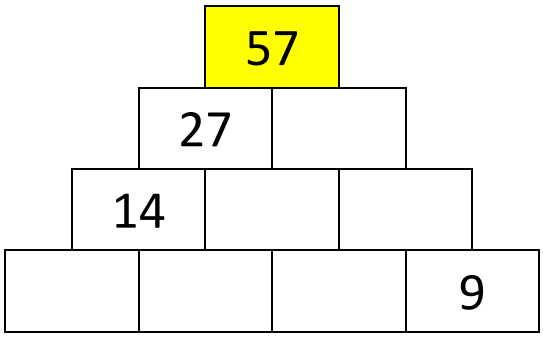


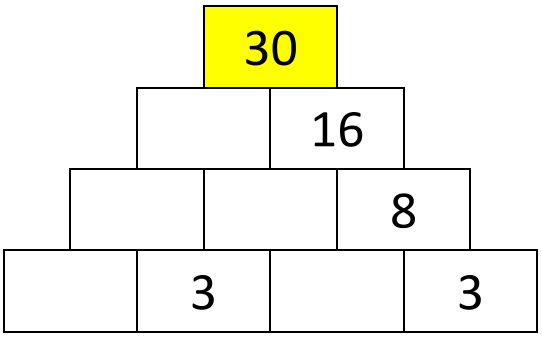






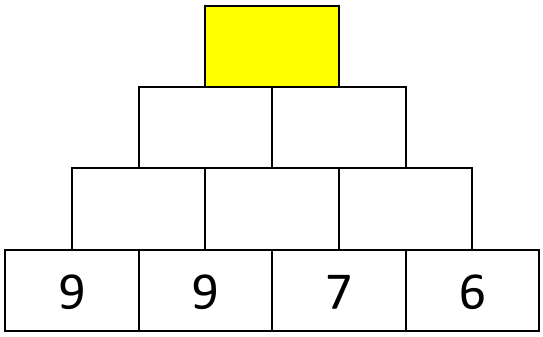


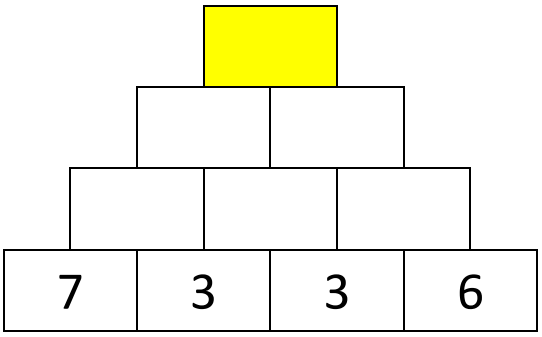


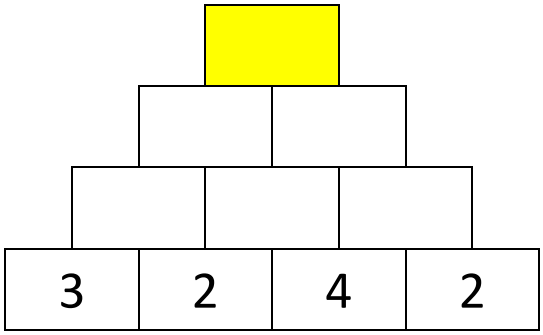


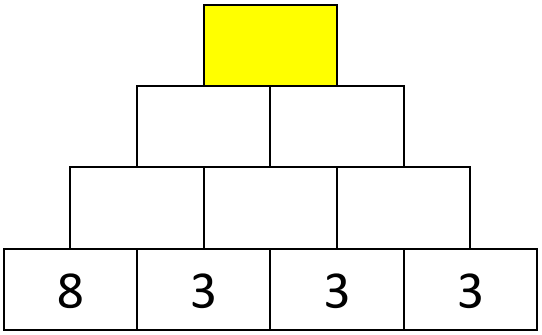
Level C - Pyramid Challenge Number 27

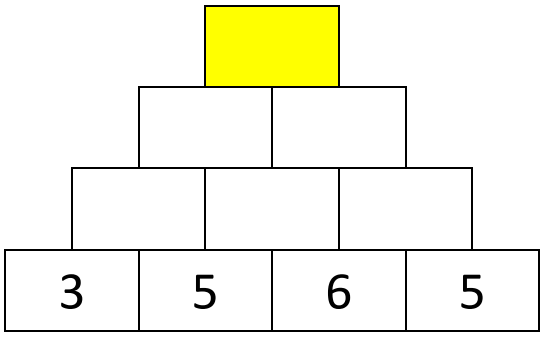
Add the numbers in the two bricks to get the number in the brick above

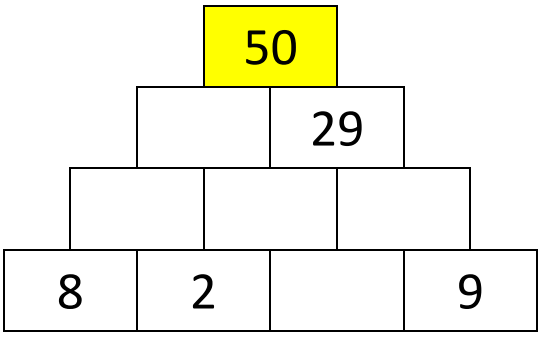


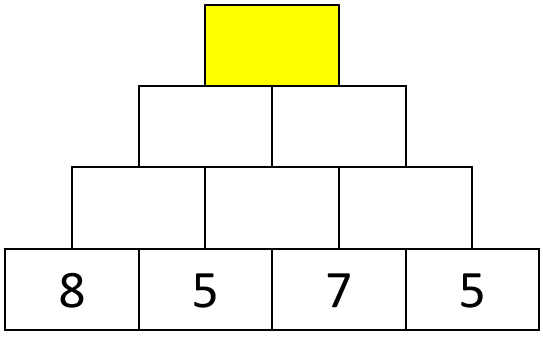


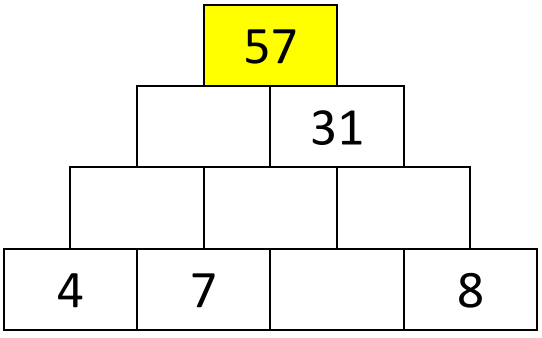


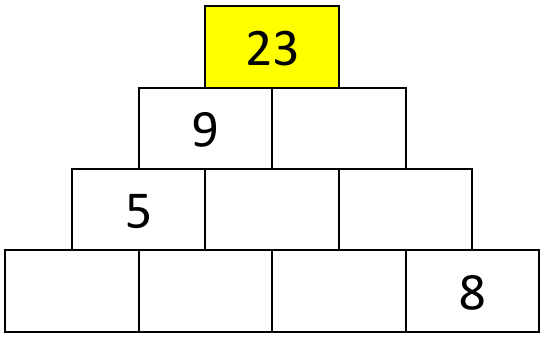


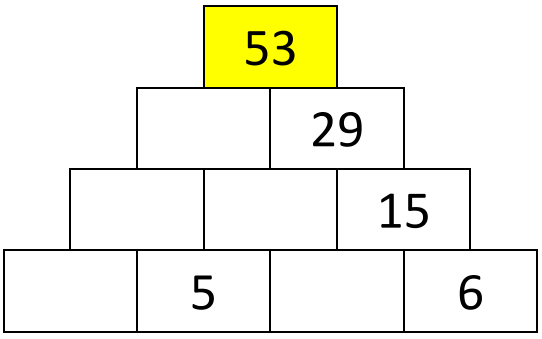






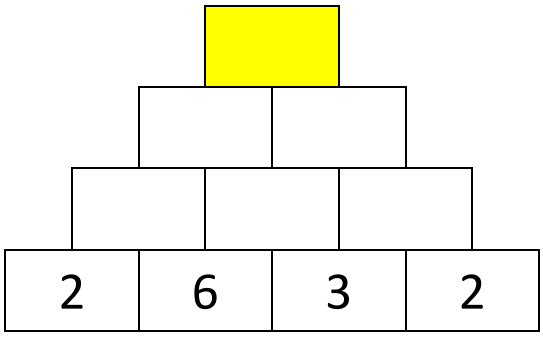


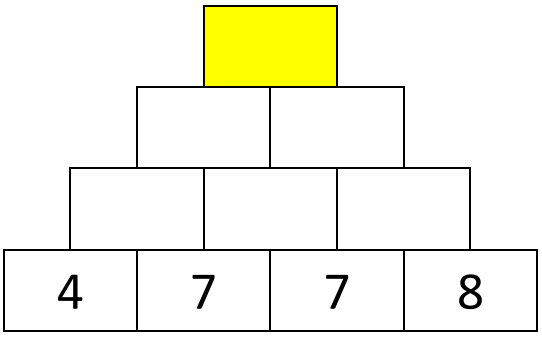


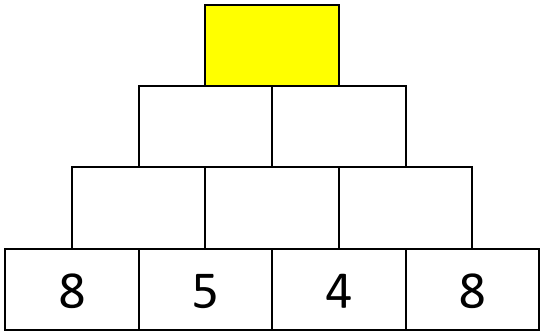


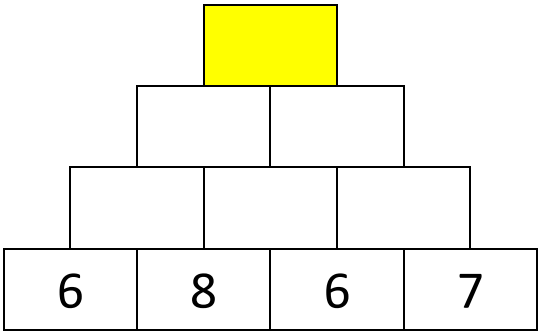
Level C - Pyramid Challenge Number 28

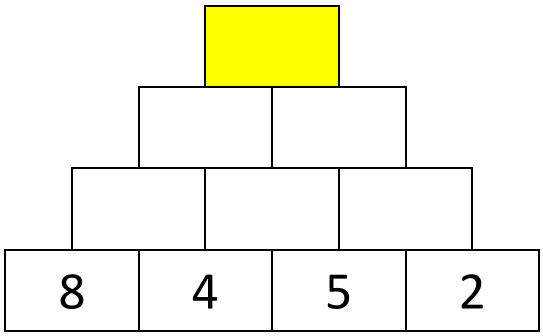
Add the numbers in the two bricks to get the number in the brick above

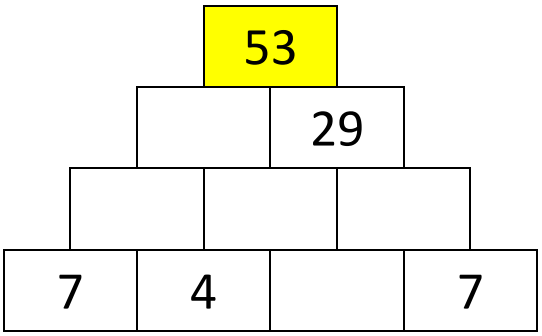


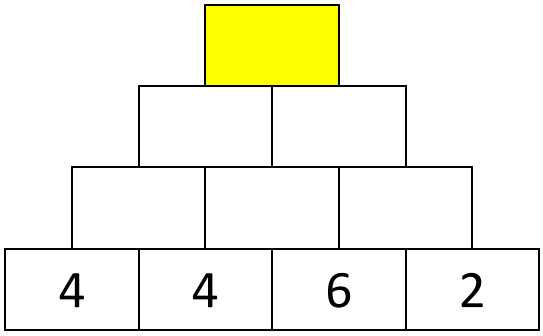


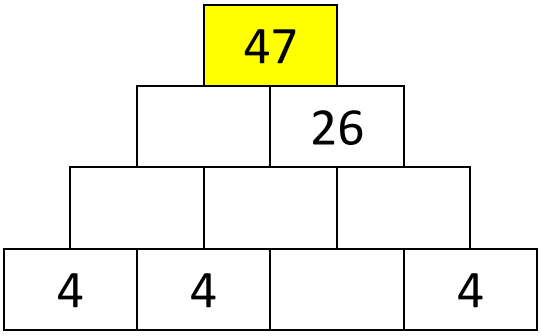


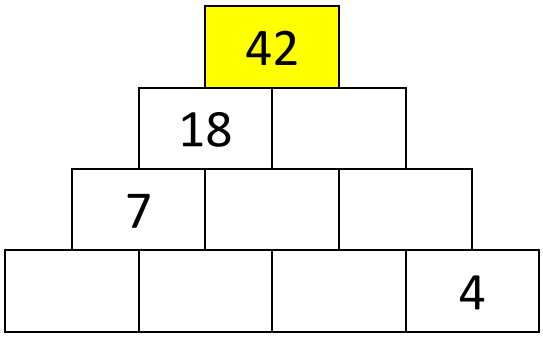


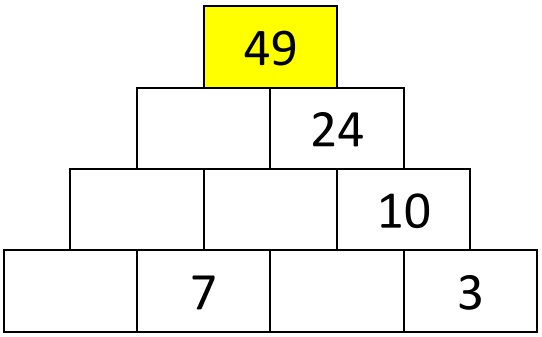






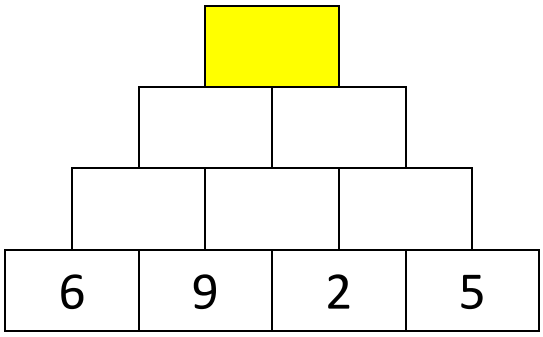


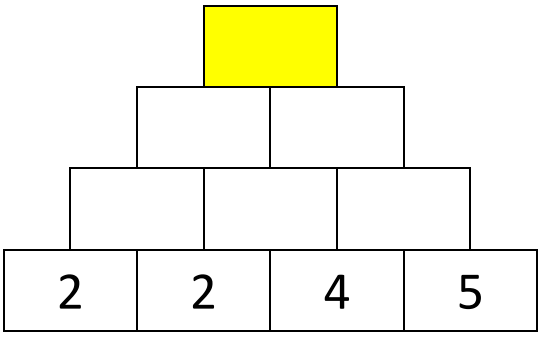


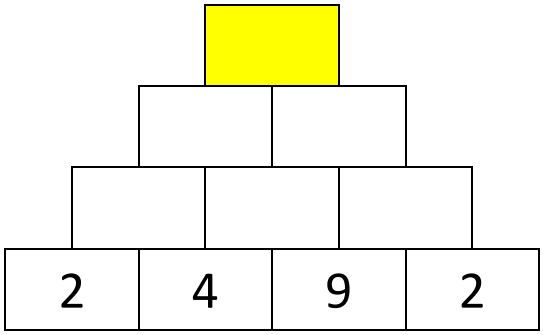


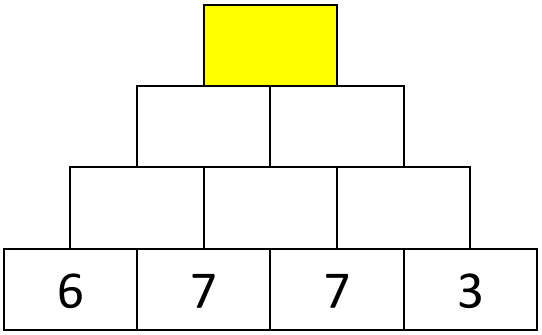
Level C - Pyramid Challenge Number 29

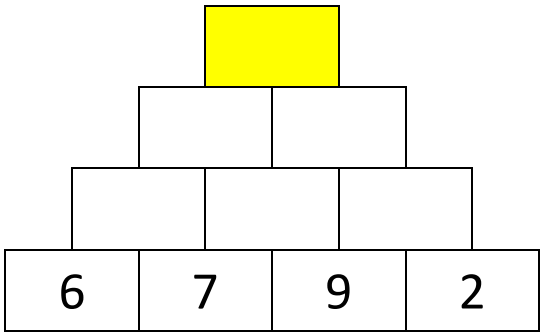
Add the numbers in the two bricks to get the number in the brick above

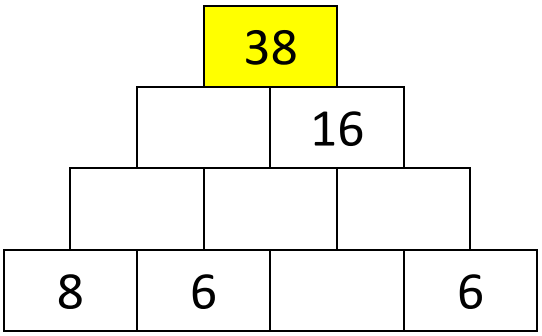


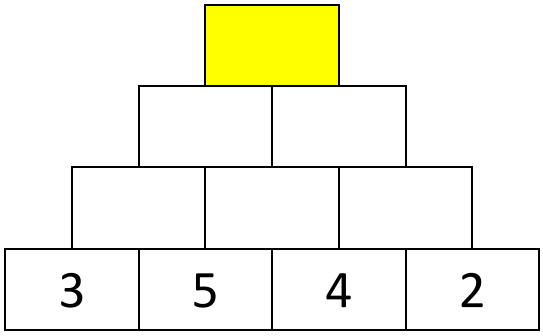


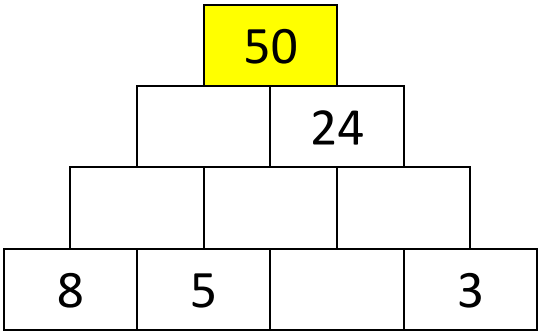


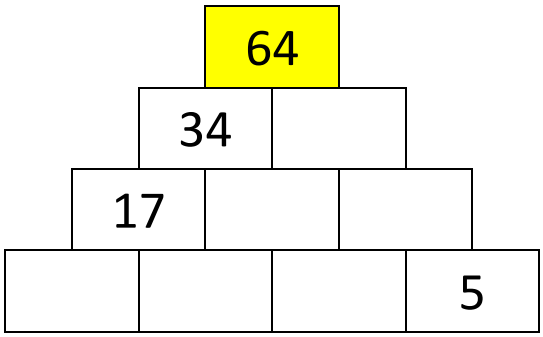


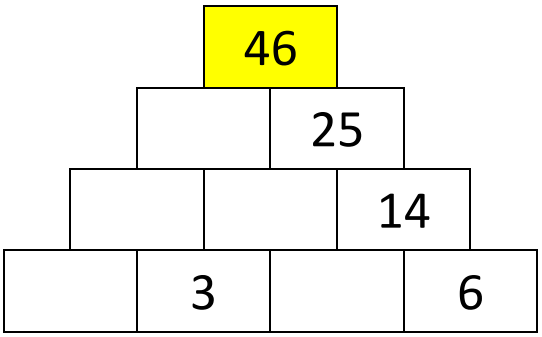






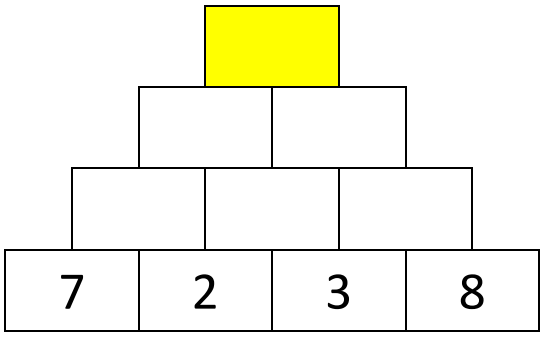


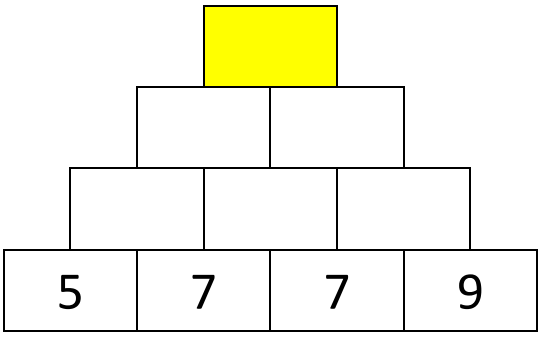


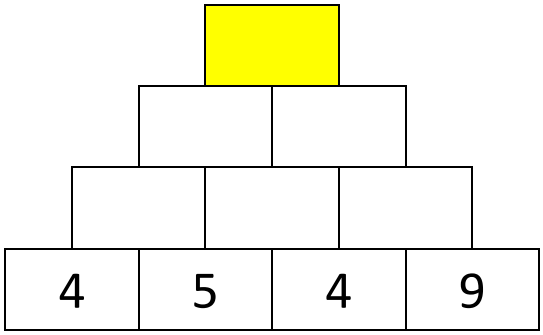


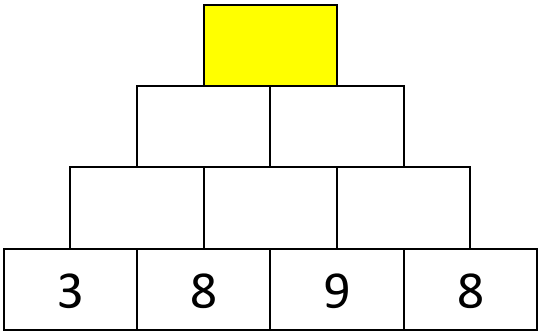
Level C - Pyramid Challenge Number 30

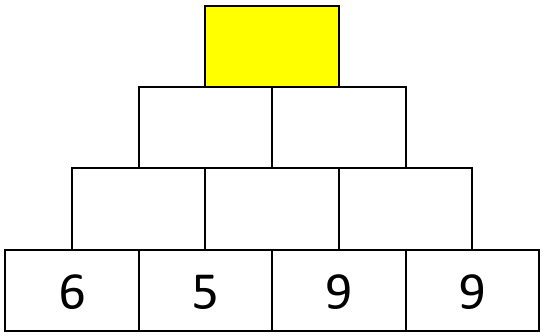
Add the numbers in the two bricks to get the number in the brick above

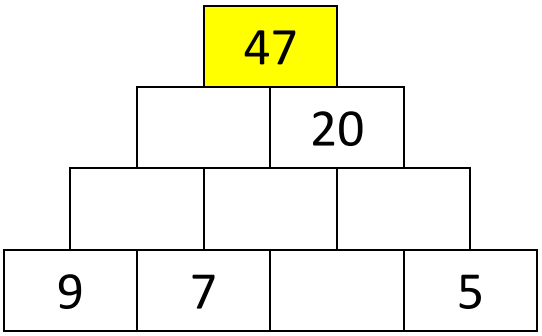


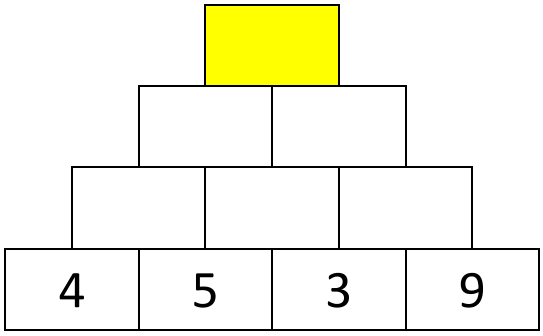


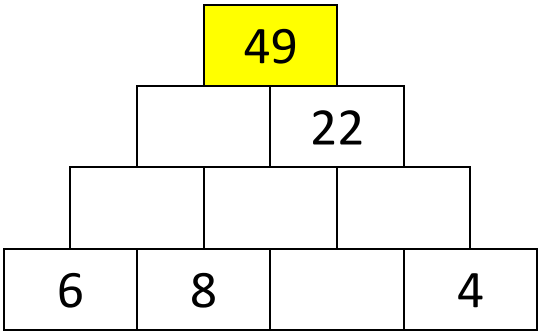


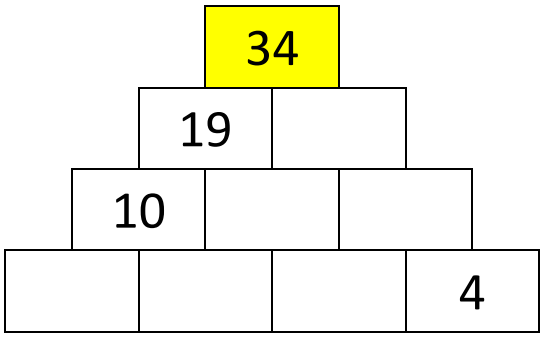


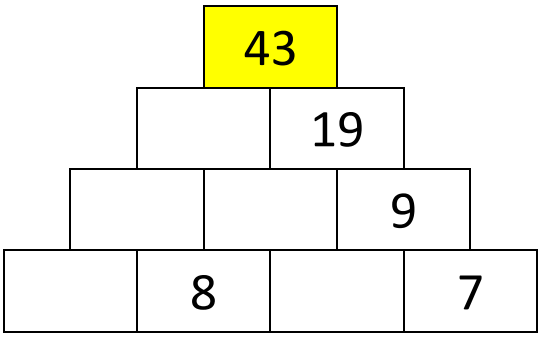






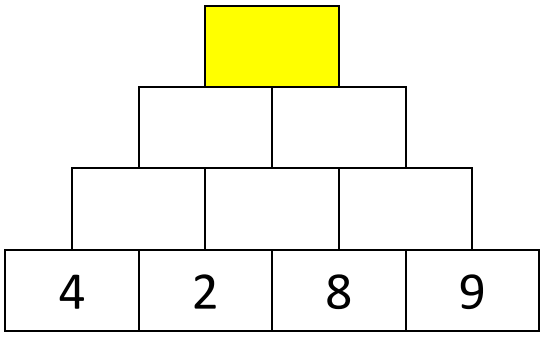


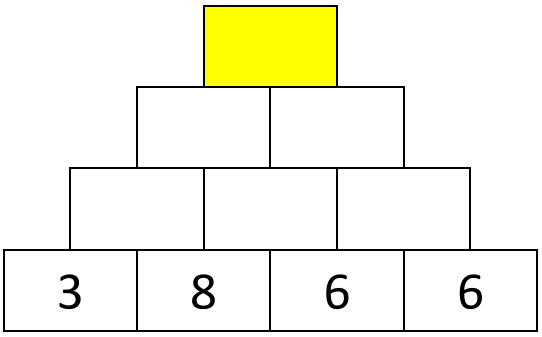


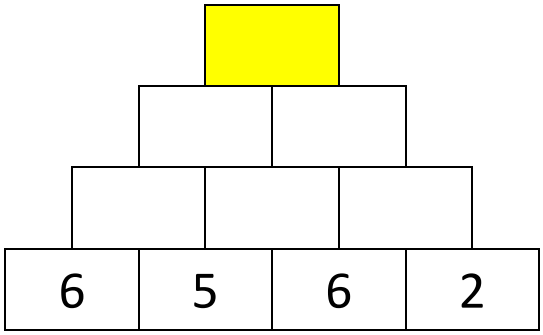


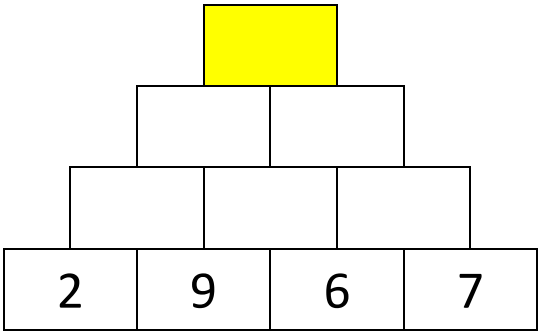
Level C - Pyramid Challenge Number 31

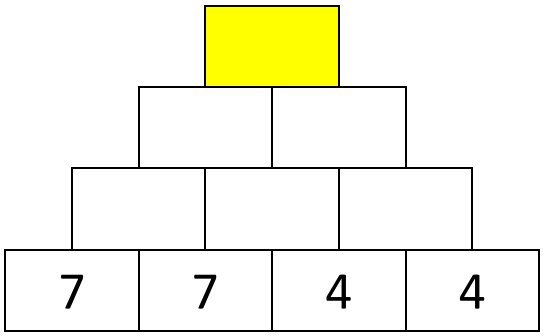
Add the numbers in the two bricks to get the number in the brick above

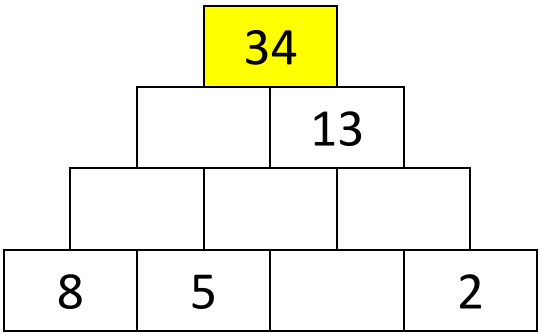


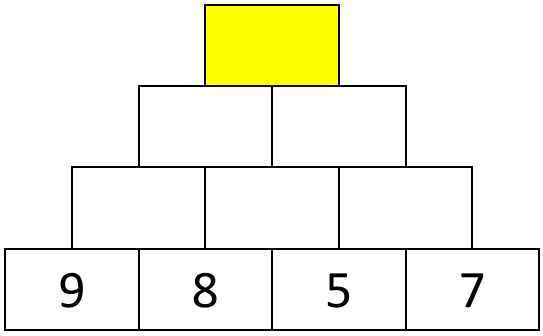


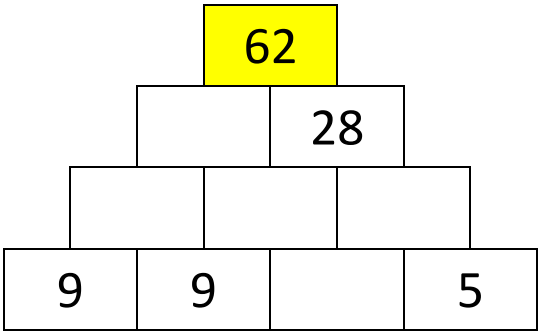


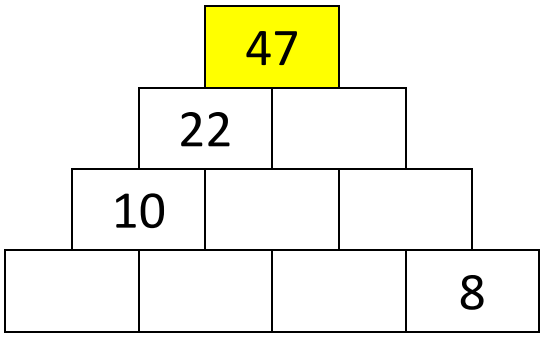


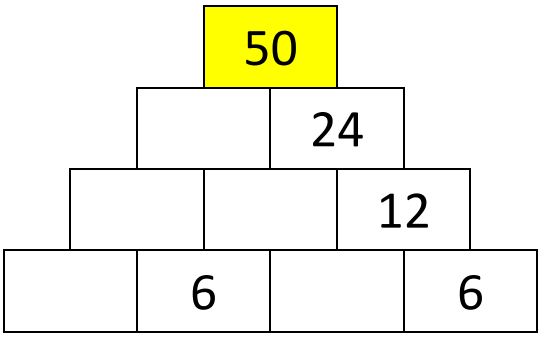






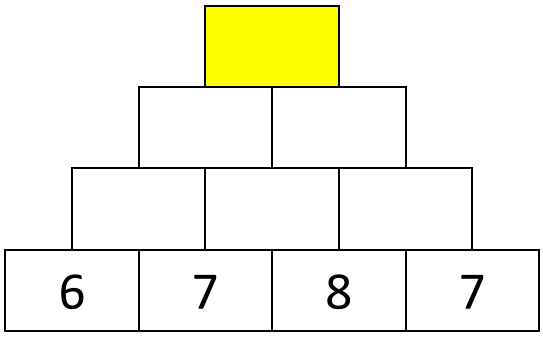


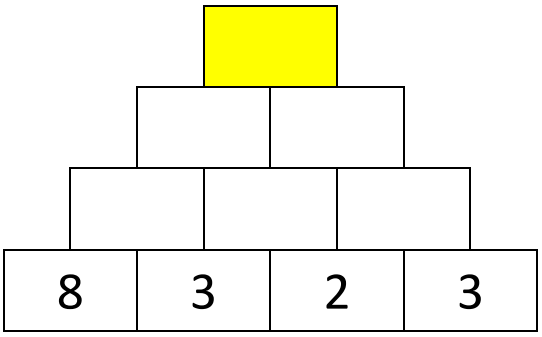


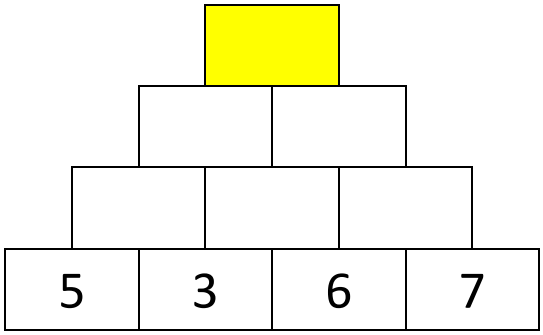


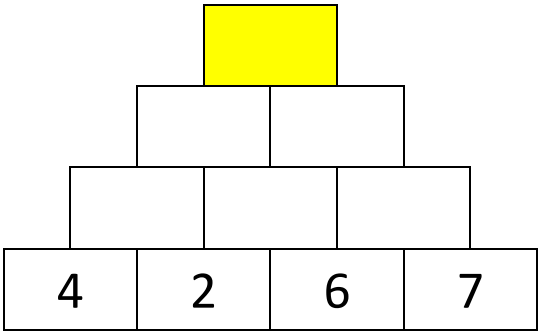
Level C - Pyramid Challenge Number 32

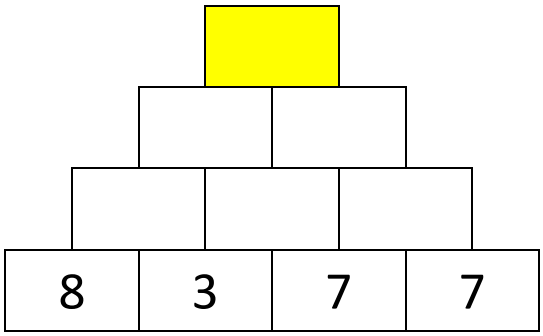
Add the numbers in the two bricks to get the number in the brick above

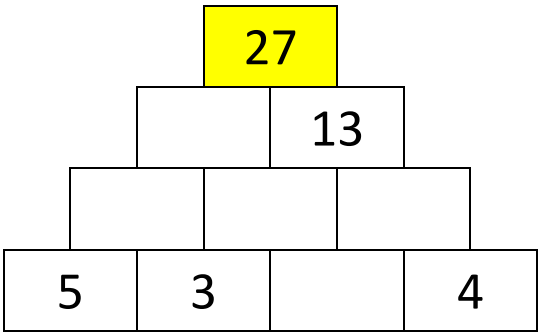


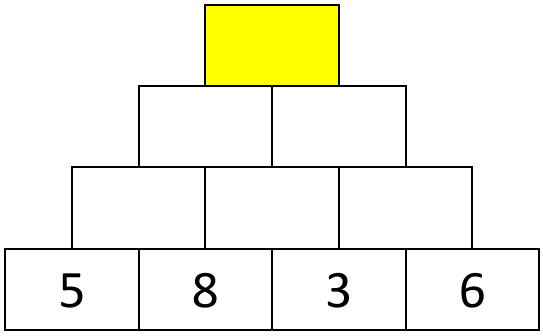


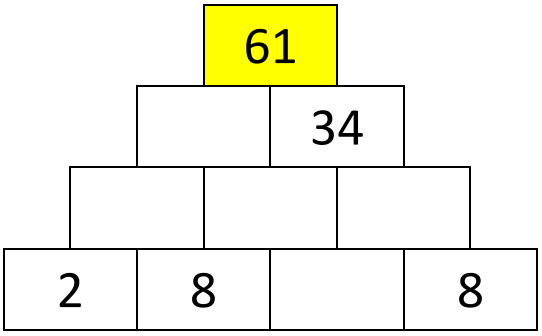


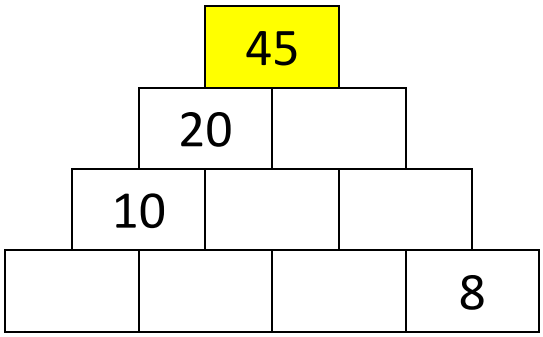


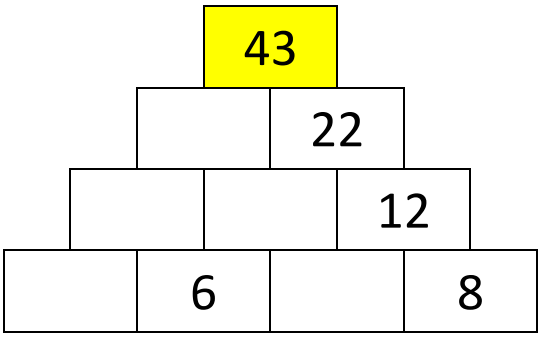






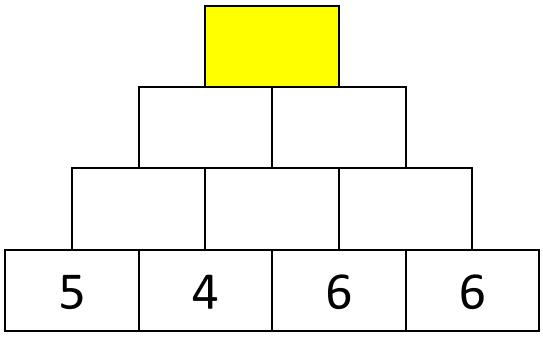


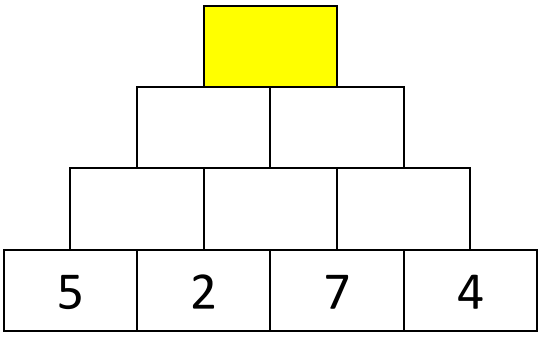


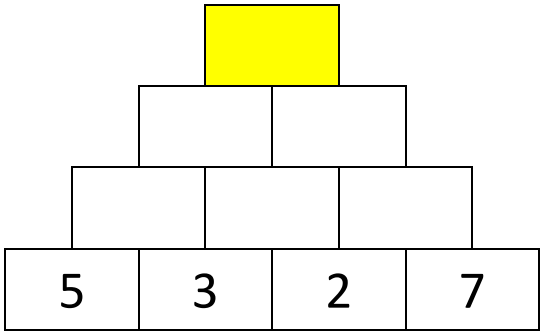


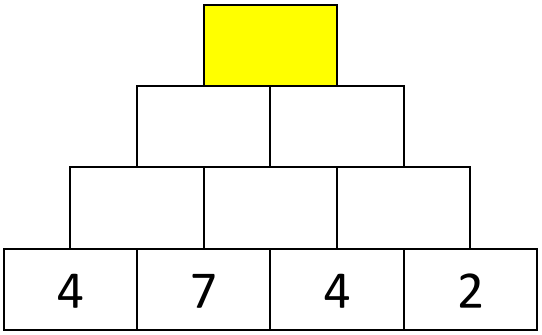
Level C - Pyramid Challenge Number 33

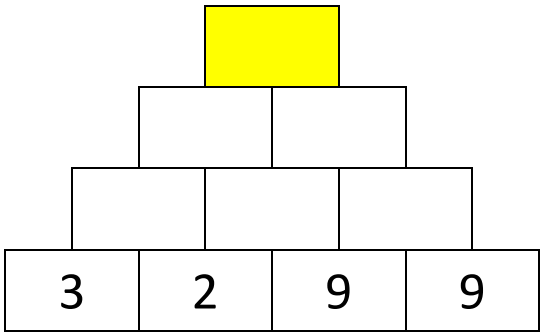
Add the numbers in the two bricks to get the number in the brick above

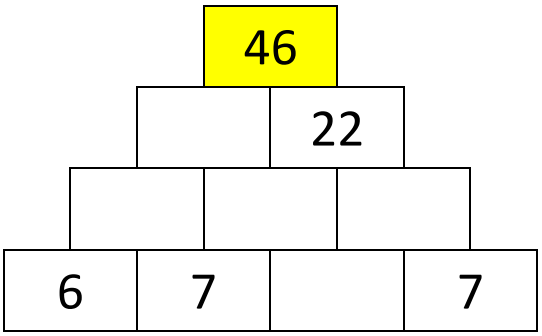


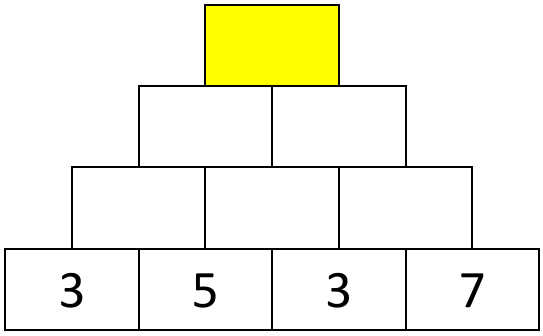


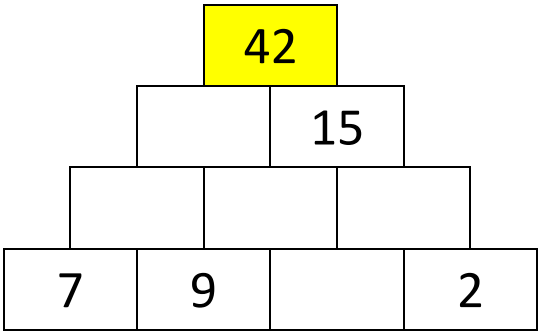


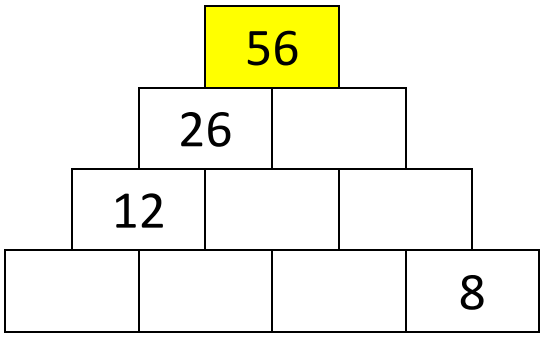


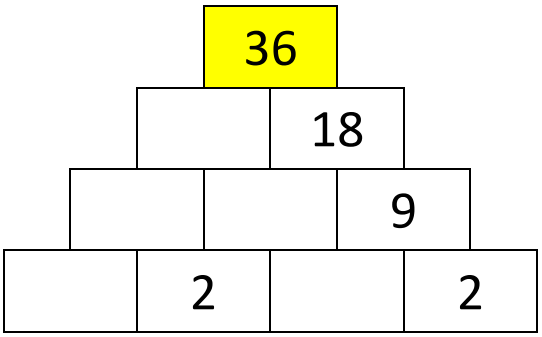






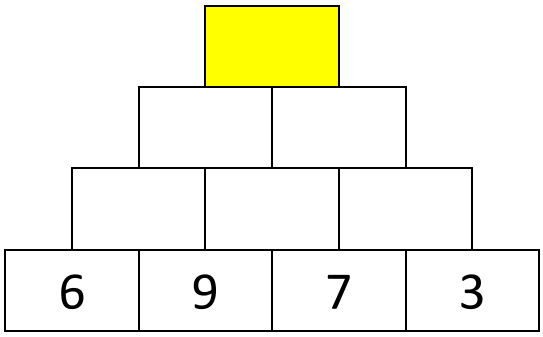


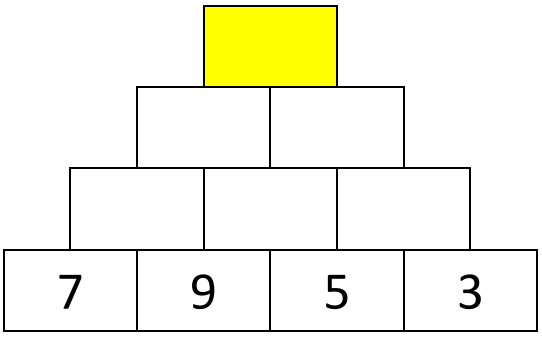


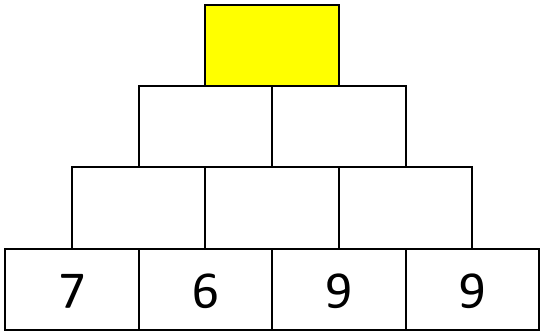


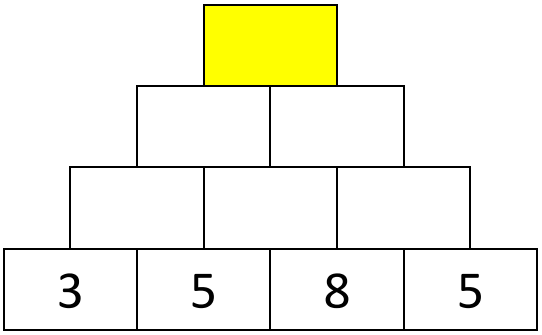
Level C - Pyramid Challenge Number 34

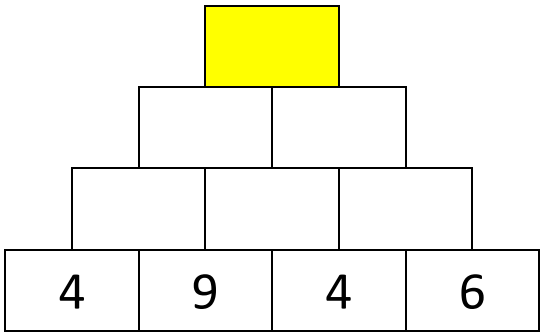
Add the numbers in the two bricks to get the number in the brick above

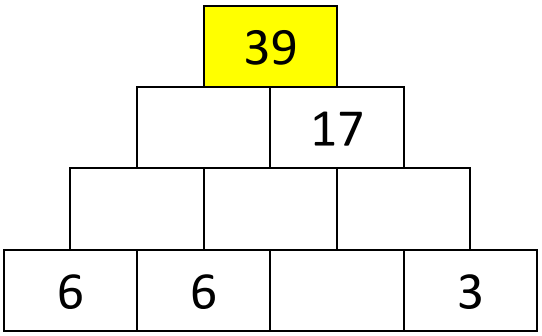


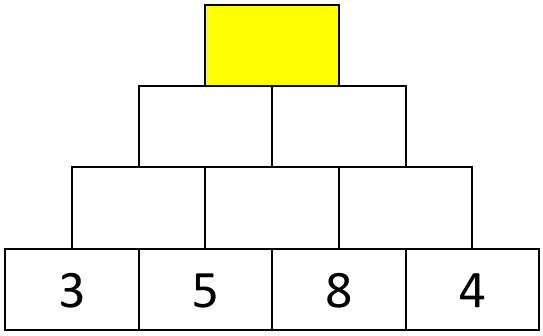


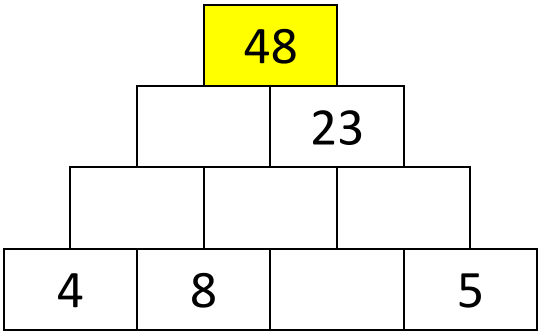


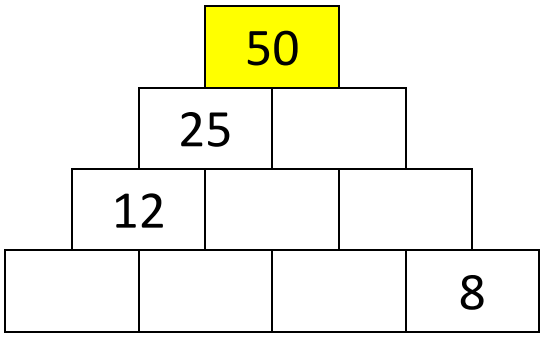


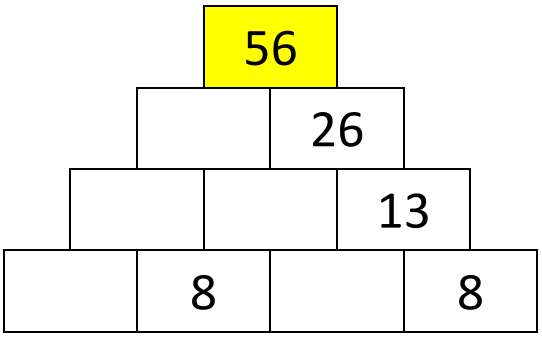






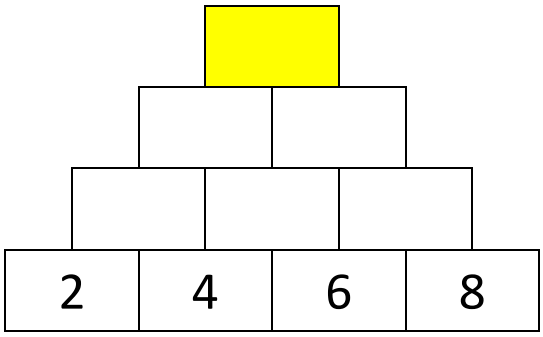


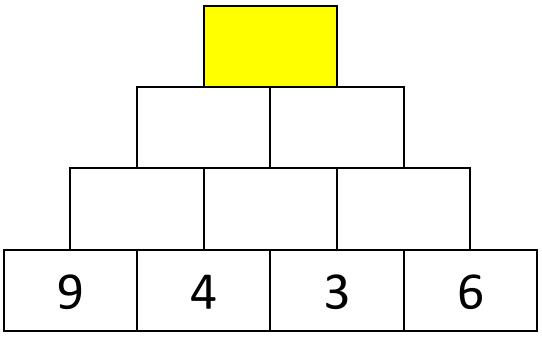


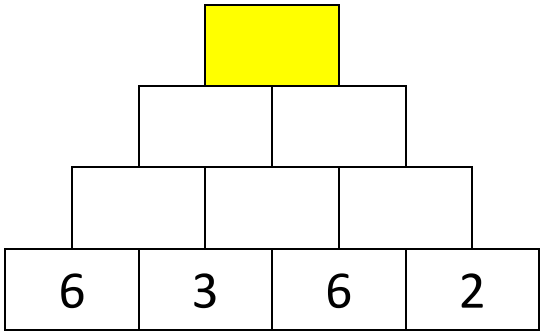


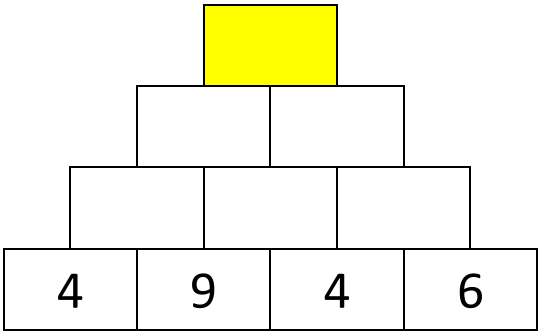
Level C - Pyramid Challenge Number 35

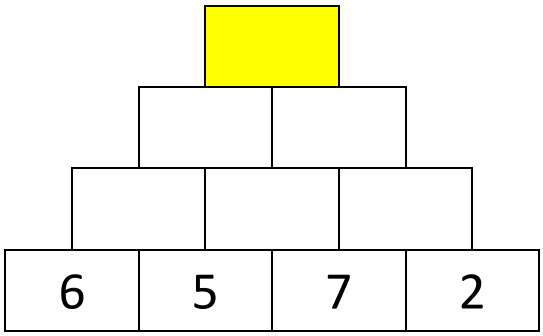
Add the numbers in the two bricks to get the number in the brick above

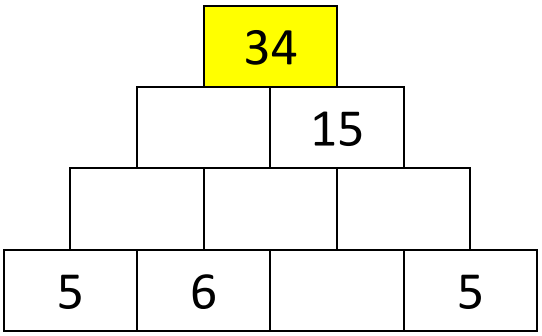


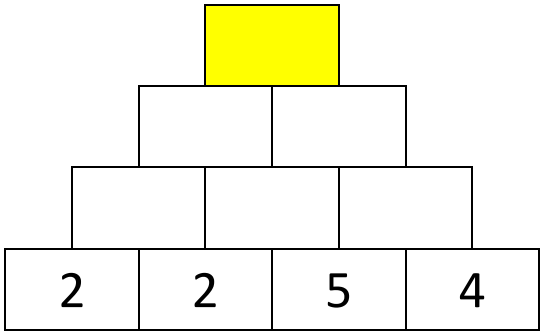


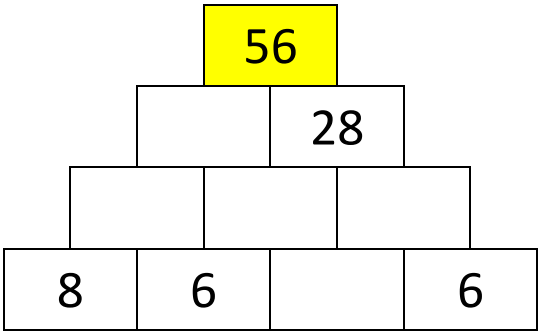


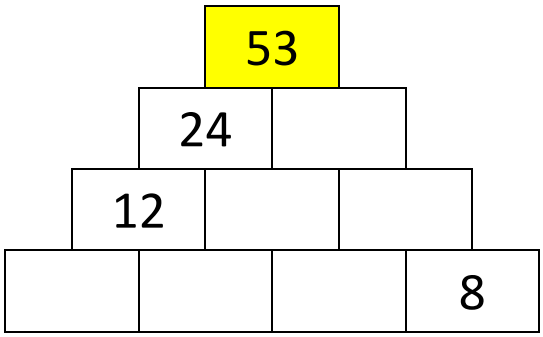


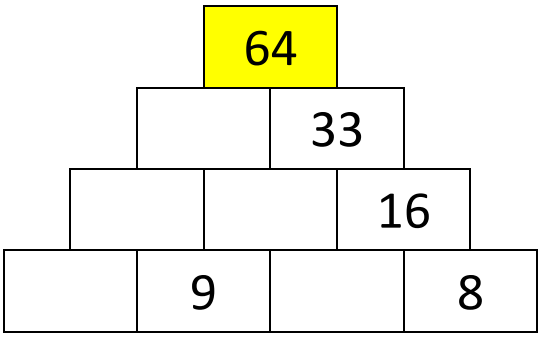






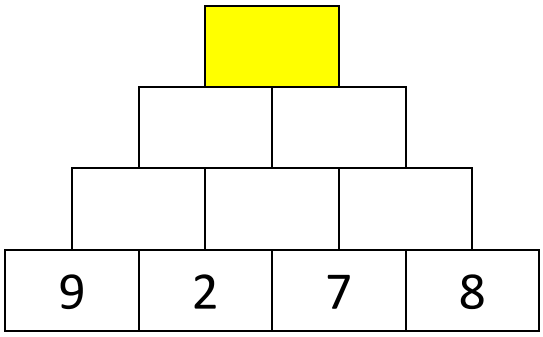


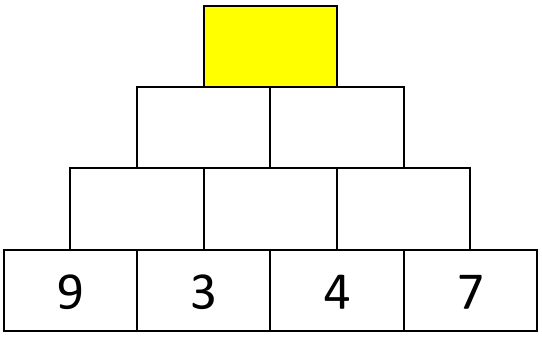


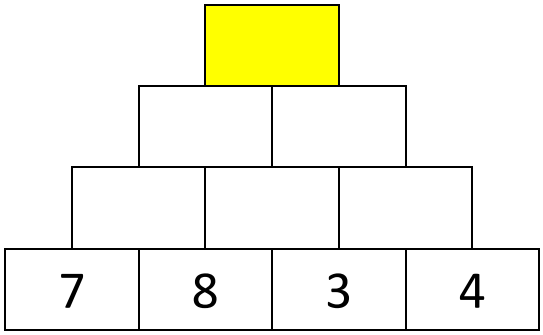


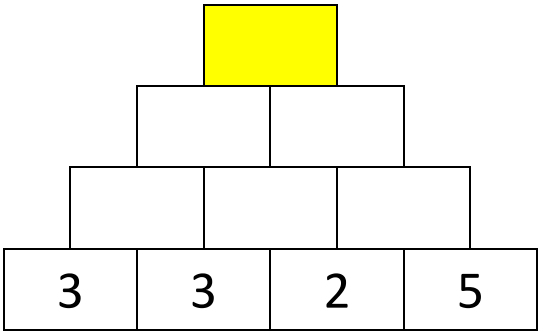
Level C - Pyramid Challenge Number 36

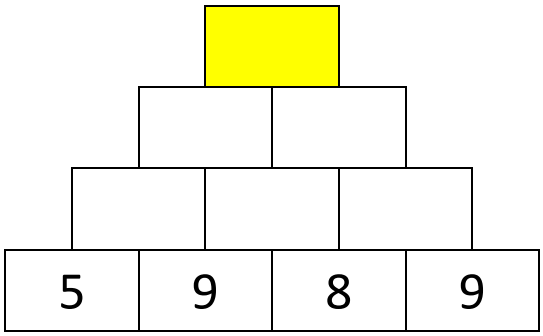
Add the numbers in the two bricks to get the number in the brick above

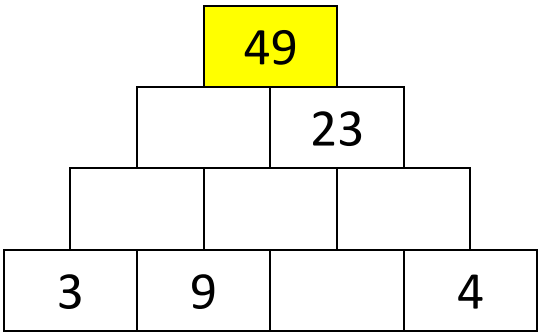


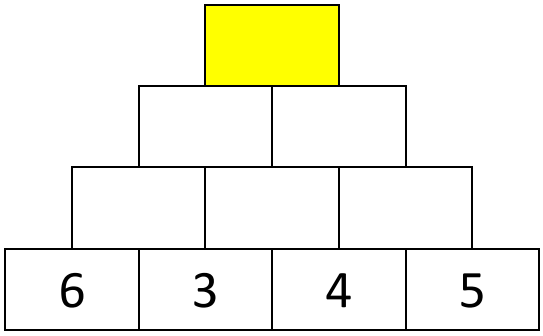


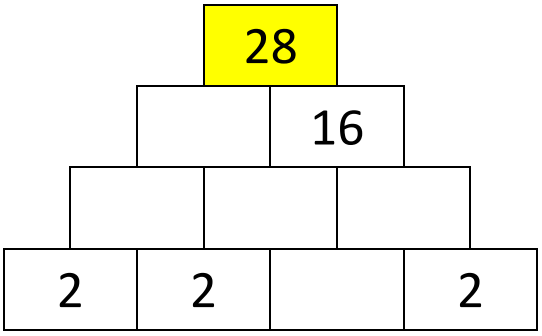


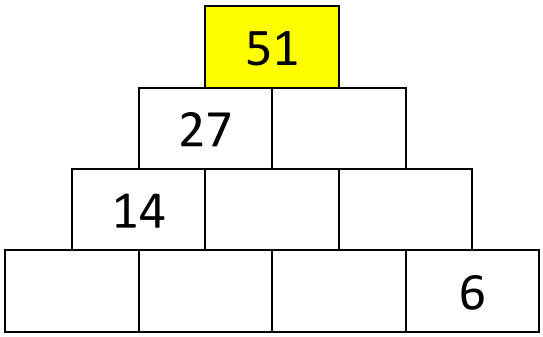


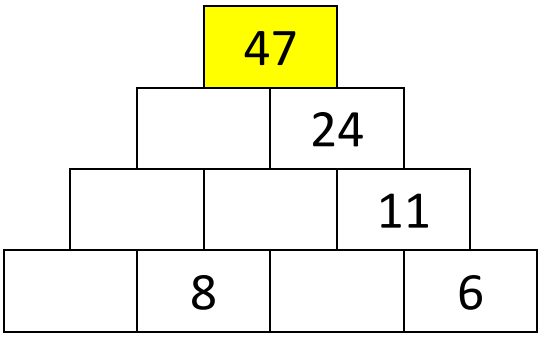






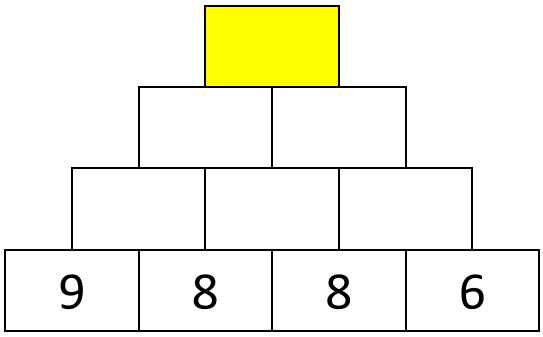


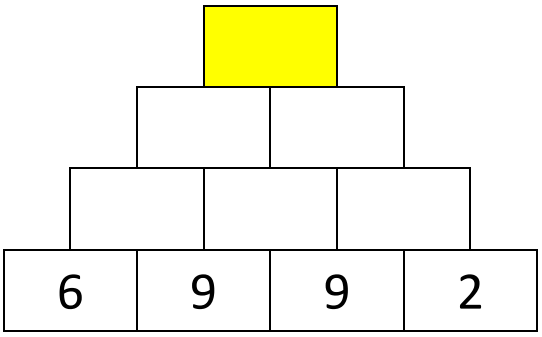


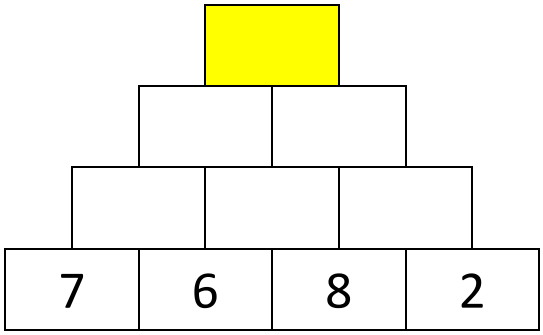


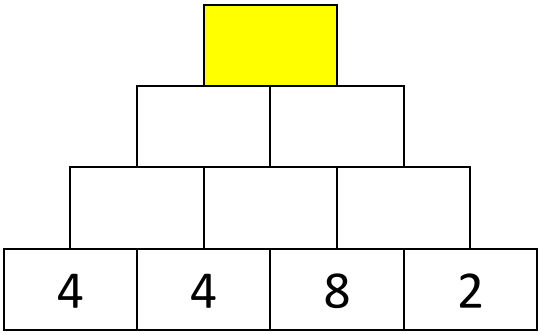
Level C - Pyramid Challenge Number 37

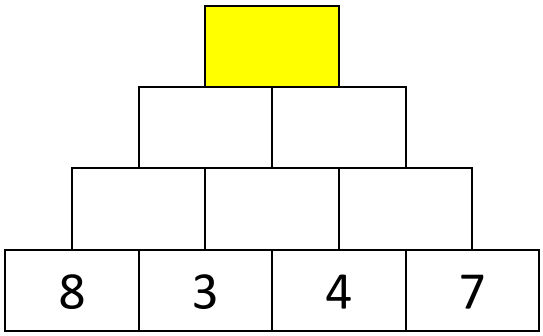
Add the numbers in the two bricks to get the number in the brick above

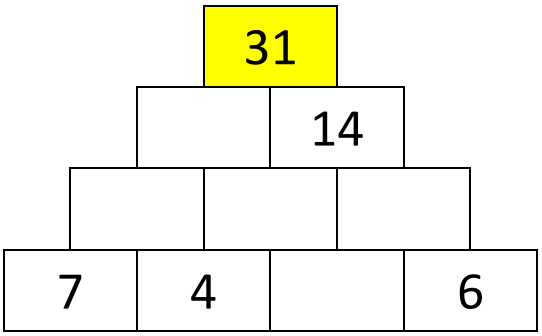


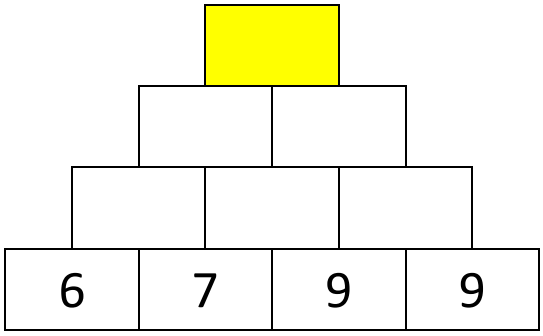


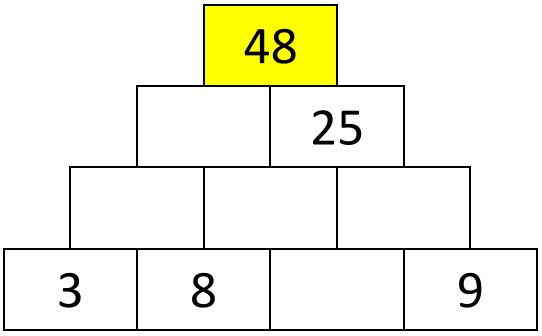


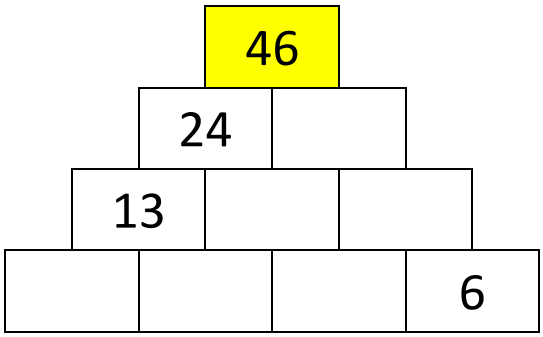


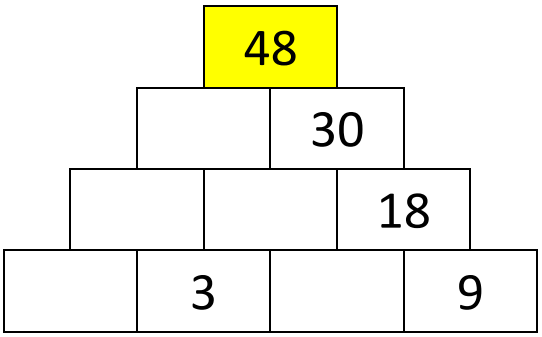






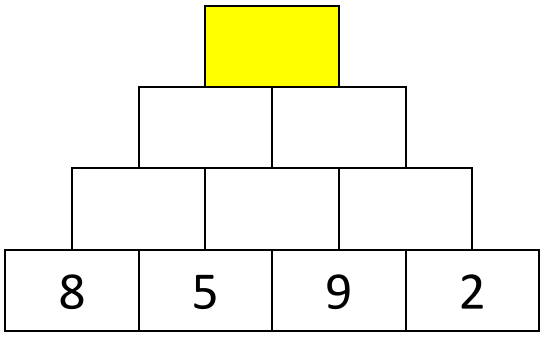


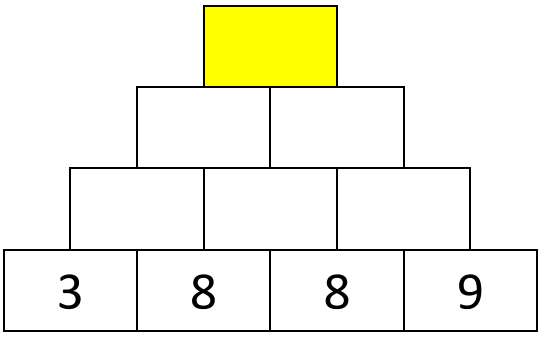


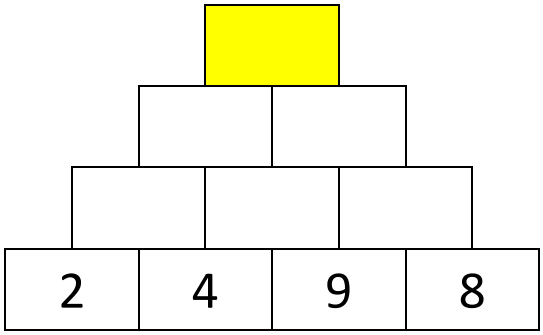


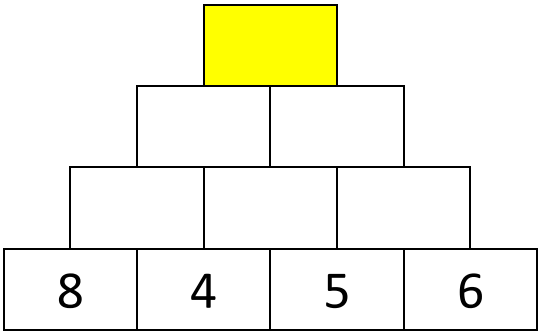
Level C - Pyramid Challenge Number 38

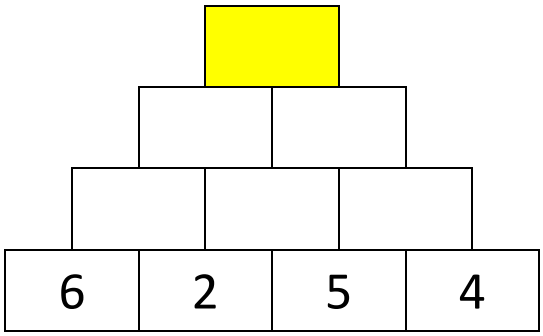
Add the numbers in the two bricks to get the number in the brick above

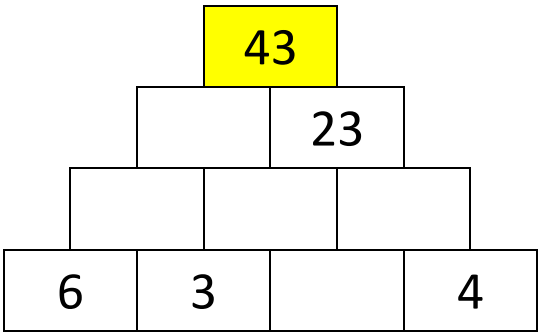


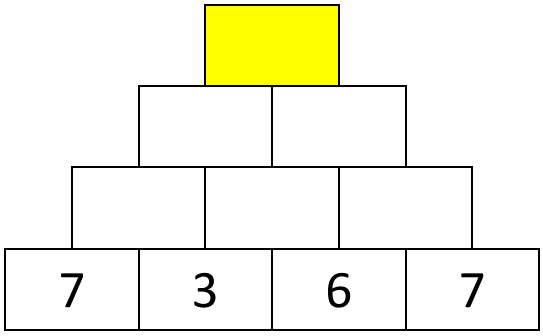


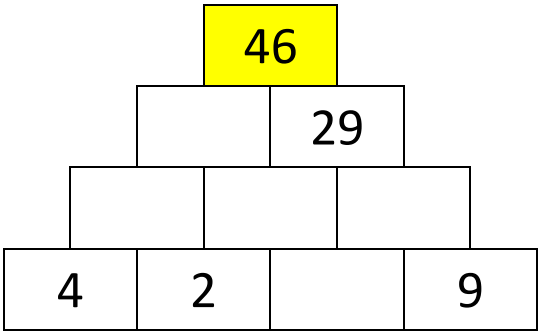


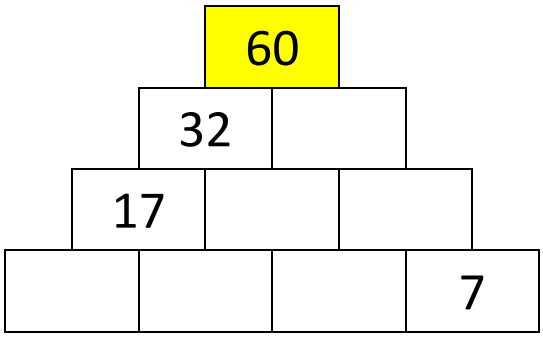


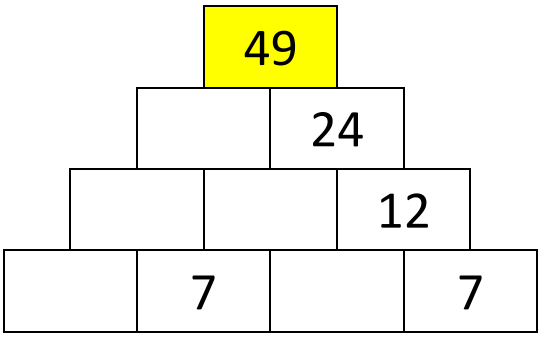






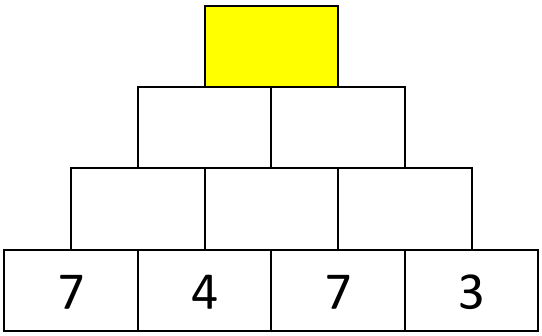


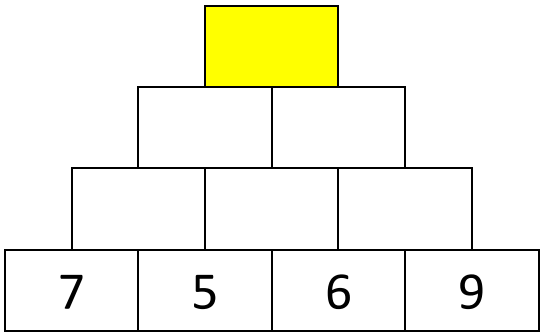


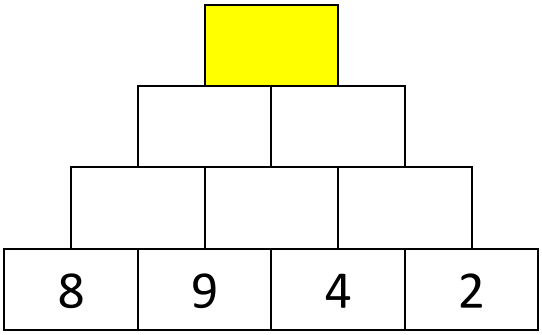


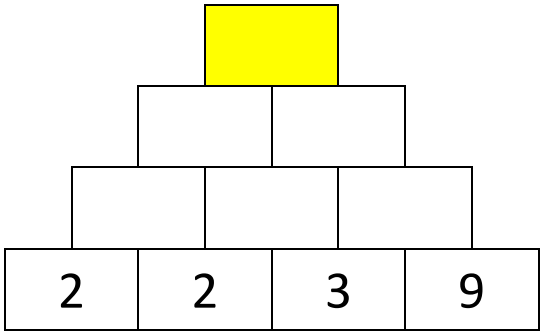
Level C - Pyramid Challenge Number 39

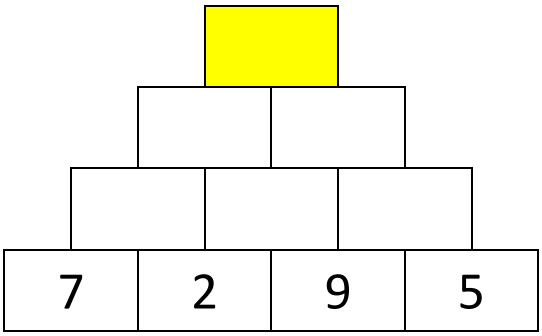
Add the numbers in the two bricks to get the number in the brick above

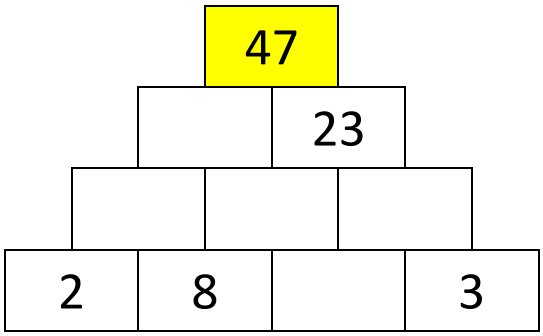


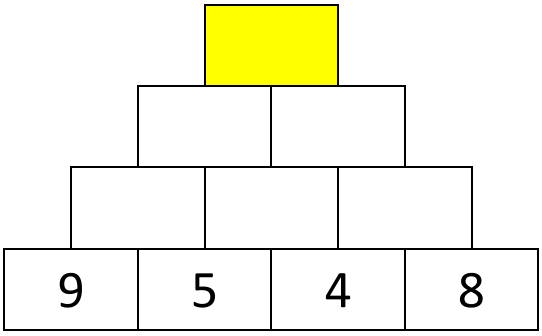


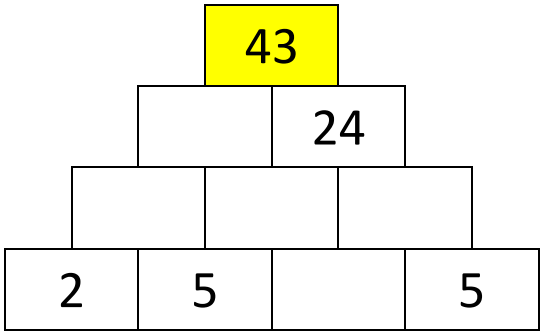


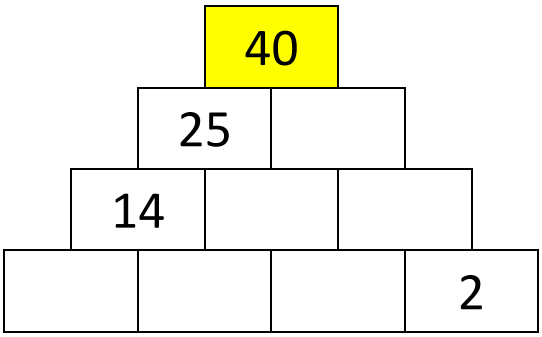


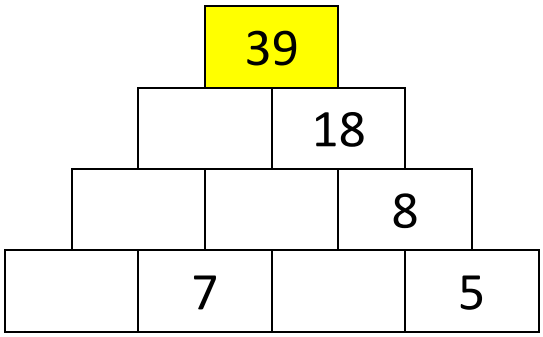






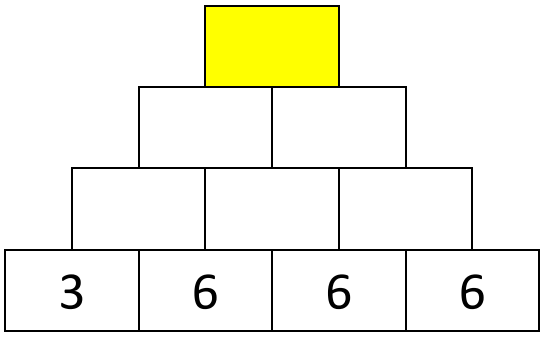


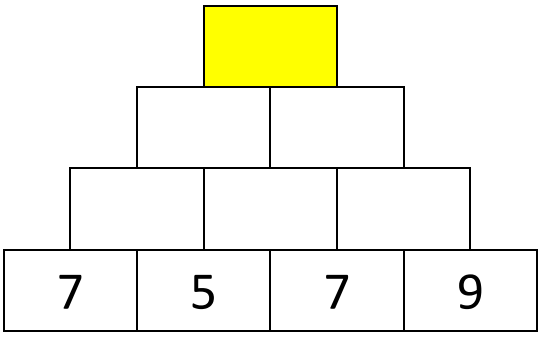


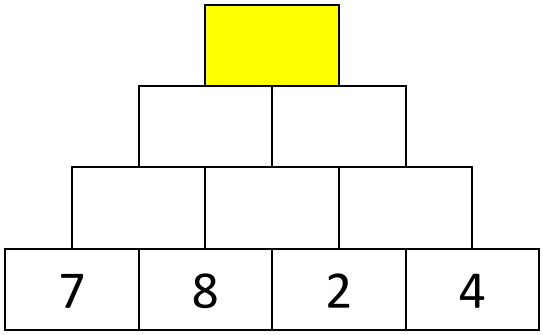


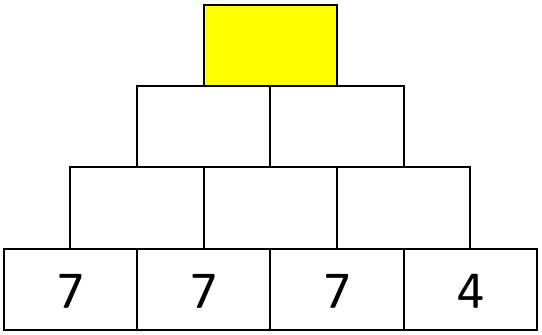
Level C - Pyramid Challenge Number 40

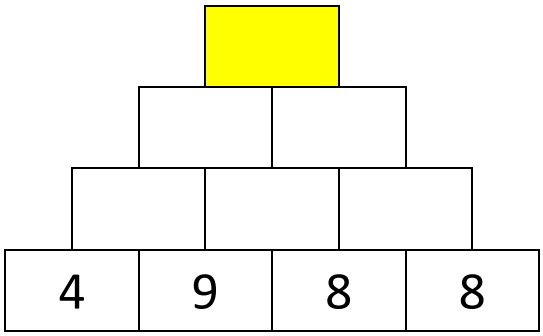
Add the numbers in the two bricks to get the number in the brick above

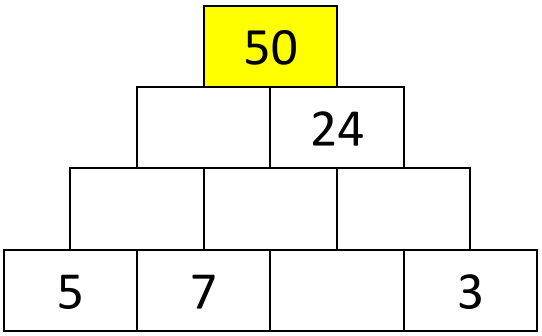


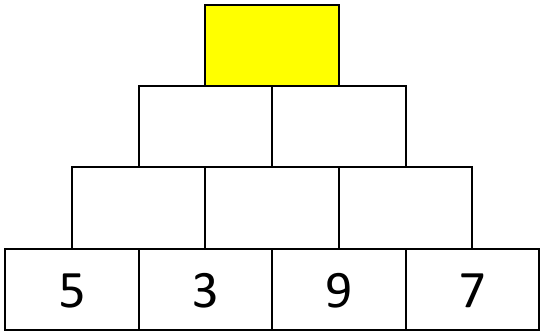


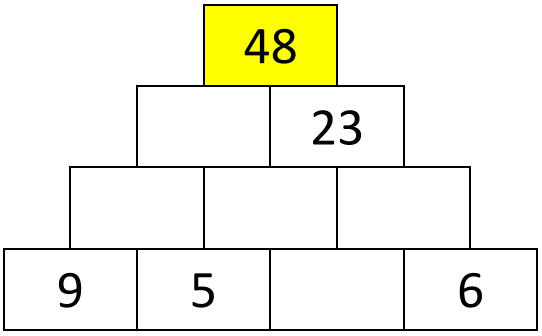


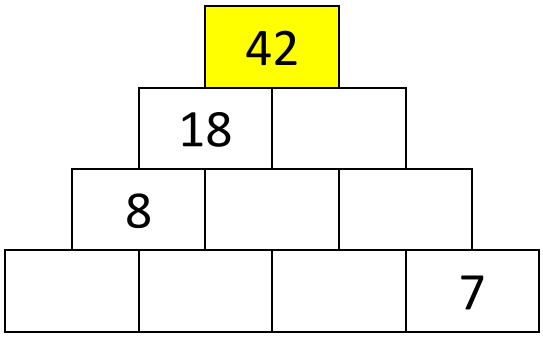


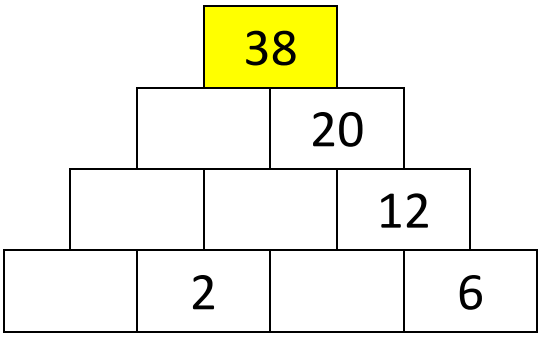






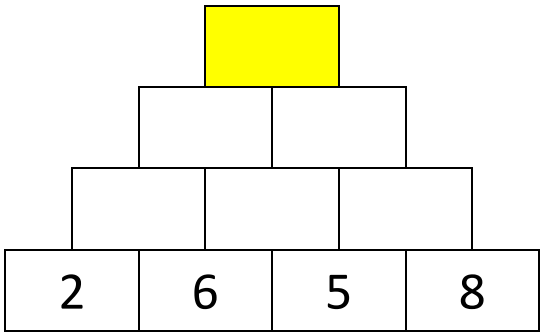


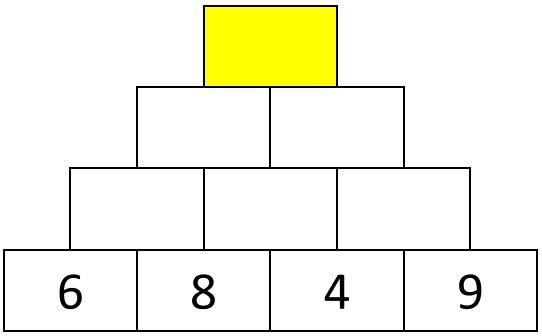


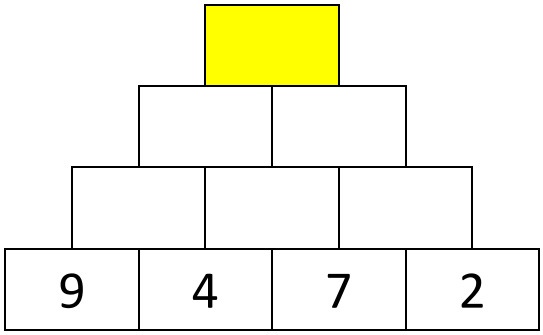


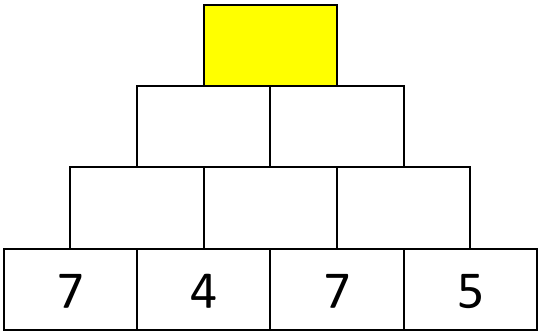
Level C - Pyramid Challenge Number 41

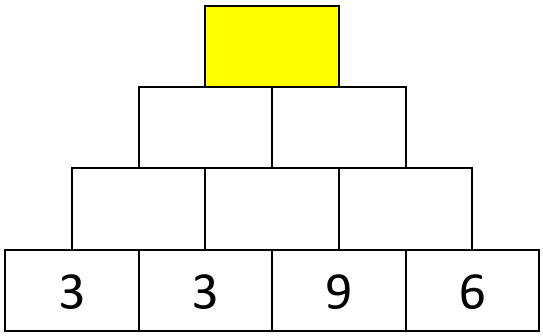
Add the numbers in the two bricks to get the number in the brick above

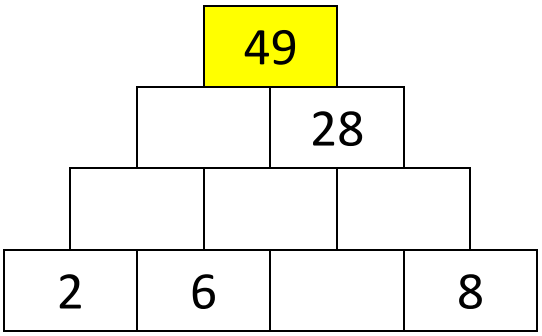


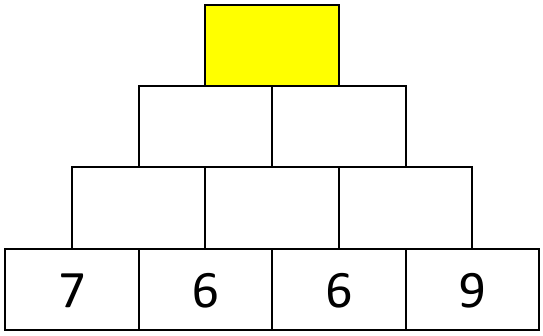


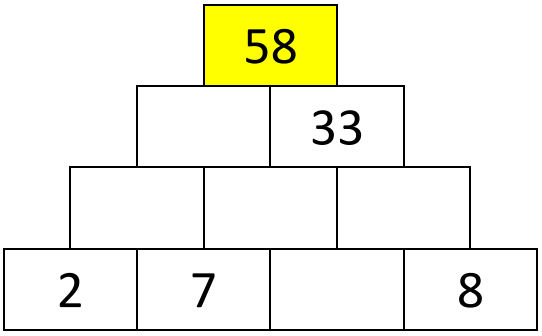


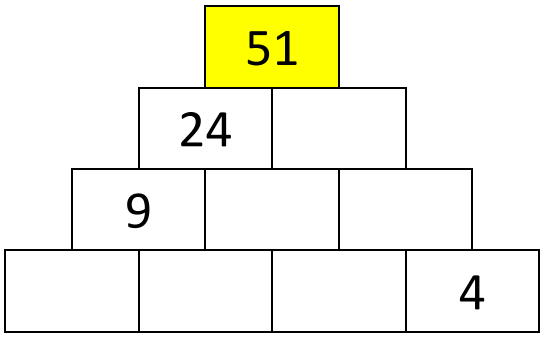


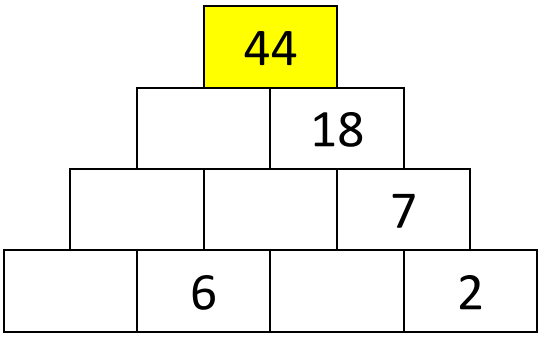






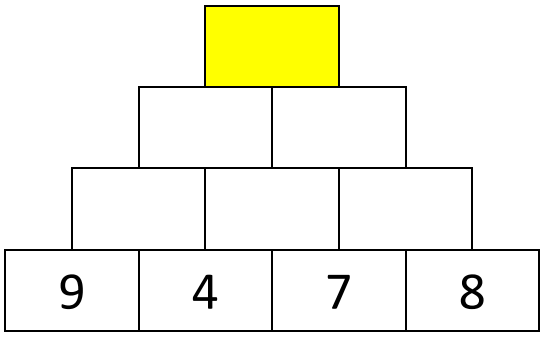


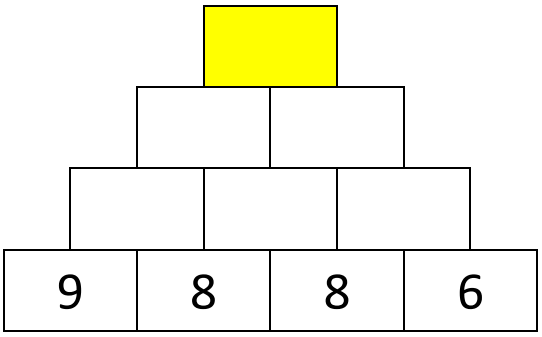


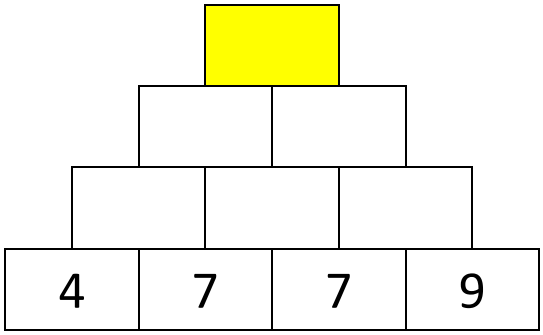


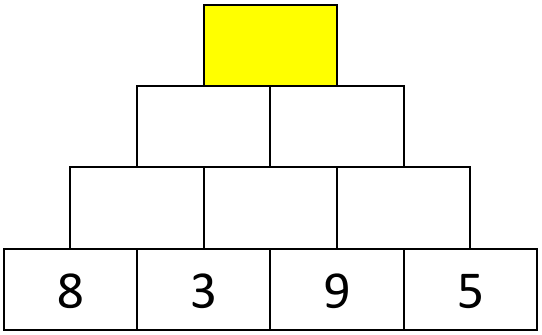
Level C - Pyramid Challenge Number 42

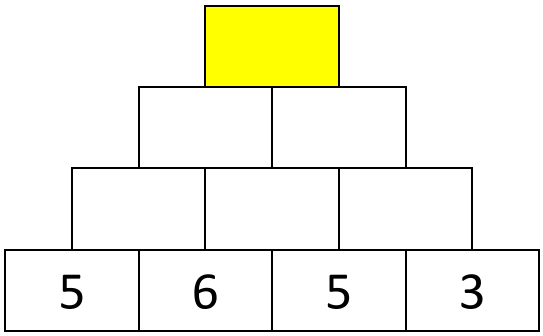
Add the numbers in the two bricks to get the number in the brick above

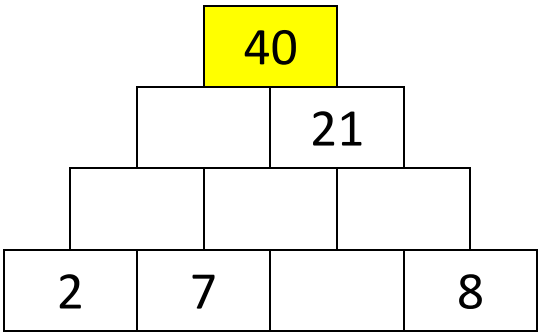


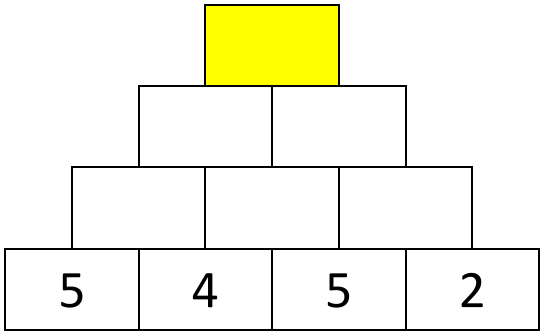


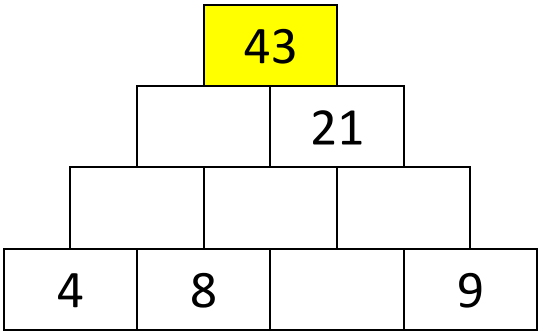


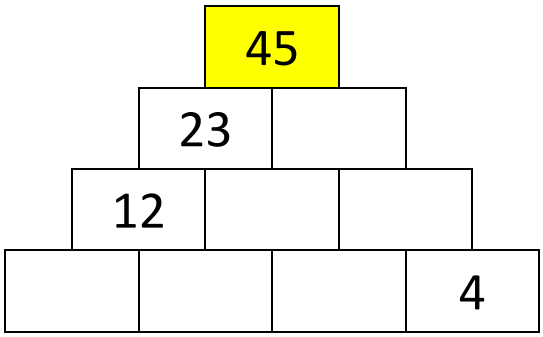


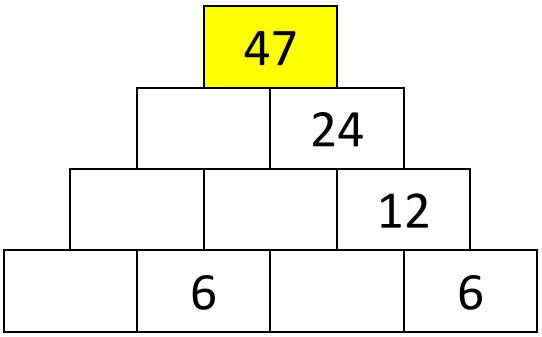






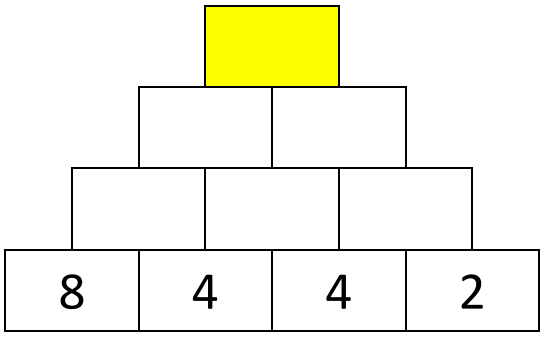


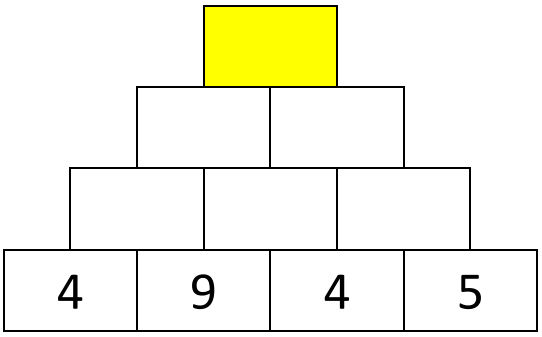


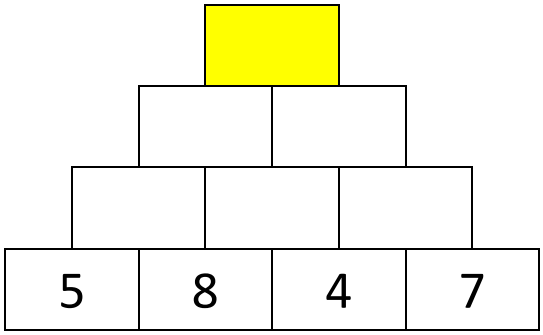


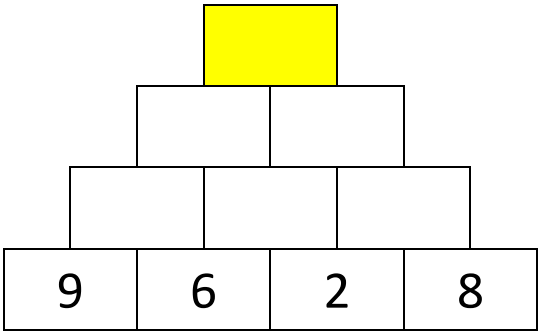
Level C - Pyramid Challenge Number 43

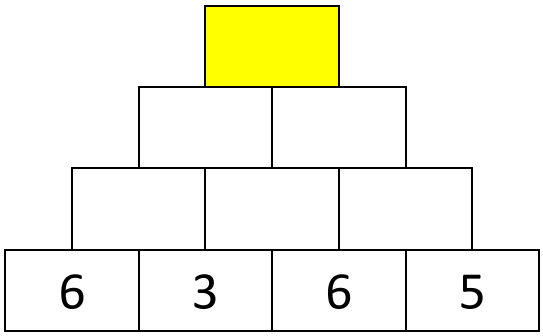
Add the numbers in the two bricks to get the number in the brick above

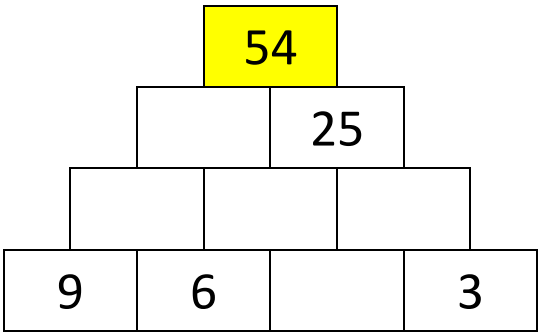


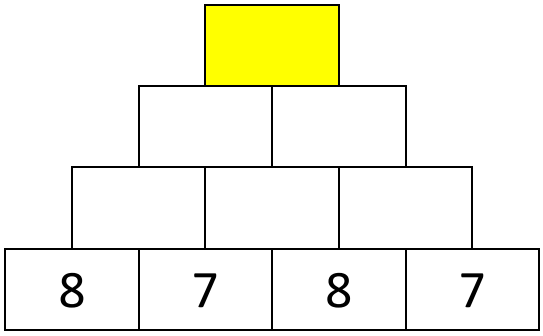


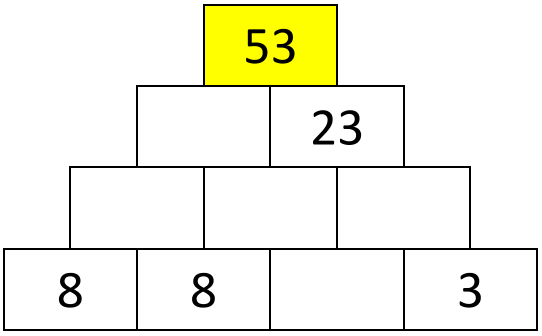


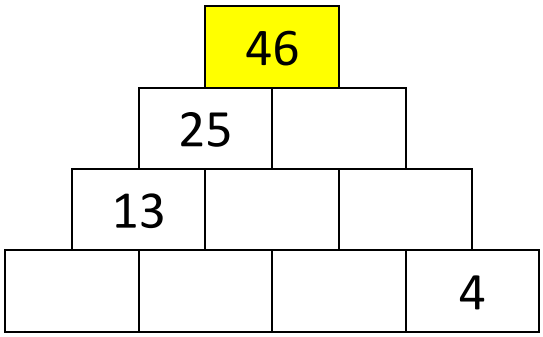


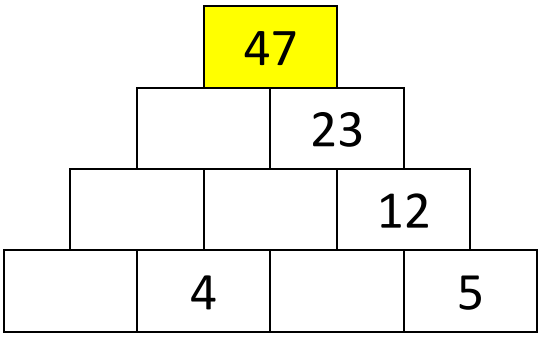






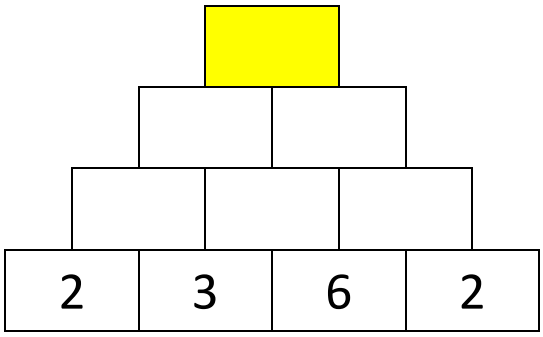


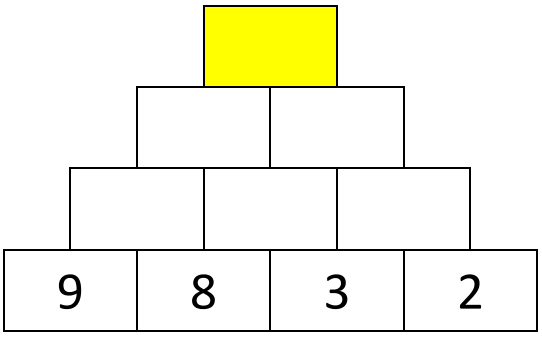


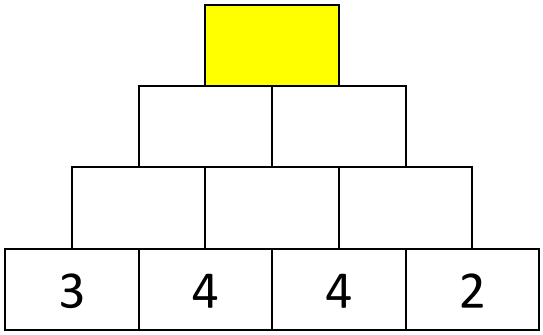


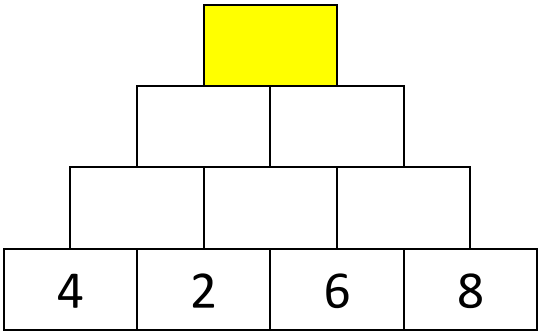
Level C - Pyramid Challenge Number 44

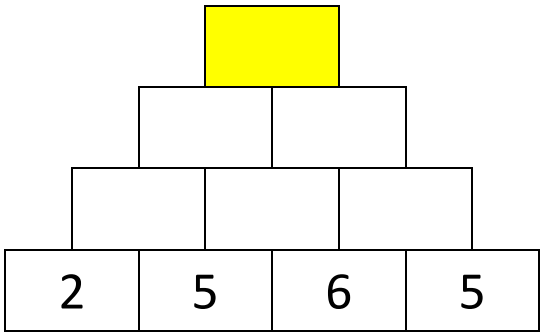
Add the numbers in the two bricks to get the number in the brick above

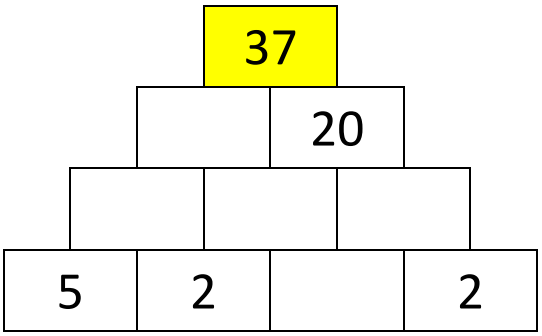


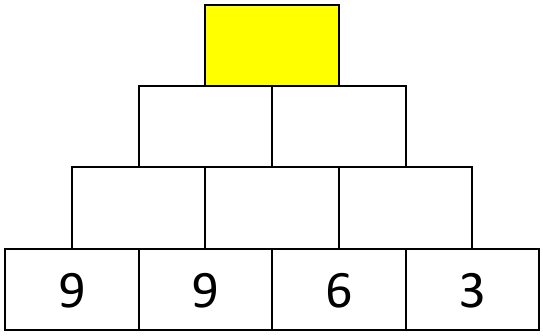


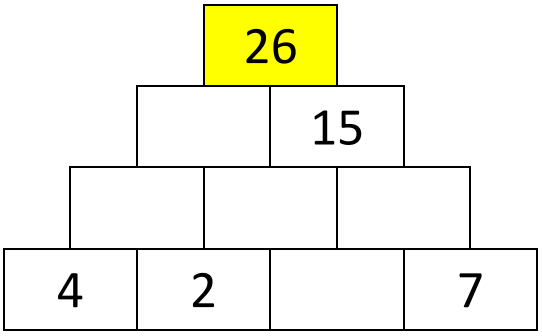


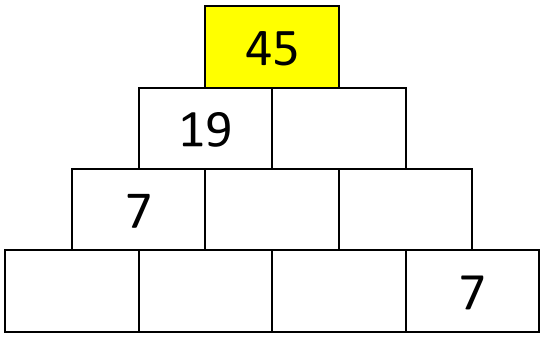


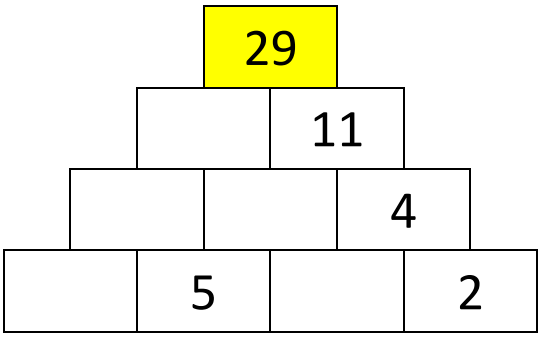






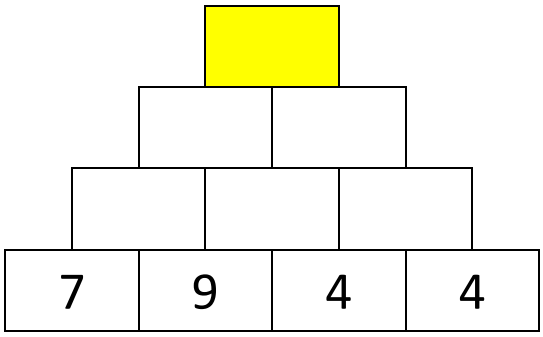


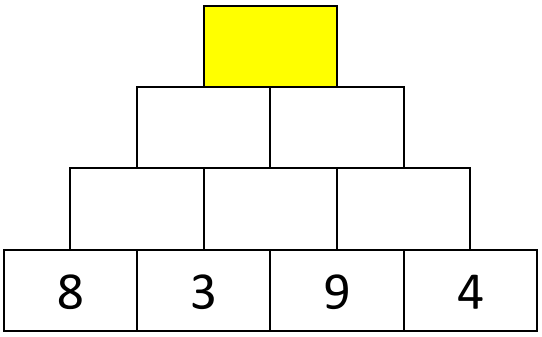


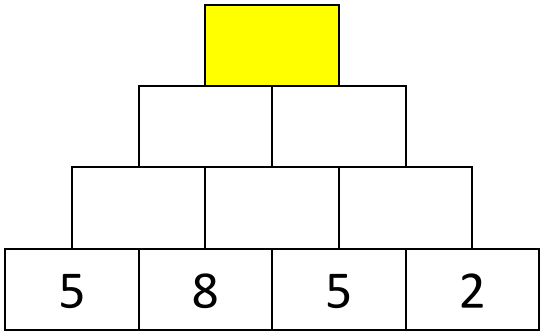


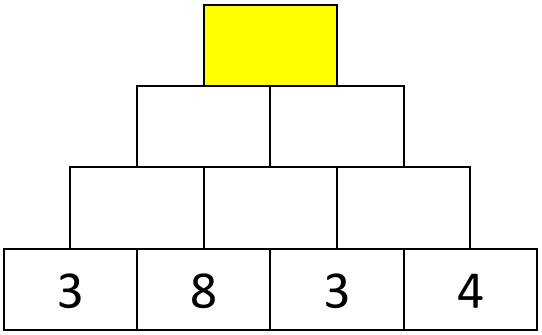
Level C - Pyramid Challenge Number 45

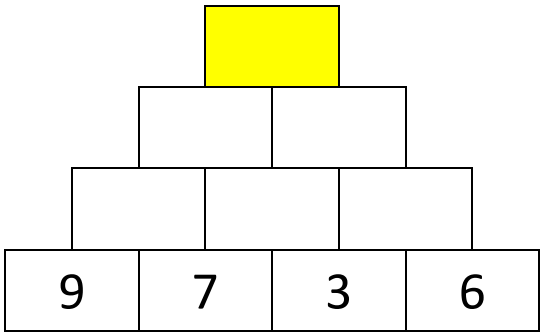
Add the numbers in the two bricks to get the number in the brick above

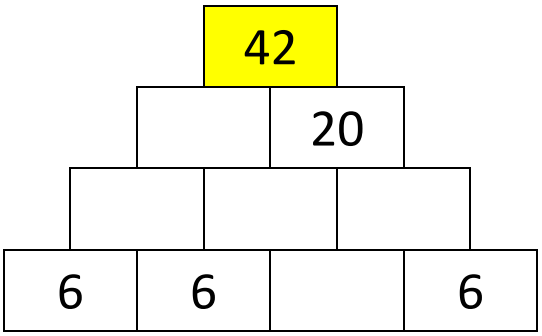


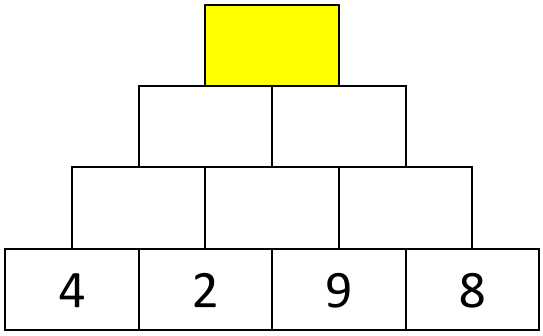


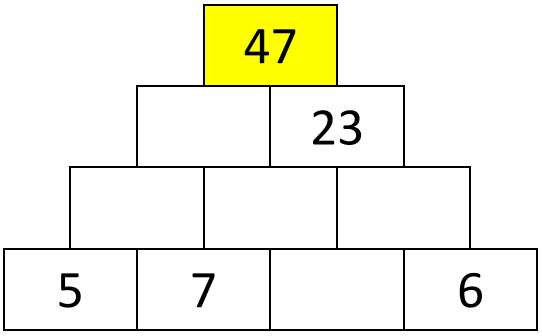


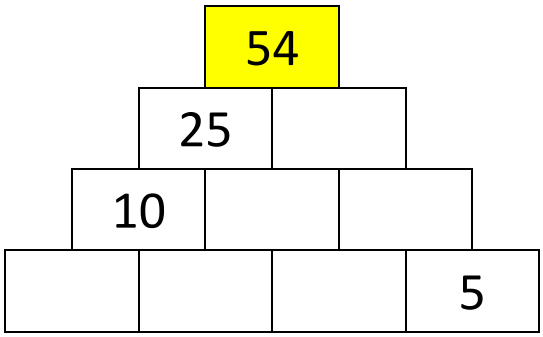


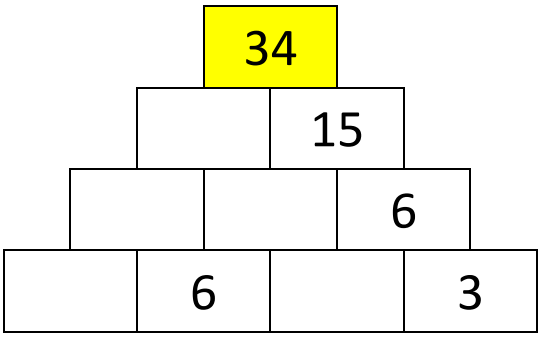






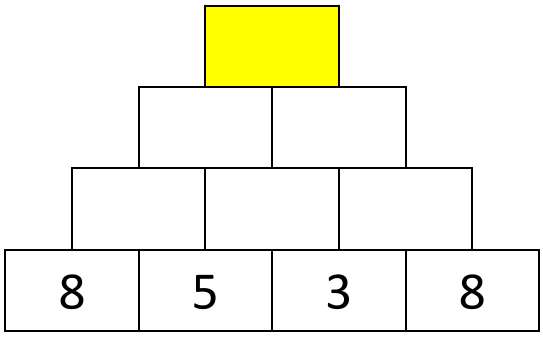


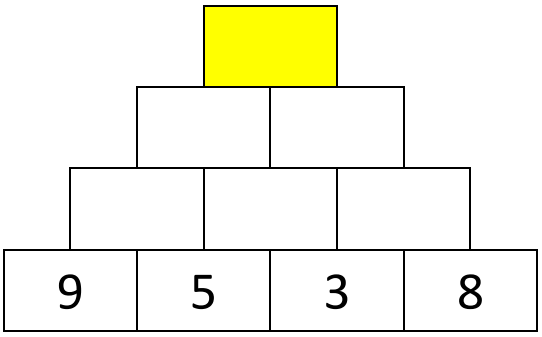


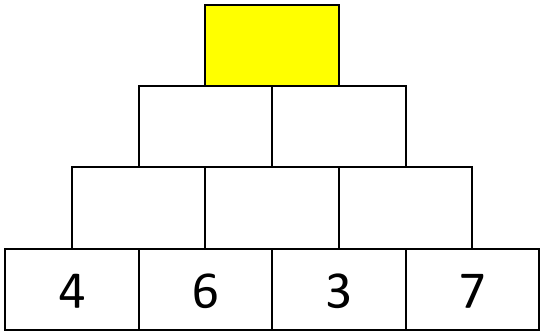


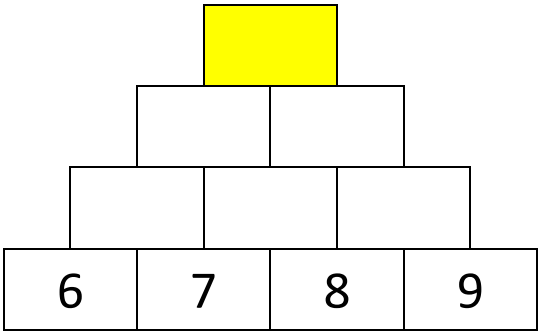
Level C - Pyramid Challenge Number 46

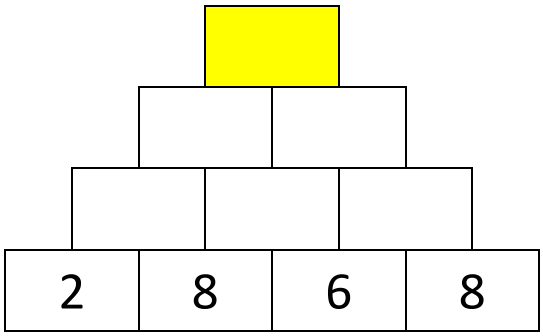
Add the numbers in the two bricks to get the number in the brick above

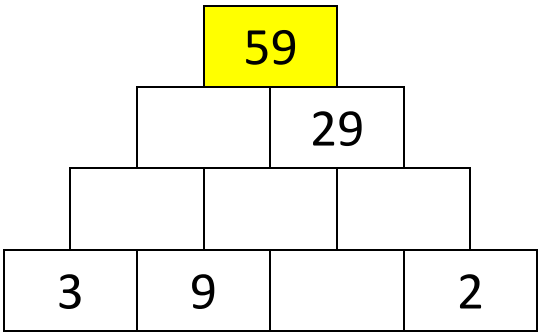


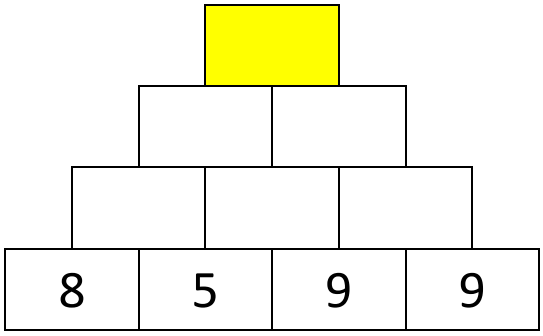


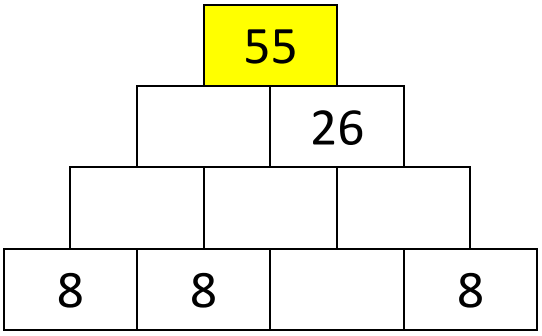


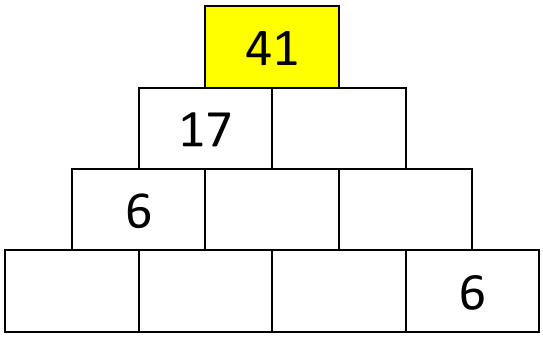


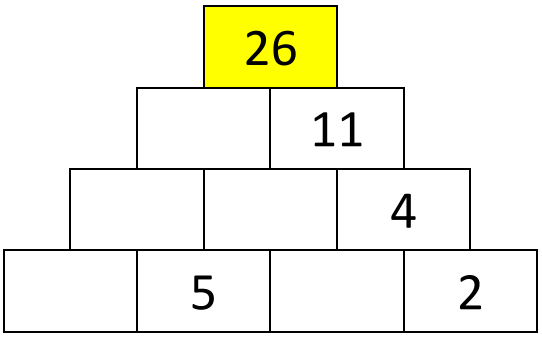






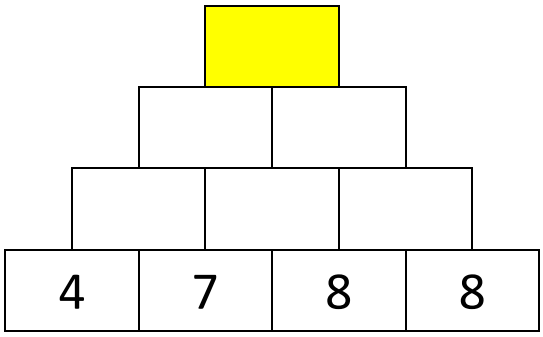


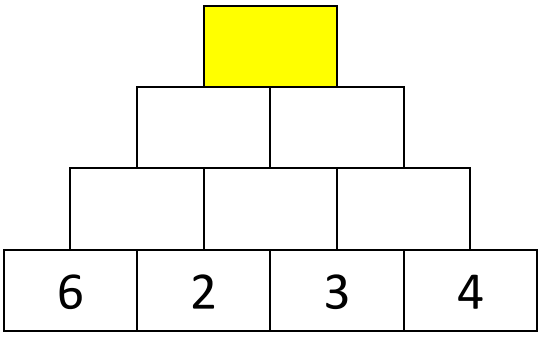


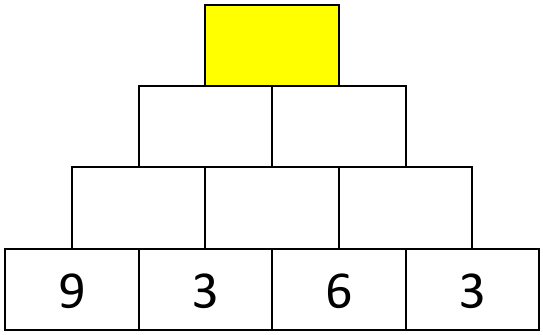


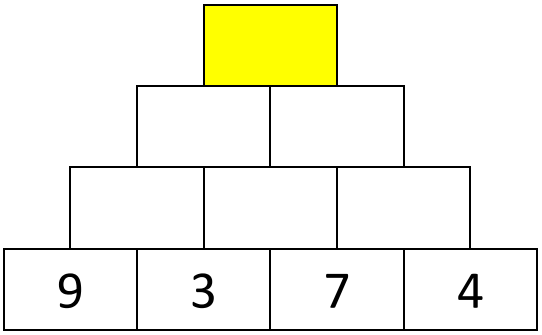
Level C - Pyramid Challenge Number 47

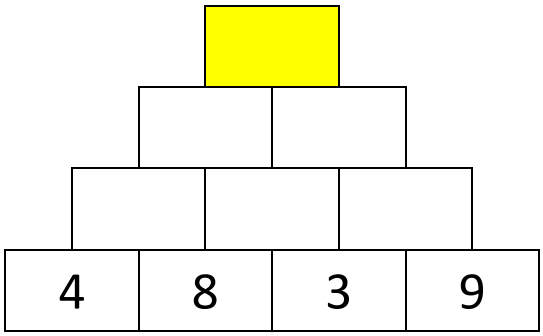
Add the numbers in the two bricks to get the number in the brick above

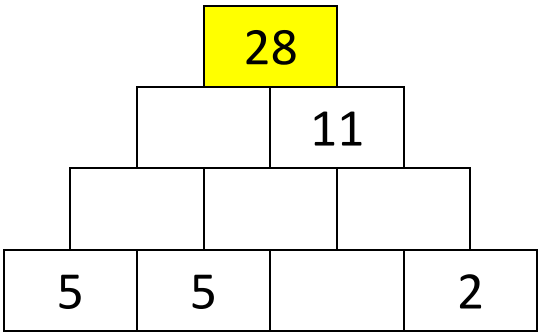


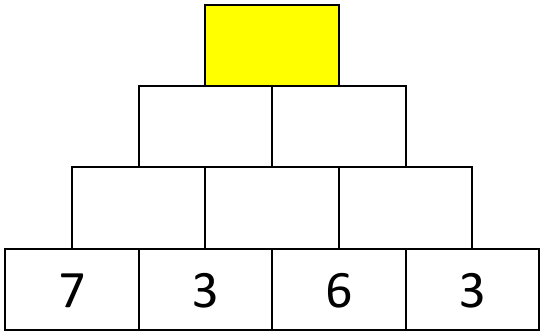


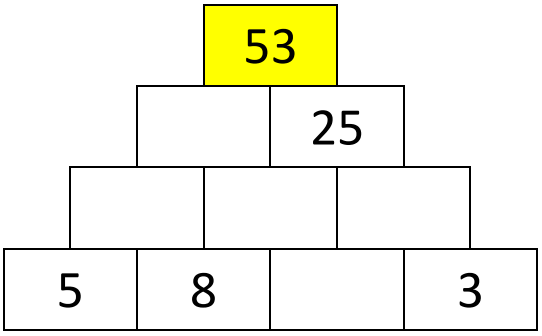


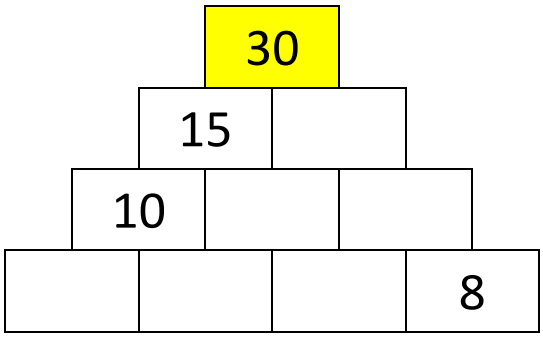


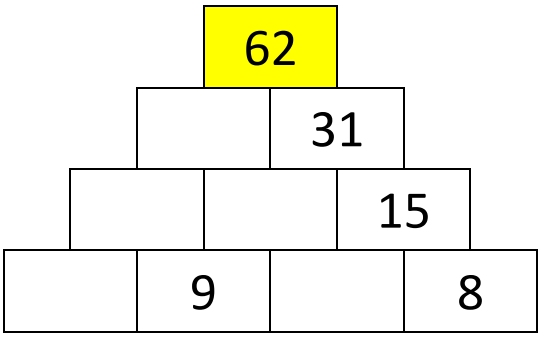






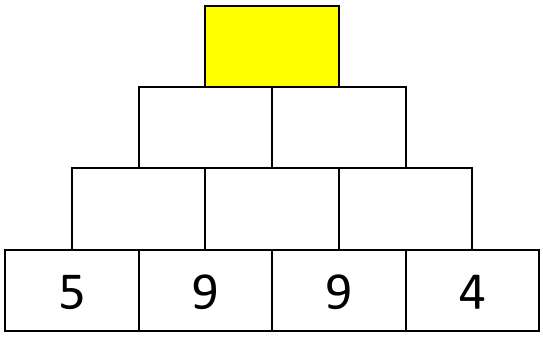


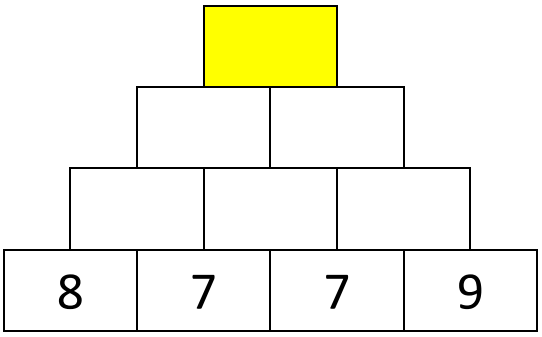


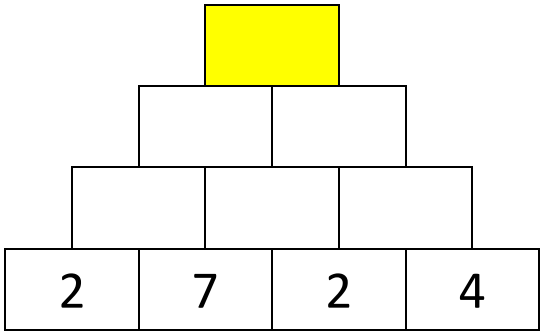


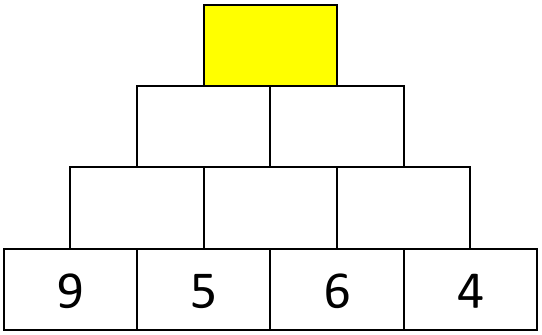
Level C - Pyramid Challenge Number 48

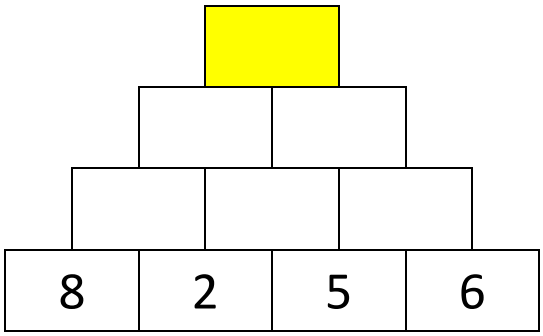
Add the numbers in the two bricks to get the number in the brick above

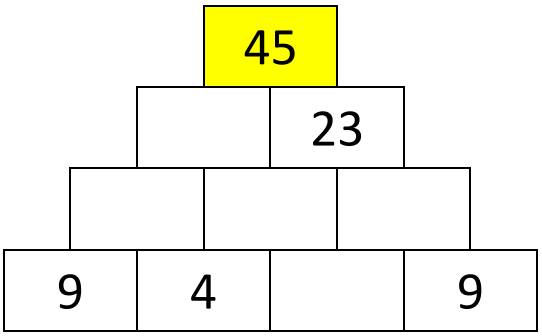


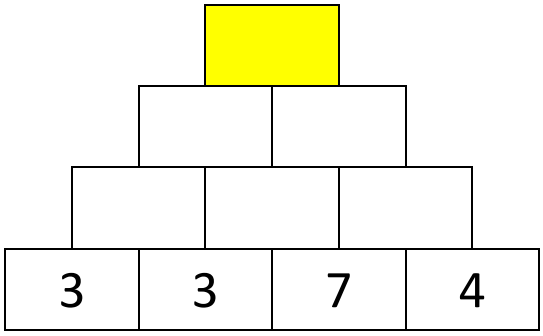


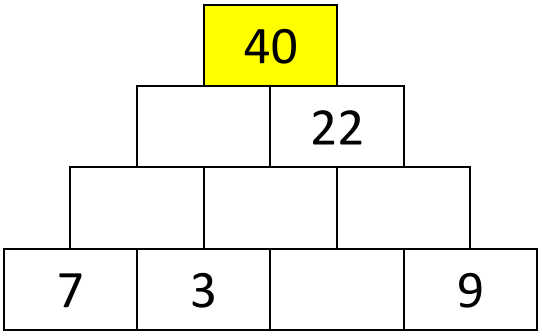


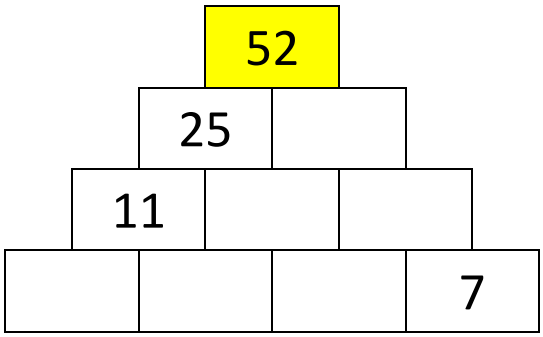


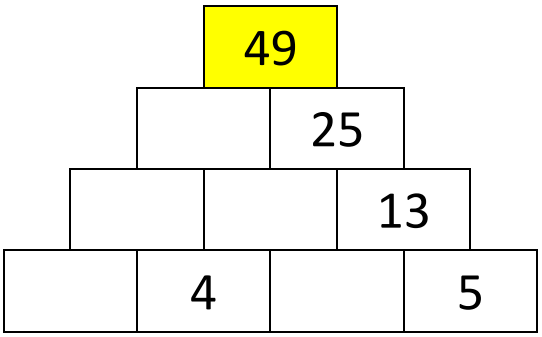






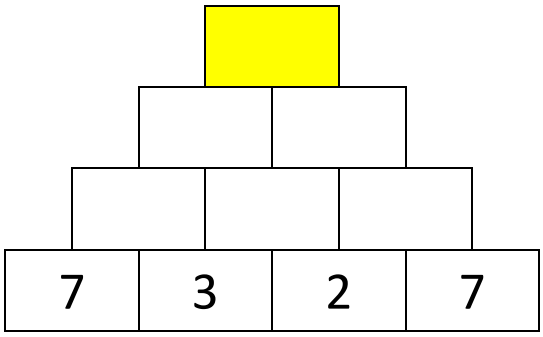


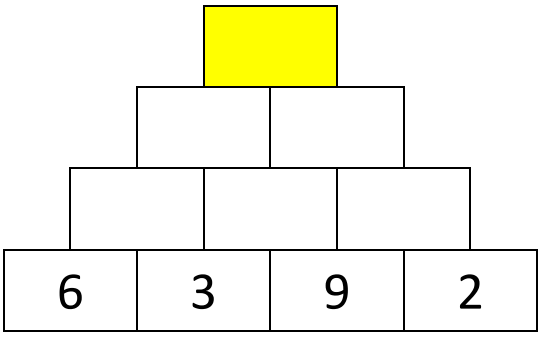


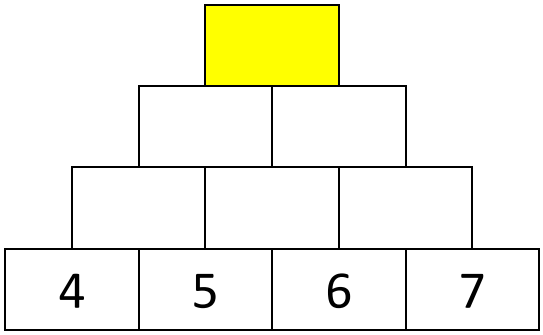


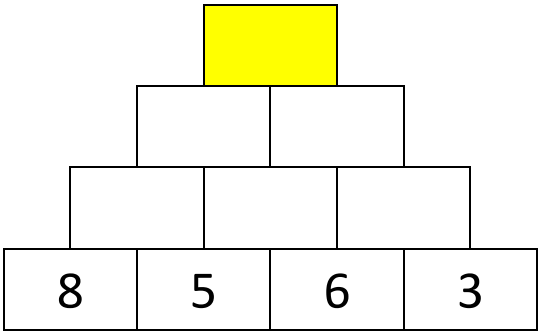
Level C - Pyramid Challenge Number 49

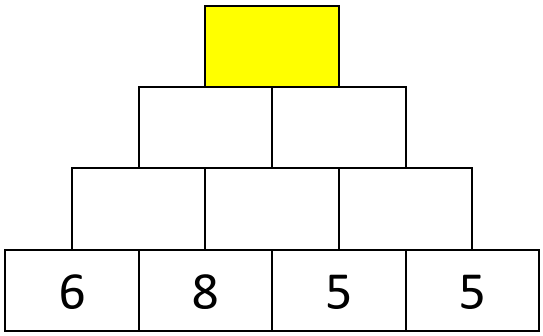
Add the numbers in the two bricks to get the number in the brick above

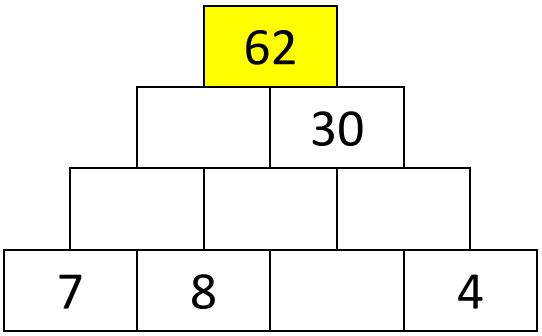


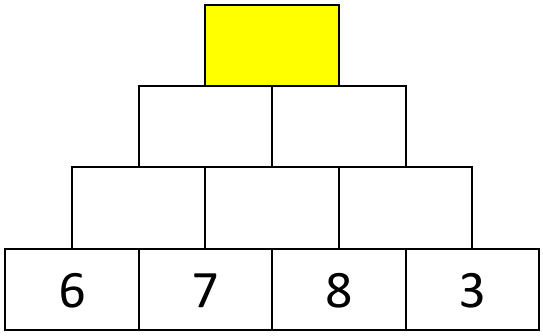


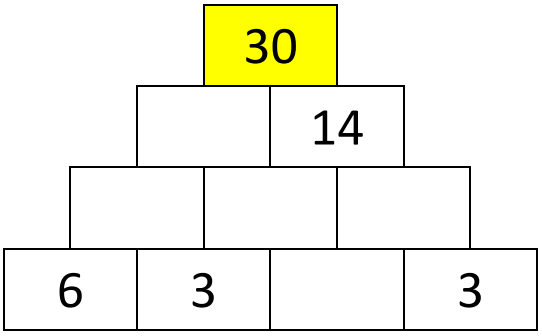


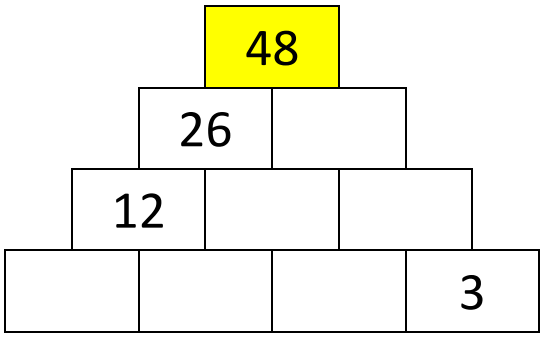


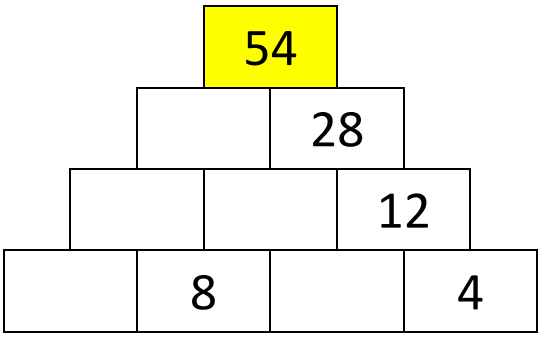


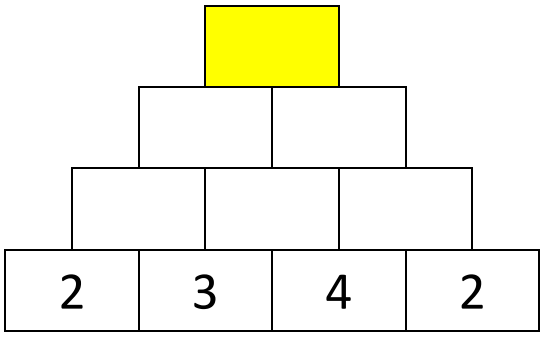


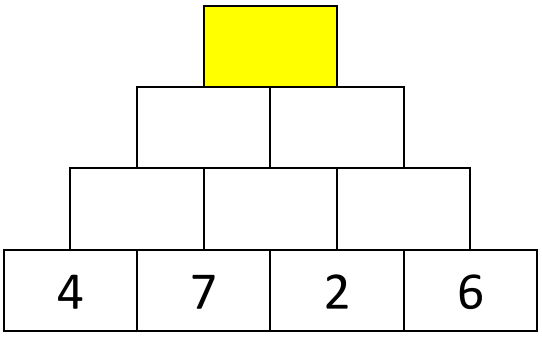


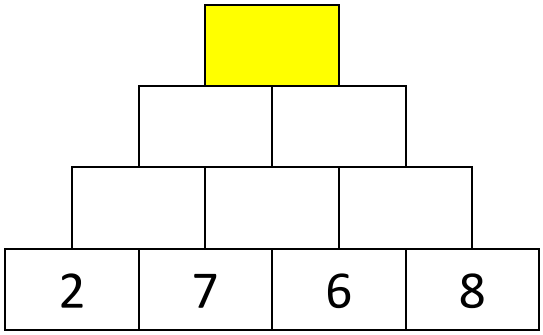


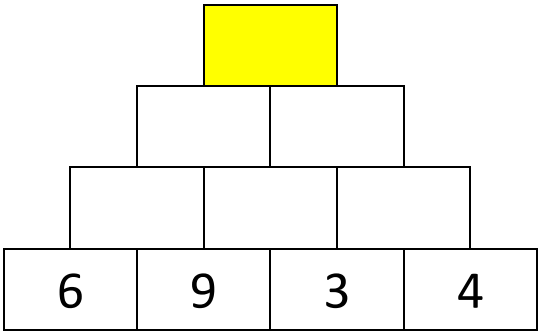


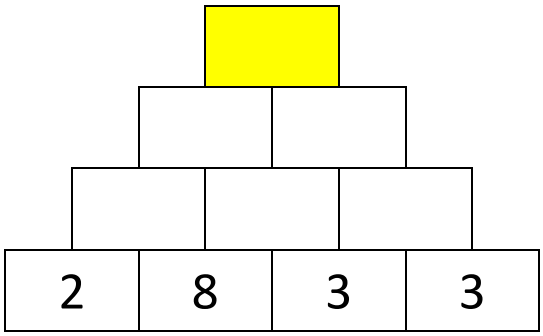


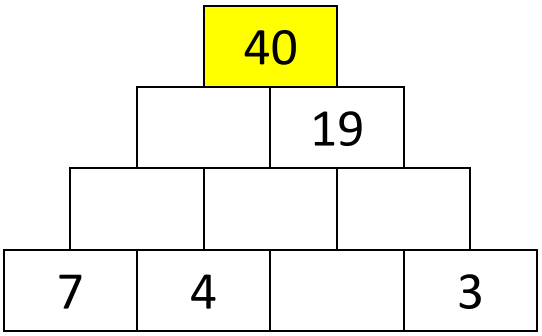
Level C - Pyramid Challenge Number 50


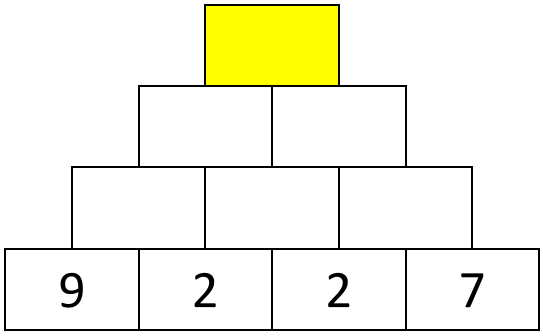


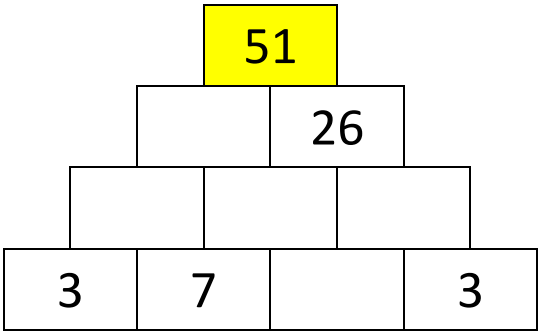


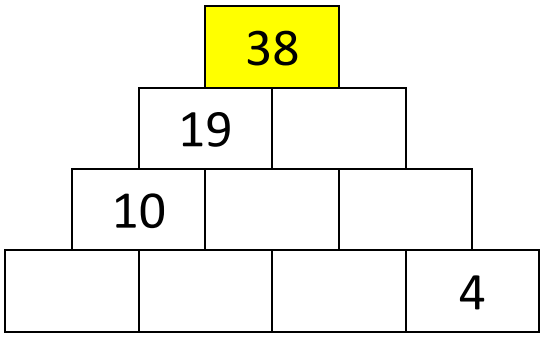


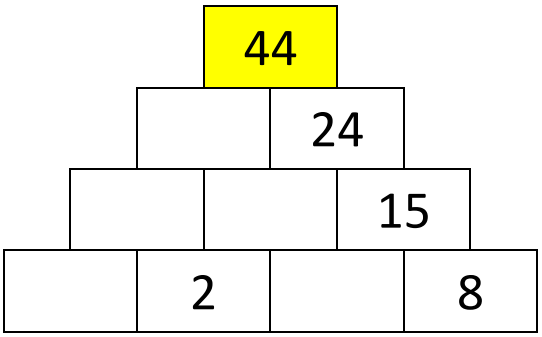












Add the numbers in the two bricks to get the number in the brick above
